The children it is supposed commenced handling the weapon, which was discharged, the ball entering the head of the younger as before stated. The ball penetrated the skull and was traced some inches under the bony covering of the brain, in the direction of the left ear, where it now remains. The child's condition is very comfortable; and it is quite possible that this will prove another of those extraordinary injuries to the brain

without fatal result. The father of the boy was away from home at the time of the sad occurrence, somewhere in New Jersey.

Fire-On Saturday evening last, at dusk, the barn, stabling, cornerib and stacks of Md., in April next. Mr. Robert Thackery, in Elk Neck, were discovered to be on fire, by some waterman, whose boat lay in Elk River, a short distance from the scene of the disaster. In addition to the loss of buildings, about 200 bashels of wheat and 300 or 400 of oats, in stack, were burned, with all of his hay, but one stack. Two horses and one ox were burned, -one of the horses to a crisp, and the other horse so badly, that to release it from misery, it was dispatched. Two carriages, with the harness, and all the farming utensils, were destroyed. The yard had been cleaned up that day, and the thrashing machine set for working on the following Monday. The machine was also burned. There was no insurance on the property, and the estimated amount of the loss, we did not ascertain.

Last December, Mr. Thackery's dwelling house and contents were burned, and he removed to a tenant house about a mile distant. Several years ago he had his dwelling destroyed by fire, and yet he never has any insurance on his property.

The maxim that the voice of the people is the voice of the divinity may in some cases, be open to doubt, but the testimony of honest and enlightened witnesses, extending through a series of years, and all to the same purport, is worthy of credence, admits of no question. Upon such testimony the reputation of ifostetter's Stomach Bitters, as an antidate and cure for many aliments, is based. During the twenty years that it has been before the world, innumerable preparations, intend-ed to compete with it, have gone up like rockets, and come down the extinguished sticks. Meanwhile the progress of that incomparable tonic has been swift and steady— always upward and onward, like the eagle's flight. Its introduction produced a revolution in therapeutics, and it proved to be one of those salutary revolutions that cannot go backwards. To-day Hostetter's Bitters is one cannot go backwards. To-day itootetter's Bitters is one of the most popular remedies in christendom, and commands a larger sale than any other medicinal preparation, domestic or imported, on this side of the Atlantic. As a cure for dyspepsia, idiious disorders, nervous affections, general debitity, and as a preventive of epidemic fevers, it takes precedence of every other remedy.—This fact should teach the ambitious country dealers who endeavor to foist their local abortions on the public in its stead, how futile their small attempts to cajule the community must necessarily be. Where the game fish have failed there is no chance for the "suckrs."

The Cause and Cure of Consumption. The primary cause of Consumption is derangement f the digestive organs. This derangement produces

deficient nutrition and assimilation. By assimilation is nean that process by which the nutriment of the foois converted into blood, and thence into the solids of the body. Persons with digestion thus impaired, having the slightest predisposition to pulmonary disease, or if they take cold, will be very liable to have Consumption of the Lungs in some of its forms; and I hold that it will be impossible to cure any case of Consumption without first restoring a good digestion and healthy assimilation. The very first thing to be done is to cleanse the stomach and bowels from all diseased mucus and alime, which is clogging these organs so that they restore the liver to a healthy action. For this purpose, the surest and best remedy is Schenck's Mandrake Pills. These Pills clean the stomach and bowels of all the dead and morbid slims that is causing disease and decay in the whole system. They will clear out the liter of all diseased bile that has accumulated there, and rouse

it up to a new and healthy action, by which natural and Lealthy bile is secreted.

The stouach, lowels, and liver are thus cleaned by the use of Schenck's Mandrake Pille; but there remains in the stouach an excess of acid, the organ is torpid and the appetite poor. In the lowels the lacteals are weak, and requiring strength and support. It is in a condition like this that Schenck's Scawced Tonic proves to be the most valuable remedy ever discovered. It is alkaline, and its use will neautralize all excess of acid. lkaline, and its use will neautralize all excess of acid naking the stomach awest and fresh; it will give permenent tone to this important organ, and create a good, exerty appetite, and prepare the system for the first

alkaline, and its use will neautralize all excess of acid making the stomach sweet and frash; it will give permanent tone to this important organ, and create a good, hearty appetito, and prepare the system for the first process of a goal digestion, and utilimately make goal, healthy, itting blood. After this preparatory treatment, what remains to cure most cases of Consumption is the free and persevering use of Schenck's Pulmonic Syrup. The Pulmonic Syrup mourfolies the system, purifies the blood, and is resultly absorbed into the circulation, and thence distributed to the diseased lungs. Fince it tripen all morbid matters, whether in the form of abscesses or tubercles, and then assists Nature to expedient the diseased matter, in the form of free expectoration, when once it ripens. It is then, by the great healing and purifying properties of Schenck's Pulmonic Syrup, that all ulcers and cavities are healed up sound, and my patient is curred.

The essential thing to be done in curing Consumption to get up a goal appetite and a good digestion, so that the body will grow in fiesh and get strong. If a person is to get up a goal appetite and a good digestion, so that the body will grow in fiesh and get strong. If a person has diseased lungs,—a cavity or abscess there,—the cavity cannot heal, the matter cannot ripen, so long as the system is below par. What is necessary to cure is a new order of things,—a good appetite, a goal nutrition, the lasty to grow in fiesh and get fat; then Nature is helped, the cavilies will heal, the matter will ripen and be thrown off in large quantities, and the person regain health and strength. This is the true and only plan to cure Consumption, and if a person is very lead, if the inneg are not entirely destroyed, or even if one lung is entirely good, if there is enough vitality left in the ungar and entirely destroyed, or even if one lung is sentirely cone, if there is enough vitality left in the ungar and entirely destroyed to Consumption. They will clean out the stomach, sweeten and

dility.

The person should be kept on a wholesome and nutri-lous diet, and all the Medicines continued until the SNJ has restored to it the natural quantity of flesh and tremeth. is sly has restored to it the natural quantity of flesh and strength.

I was myself curred by this treatment of the worst kind of Consumption, and have lived to get fat and hearty these many years, with one lung mostly gone.—
I have curred thousands since, and very namy have been cured by this treatment whom I have never aven.

About the First of October, I expect to take possession of my new building, at the Northeast Corner of Sixth and Arch Streets, where I shall be pleased to give advice to all who may require it.

Full directions accompany all my Remedies, so that a person in any part of the world can be readily curred by a strict observance of the same.
