we think makes the case much stronger for "Facts" than he succeeded in putting it. The following is the list of Elktonions holding the principle and most lucrative offices in the county, and which lays the Elkton politicians of Democratic faith so open to the charge of their opponents' as the successful managers of a dangerous "Ring."

1. Frederick Stump, Associate Justice. 2. Noble T. Biddle, State's Attorney.
2. David Scott, Clerk of Court.
4. Albert Constable, Auditor.

 George W. Denny, Sheriff.
 Clinton McCullough, Commissioner in Chancery.
7. F. A. Ellis, Commissioner in Chan-

cery. 8. John E. Brown, Crier. 9. A. P. Shockley, C. E. Lewis, J. B.

Ash, Bailiffs.

10. Reuben D. Jamar, Register Wills.

11. Reuben E. Jamar, Deputy Register.

It is clear enough that the above offices are all that are pecuniarily worth filling in the county. Another noticeable fact here presents itself. Eor the first time in the history of the county, all the Court bailiffs are taken from Elkton. Under all former administrations, both Republican and Democratic, the bailiffs of the Court were selected from among the constables residing in different parts of the county. But as if to entitle this Elkton "Ring" to the enithet of Tammany, which "Facts" applies to it, we find the Elkton favorites not merely holding one office apiece, but like the titled

dignitaries of England, some enjoy the emoluments of a plurality of offices. It will be remembered what thundering charges were launched against the Republican office-holders of the county, during the war, and subsequent to that time, of corruption and rioting in the people's money. It was charged by these innocent souls, whom the disgusted of their own party convict of cheating and swindling by the aid of a Ring, that the Republican officers burrowed in the dark recesses of the Court House, fattening on the spoils they filched from the pockets of the people. The Whig very promptly and truly, as the sequel has shown, denounced these charges as false and slanderous at the time they were made, incited by the ravenous craving of that party for the spoils of office. The tax-payers, who heeded not our warning at the time, have had cause to rue the day that they turned their backs on an economical and honest Republican administration and gave the Elkton Tammany the county purse to hold and control. Their taxes have been well nigh doubled, and they have the satisfaction of witnessing a bona fide "Ring," whose gripe upon their pockets is like the

embrace of an anaconda. -Dr. Fahrney's Blood Cleanser or Panacea is a valuable medicine as an alterative or cathartic, or tonic and purge for diseases arising from bad blood. It has been recently introduced here-though established

in 1780-and is meeting with rapid sale. -We publish on our first page the cloquent Address, delivered by Rev. Thos. L. Poulson, at the recent Commencement of Delaware College.

The Democratic Nominees.

brought out a sharp reply from the opposition, over the signature of "Facts," from which we reprint the following "shoulder hitters." This enemy of the "Ring" says to the editor of The Democrat:

In contradiction to your elaborate editorial of last week, I assert that a "Ring" of Elkton politicians, for secuing the patronage of the Democratic party of Cecil to themselves and their partizans, has existed, dose exist, and, until the people learn to defend themselves, as they did in the late Convention, will continue to exist.

You argue that the "Ring" is "invis-DELAWARE.

themselves and their partizans, has existed, dose exist, and, until the people learn to defend themselves, as they did in the late Convention, will continue to exist.

You argue that the "Ring" is "invisible." Against that assertion I charge that it is "wisible" in every office in the gift of the people Cecil county.

Were only Elkton politicians qualified to hold the following offices?—Clerk of the Circuit Court, Sheriff, Clerk to the County Commissioners, State Senator.

Does any gentleman in this county suppose the naturally kind hearts of the rund districts forced these sing little berths upon Elkton wire-pullers? And do you attempt, by quotations from Esop's fables and Poor Richard's saying, to justify such action? "In unity there is strength"—did vision is weakness," are your sentiments. And never did the poor people of Cecil sea a better illustration than in the "strength" of that "unity" which has enabled a few men in Elkton to secure to themselves and friends the entire patronage of a large county.

\*\*\*

First, you ask—"If a 'Ring' did exist in Elkton, as alleged, what strength did it manifest.

It manifested great strength in convincing the people of the truth of every charge, which in Elkton's name you now day, which in Elkton's name you now day, which in Elkton's name you now day, which in Elkton's name you now deep, which in Elkton's name you now deep the people of the truth of every charge, which in Elkton's name you now deep the people of the truth of every charge, which in Elkton's name you now deep the people of the truth of every classes of the rediction of the people of the truth of every clas

To illustrate: The delegation of the Third (Elkton) district was full. But although George Giles, a miller near Elkton, was in the Court House and ready to take his seat in the Convention, his place was supplied by a more experienced hand; while the place of a Mr. Blake was treated in a similar style. Why this recling of the sails? Why this clearing of the decks?—The answer is patent: In an insane moment Elkton Tammany had defled the county, and the patience of the ridden Democracy of Cecil was exhausted.

Since that fatal day Tammany has been susy density depends on the sublime of impudence reached when a little knot of Elkton wire-pullers swell up and say to the county, "Cease your opposition; submit to our dictation—to us who have a prescriptive right to rule you. Would you play into the hands of the Radicals? In opposing us you oppose the party. We are the party. Such in effect is the language employed by the "Ring."

THRASHER and CLEANER

Caution to Farmers and Thrashermen.

The undersigned, Superintendent of the New Jersey Agricultural Works, respectfully cautions his friends and customers against the FALN STRINKEN and interpresentations of the Treaton Agricultural Works in regard to the Albany Thrasher and Glement, which we have belong to represent. Their statement that Mr. Briggs would not allow the Albany machine to remain on his permises is raise, as it still remains this barm, doing good work, while the Treaton Agricultural Works to premises, and we do hereby challenge the Treaton Agricultural Works to disprove the following statement of facts and figures in regard to the recent trial:

Time of the Albany Thrasher and Cleaner in thrashing 200 sheaves of oats, 22 minutes; time of the Treaton Agricultural Machine in thrashing 200 sheaves of oats, was 35½ minutes; difference of time in favor of the Albany machine, 11½ minutes. Both machines were run by the same power and team, and the grain was all taken from the same mow. The grain wasted from each machine was carefully weighed, when it was found that the Treaton Agricultural Works Machine had wasted more than three times as much as the Albany Machine. More than 5,000 of these machines have been made and sold by one firm, and since their intraduction into New Jersey, they have fully proven their seperiority, and are fast supplanting all others.

We warrant these machines to be superior to the Trenton Agricultural Works Machine on the following points:

Interesting Facts for Farmers.

A trial of Thrashers and Cleaners took place on the 18th of April, at the farm of Bonjamin Briggs, near Tuliptron, P.a., between the Machine made by Wisceler, Melick & Co., Albany, New York, and the Machine made by Wisceler, Melick & Co., Albany, New York, and the Machine made by Wisceler, Melick & Co., Albany, New York, and the Machine made by Wisceler, Melick & Co., Albany, New York, and the Machine made by Wisceler, Melick & Co., Albany, New York, and the machine made by the Trenton Agrigatural Works, Trenton, N. MINOR II. IVINS, JOHN WHARTON, JOHN BURTON, Committee. Statement of Mr. Briggs in regard to the Trial. NEAR TULLSTOWN, June 19, 1871.

Ma. John Butterswarm, Ja.—Deer Sir.—I am surprised to see a letter without date published by Bennington till, President of the Trenton Agricultural Works, in the "Ceel County Whiz," Maryland, purporting to be a copy of a letter that I sent to you before the trial of mechanics at my place.

This letter being published without date, I think is incended to mislead the public and leave the impression that it was sent to you after the trial. After witnessing the trial of both machines, I will say that the Aliany Thrashir and Cleaner proved itself all that you represented it to be and will also say that your statements of facts and figures in regard to the recent trial, I believe to be true and correct.

The statement that I would not allow your machine trial are the public and true, as the machine still remains in my barn.

By a careful comparison of the above facts it will be seen that the Albany machine did the same work in one-third less time, and in thrashing twenty-five hundred sheaves, (an ordinary day's work) would save one hun-dred and forty pounds more grain than the machine made by the Trenton Agricultural Works. After this conclusive trial we think that farmers and-dealers will have no difficulty in deciding which machine its their interest to purchase.
