

Mr. John C. Hindman is our regularly authorized Agent and Collector to procure subscriptions and advertising for the Whig.

LOCAL AFFAIRS.

Religious.—We learn that Rev. Thos. L. Poulson is to preach in the Presbyterian Church, at Zion, to-morrow (Sunday) afternoon, at 3 o'clock, the pastor of said church being absent from home.

Repairs.—The damage wrought in our public highways in the upper portion of the county, by the terrible storm of the 25th ult., has been generally repaired, so that there is no longer any interruption to travel on that account.

Sabbath School Pic-Nic.—The Cherry Hill M. E. Sabbath School will hold their annual celebration and picnic, in the "Hawson Woods," one-half mile east of the village, on Thursday next, the 14th inst. The public are invited to attend.

The Schools at Zion.—The public school at Zion, in this county, was resumed last Monday, under the Principality of Miss Carter, of Rising Sun.

Fatal Accident.—On Tuesday last, Mr. V. Shep. Cole, of this town, received a dispatch that his brother George, who was a telegraph operator, had been run over by the cars, at Louisville, Ky., the day preceding, and had one of his legs terribly crushed. Amputation was necessary—about five hours after which he died. He was about 19 years old.

Business Changes.—Mr. M. Cummings, who for years has been carrying on the bakery and confectionary business, has disposed of the same to Messrs. Frank Lord and Frank Drabury. The business is well established, and energy and tact will make it profitable. We wish the new firm success.

Mr. J. M. Terrell, having bought out Mr. W. Boulton, is now running the meat and provision store in the "Hollow," next to the Ice Hive, where he intends keeping a No. 1 store of the kind.

Pic Nics.—The Sabbath-school connected with the Zion Presbyterian Church, of this county, held their annual pic-nic on Wednesday afternoon last, in Carhart's grove, near the town. It was well attended, and greatly enjoyed by the company, who were treated to ice cream and cake.

We also understand that the St. John's Methodist Episcopal Sabbath-school, of Zion Circuit, purpose holding their annual pic-nic, on Thursday, the 14th inst.

Death of a former Citizen.—On Sabbath evening last, John K. S. Lovell, a young man about 24 years of age, died at the residence of his mother in this town, after a severe illness of about ten days. On the 25th ult. he was brought home from Middletown, Allegheny county, Md., in a very feeble condition, and continued to grow worse until the disease terminated in death. John was an upright, intelligent young man, and his ambition to perform arduous tasks was far too great for his exceedingly delicate frame. About a year since he accepted a clerkship under a coal company at Middletown, thinking that the mountain-air and change of climate would benefit his health. Being an excellent accountant, he gave satisfaction to his employers, and had determined on taking his mother to the place of his residence, she having been preparing to go for some time. The reader can then imagine how great the sorrow and disappointment to the bereaved mother, caused by this sudden loss of her only son, who was deposited in the M. E. burying ground at North East, on Tuesday afternoon last.

Local Miscellany.—Postmaster General Creswell is at Cobb's Island, with his family, and will remain there until the latter part of this week. Crabs are very abundant in Elk River this season. The Small Pox is reported in Newark Del. Upwards of sixty persons are reported sick with chills and fever in Havre de Grace. Efforts are to have another sugar-catch. B. Wells Jr., is having a candy shop built opposite the depot.

With the next good tide rail shooting will commence on the Elkton marshes.—For several years past, this species of shooting has not been so good as formerly, the birds being less numerous. The large flocks of starling, which congregate about the marshes and corn-fields, have engrossed the attention of our gunners for some weeks. The reed-birds and rail will next claim their attention.

The temperance party seem to be making a systematic and bold offensive movement against the rum traffic in this county.—The recent Temperance Convention at Cherry Hill, ordered the list of licensed hotels in this county to be published, together with the signatures recommending the issue of license to them, and the secretary, in carrying out the order, has copied the list from the records in the Clerk's office, which will be found published in our advertising columns to-day.

The Elkton Building Society meets to-night.

A Road that would be a Commercial Advantage to the County.—While numbers of roads that have been opened by the activity of the county and at the expense of the tax payers, were more than useless, in as much as they accommodated the public in no wise, and entail an annual expense on the county, and therefore should be closed or abandoned as public roads, where the business of the county demands a convenient road to be built, such public improvement should be made. This matter of public interest is brought to our notice by the items of our Fourth District correspondent, which mentions the improvement of Mr. Brewster on the old Thistler Factory property, located about one mile above the Cotton Factories of Messrs. Baldwin & Co., which have been doing a very profitable business since they fell into the hands of the present owners and managers. The old Thistler Mill will doubtless soon be driven as thriving a business under the new owner as the Baldwin Mills, and the question of roads will be an important one to the owners, as the profits of manufacturing in a great measure depends upon the facility manufacturers have for getting their products to market. If the level and easy road recently constructed on the bank of the old feeder between the Lord Factories, or Elk Mills and Elkton was extended out to Big Elk, to the factory at present being reconstructed by Mr. Brewster, doubtless an extensive trade would be drawn to this town and kept within the county, which, cut off, as it is, from the want of an easy and convenient road, will doubtless be forced to find an outlet at Newark, Del. The extension of this road will, in all probability be petitioned for, and we trust that wisdom and a true appreciation of its commercial advantages to Elkton and the county will receive the consideration they merit by the County Commissioners.

FOURTH DISTRICT ITEMS.

Religious.—They still continue to hold the regular Sabbath evening meetings at the Jackson School. However, although not as largely attended as they were at first. The Sabbath-school at the Rock was discontinued until the church is finished, but there will be preaching, probably without any intermission, until it is finished.

Improvement.—Mr. Brewster, who lately moved into the neighborhood, and owns the factory formerly known as "Thistler's," has been making great improvements there, on by way of buildings, etc.; besides putting in some thousands of dollars worth of new machinery—some from Massachusetts, and some direct from England.

Thieving.—Our District is still able to maintain its share of petty thievery. They have visited several spring-houses of late, getting as high as 20 pounds of butter at one place.

Cattle Killed.—Mr. Montgomery, who resides at Green Hill, in this vicinity, had two fine cows killed, one night last week, by a passing train of cars.

Carriage Shooting.—On Wednesday last, Mrs. Dean, wife of Mr. Wm. Dean, of our town, while standing in the garden, was somewhat injured by a large number of shot striking her and penetrating her clothing. Her little son, who was standing by her side, was also struck on his head by several shot. The shot were from the guns of two young men who were shooting blackbirds.

New Dwelling.—Mr. Drummond's new dwelling, on Bridge street west of Main, is rapidly approaching completion. This building will be a fine improvement in that part of our village.

Brick Making.—Mr. A. Ford having burned a kiln of fine building brick, a few weeks since, has at present a number of operatives at work in his yard, preparing material for another kiln.

Birds.—Very large flocks of blackbirds are daily feeding among the marsh grass, adjacent to the creek, on the west side of our town, and the report of the sportsman's guns is frequently heard, but, sometimes, a little too near the abodes of some of our citizens, for their personal safety.

Weather and Health.—The great heat of the sun through the day and the coolness of the night is producing much sickness during the present week, mostly chills and fever with some cases of typhoid fever.

Good Templars County Convention. The sixth session of the Cecil County Temperance convention met at Cherry Hill, about 11 o'clock a. m. and after organizing and appointing some committees to prepare reports, &c., adjourned to meet at the M. E. Church, at 2 o'clock p. m.

At 2 p. m., the Convention was called to order by Rev. T. L. Poulson, W. C. T., in the Sabbath school room of the Church. The election of officers was then in order and the following were chosen: Rev. T. E. Martindale, of Port Deposit, W. C. T.; S. A. Baskin, of Chesapeake City, W. Y. T.; George Balderston, of Colona Lodge, Sec'y; Elliott Brooks, of Chesapeake City, Treas.; Rev. J. Dare, of Cherry Hill, Chap. The Convention then took a recess and were called to order in public session in the main audience room of the building when the report of the committee on credentials was read, showing 10 Lodges out of the 11 in the county to be represented.

The new officers of the Convention were then installed, and on being called they each responded in a few appropriate remarks. The report of the Committee on Resolutions was then taken up and after much interesting debate and a few alterations they were adopted as follows:

Resolved, That the object of all government should be to protect the morals of the community by the punishment of evil, and the removal as far as possible of all temptations to crime and the removal of those who do well. And we can conceive of no possible motive of our law makers to sell out the morals of any people for 30 pieces of silver by granting a license to any man or set of men to sell that which has been proven to be a fruitful source of every variety of vice and crime and which produces possible temptations to crime.

Resolved, We heartily endorse the doctrine that "Every license granted is a premium on crime, and not a penalty—a motive to weaken personal character, to destroy character. Government no longer is the guardian of the governed, but a social destroyer. Law is thus made to stamp a moral sense of dishonor on a false glitter of so-called respectability, and we are astonished that any one, with such clear views of responsibility, should continue blind to the evils of the present liquor laws, and deaf to all appeals for their removal.

Resolved, That our observations at Cherry Hill have demonstrated to us the fact that a town can live without a grog-shop, and that a poor-house can not.

Resolved, That a committee be appointed to detail the county Poor-House, and furnish a detailed statement of its condition, its institution and the character of its inmates, stating, so far as possible, the cause of the large number of boarders, as far as relates to alcoholism, and further, that this committee be empowered to inquire into the amount of other expenses to the county from this same cause; and report the same, with their recommendations, to the next meeting of the Convention.

Resolved, That we most respectfully request the political parties of this county to place before them in nomination for the House of Delegates, as well as certain to favor a law leaving the question of license or no license to be settled by the voters and heads of families in the neighborhood of those taking such license.

Resolved, That we approve of the action of Cecil Lodge in publishing the names of all applicants and voters in our county, and that the secretary be authorized to secure their publication in our county papers.

Resolved, That a vote of thanks be given to the Trustees of this church, for the use of their building for the Convention.

Resolved, That a vote of thanks be, and is hereby extended, to the citizens of Cherry Hill for their kind hospitality to the members of this Convention.

Resolved, That the proceedings of this Convention be sent for publication, and all other papers the secretary may choose.

The "Wilmington City Soap" challenges the world to beat it. It is a pure, harmless, beautiful and effective article, warranted to do all claimed for it. The whole country is beginning to appreciate its superiority. Moore & Bro., manufacturers of this article.

Proceedings of the Union Republican County Convention.

Pursuant to the call of the County Central Committee, the voters of the Union Republican party assembled in primary meetings, on Saturday last, and elected delegates to the County Convention, which convened at Elkton, on Tuesday, 5th inst., to elect delegates to the State Convention, which will assemble in Baltimore on Tuesday next, 19th inst., to nominate candidates for Governor, Attorney General and Comptroller of the Treasury.

The Convention was called at 2 o'clock, and organized by electing Mr. Lewis T. Roberts, Chairman, and Mr. John Haines, Secretary. On completion of the organization, the first business in order was calling the Districts in their numerical order.—The Districts responded as called, nearly all the delegations being full. The next in order was nominations for delegates to the State Convention. The gentlemen placed in nomination were T. P. Jones, of 1st District; G. W. Boulton, of 2d District; T. McVey, John J. Jones, James T. McCullough, and John T. Wilson, of the 3d District; James McKane, of 4th District; James S. Crawford and Dr. N. B. Morrison, of 5th District; Barclay Reynolds, of 6th District; J. B. Pugh, of 7th District; Thomas Grubb, of 8th District, and Sutton Scarborough, of the 9th District. On motion, S. J. England and James McKane were appointed tellers. On the ballots being counted, the following gentlemen were found to be elected delegates to the State Convention: Thos. J. Jones, Jos. B. Pugh, W. J. Jones, Barclay Reynolds, and G. W. Boulton. J. T. McCullough, John M. Ireland, James McKane, Thomas Grubb and Dr. N. B. Morrison were elected alternates, and the delegation empowered to fill vacancies in the Convention.

The sense of the several delegations was next taken on the question of changing the mode of nominating candidates for county offices, when it was found that eight Districts had instructed their delegations to vote against the "Crawford county" plan of making nominations, and the 9th District instructed in favor of the proposed change.

The question as to the time of calling the Primary Meetings and the County Convention for the purpose of nominating candidates for county offices, was next brought before the Convention, and after an interchange of views, it was determined to issue the call for the Primary Meetings, on Saturday, the 10th inst., and the County Convention on the following Tuesday, the 10th inst.

On motion of Mr. Scarborough, the Convention adjourned sine die.

If all the clothing in all other clothing houses in Philadelphia was put together, it would not equal the stock of that one great establishment—Wanamaker and Brown's Oak Hall.

Mr. Thos. Dupuy, No. 37 South Second Street, Philadelphia, would call attention of those wishing to purchase Carriages, &c., to his large stock. Read adv. in this issue.

Wholesale Poisoning.—One evening last week, a large private party made a steamboat excursion down the Bay, from this City. The moon shone, the waves lapped, and the music of the band was heard. The party were all merry and happy, and the affair delightful. Next day, however, or soon thereafter, nearly the whole of the party suffered from symptoms of poisoning, and a number of our most respectable families now have one or more members seriously sick. The cases have not been clearly defined, but they seem annoying and distressing, and one peculiar feature is that after the person seems to have entirely recovered, he is seized again, with as much acuteness as before.

This characteristic revived the stories told of the old National Hotel poisoning, in Washington. Many of the victims of that poisoning fully recovered their health, though surviving for years.

Naturally enough, the affair creates great interest, and much gossip, and we thus refer to the facts. One of our physicians is said to be treating not least than fifty cases, suffering from the unfortunate influence.

How did it happen? That is the question. Nobody knows. Something that was drunk or eaten, or that a child's nurse catered got up the refreshments, and it wasn't his fault, surely, for he was sick himself. It wasn't the coffee boiled in copper kettles, for some think are sick on coffee. It wasn't the lobster-salad that raised the trouble, for several of the sufferers detect lobster. And as there was a nutmeg in the salad, they think it was the nutmeg that did it. But what it contained nobody knows, as yet.

Medical men say that the odor arising from decaying flowers which were placed in vases in close rooms, as is such a universal custom in America, is very injurious, and contains a germ which is very dangerous to those who do well. And we can conceive of no possible motive of our law makers to sell out the morals of any people for 30 pieces of silver by granting a license to any man or set of men to sell that which has been proven to be a fruitful source of every variety of vice and crime and which produces possible temptations to crime.

Resolved, We heartily endorse the doctrine that "Every license granted is a premium on crime, and not a penalty—a motive to weaken personal character, to destroy character. Government no longer is the guardian of the governed, but a social destroyer. Law is thus made to stamp a moral sense of dishonor on a false glitter of so-called respectability, and we are astonished that any one, with such clear views of responsibility, should continue blind to the evils of the present liquor laws, and deaf to all appeals for their removal.

Resolved, That our observations at Cherry Hill have demonstrated to us the fact that a town can live without a grog-shop, and that a poor-house can not.

Resolved, That a committee be appointed to detail the county Poor-House, and furnish a detailed statement of its condition, its institution and the character of its inmates, stating, so far as possible, the cause of the large number of boarders, as far as relates to alcoholism, and further, that this committee be empowered to inquire into the amount of other expenses to the county from this same cause; and report the same, with their recommendations, to the next meeting of the Convention.

Resolved, That we most respectfully request the political parties of this county to place before them in nomination for the House of Delegates, as well as certain to favor a law leaving the question of license or no license to be settled by the voters and heads of families in the neighborhood of those taking such license.
