

The Cecil Whig

ELKTON, MARCH 10, 1872.

LOCAL AFFAIRS.

Local Miscellany.—The money of the Elkton Building Society, sold on Saturday night, at the following rates: \$200 at 12 1/2, \$400 at 12 1/2, and \$2,000 at 13 per cent premium, which is very low, not equal to 6 per cent interest, if the society could last six years more.

Mr. O. P. Clampton, Proprietor of the Fulton House, has sold his trotting mare to H. F. Stiles, of New York, for \$105.

Re-Sheriff Denny removed from Elkton to the Fall Frog, his former place of residence, on Wednesday last. The new jail being ready for the present sheriff when he wished to occupy it, Mr. Denny still retained possession of the old building.

The "old jail" is now vacant—a fact that could not be stated if to have, probably, since its first occupancy.

Alexander & Bro. have removed their store, tin and hardware store from the Hotel, to the brick building lately occupied by Wirt & Robertson.

The Oxford Paper thinks it a great piece of folly, for the Elkton people to suspend business, and hold services in all the churches on tomorrow. We can see any reason for not observing the Sabbath in the usual way, if it is St. Patrick's day.

The Sabbath School Committee of the Elkton M. E. Church, will visit Westmoreland school to-morrow (Saturday) evening, at 2 1/2 o'clock; and the school at Elk Mills, at 3 o'clock.

The man with the anvil, W. C. Ranbo, is out this week in a splendid "ad." Carson puts a funny cut in The Whig this week. Who can guess what the machine is for?

Bell's Minstrel Troupe will give an exhibition and concert in the Hall, Elkton, on Tuesday evening next. Doors open quarter before 7 o'clock. See bills.

Don't fall to attend the sale of Jacob Lambon, on the 18th inst, who you want Stock and Farming Implements.

Sale of Real Estate.—W. J. Jones, trustee, has sold at private sale, the real estate of the late Samuel S. Maffit, in Elk Neck, containing 458 acres, to Daniel Bratton, for \$12,000.

Snow.—Snow, to the depth of about three inches, fell on Monday night. On Tuesday it rapidly disappeared. Since then, mud and wet weather, with a little sunshine, have prevailed.

Plants.—R. H. Bell the Elkton trucker and plant-raisers, has largely increased his facilities for raising early plants, of the most useful kind for the vegetable garden. We can endorse Bell's plants, knowing them to be the represents, first rate healthy and hardy, sold at reasonable prices.

The Courts.—The Circuit Court, the County Commissioners, and the Orphans' Court will all be in session next week. It is the fashion with some country editors to denigrate their subscribers and advertisers on these occasions. Ours have all paid up but one, and we won't denigrate him, for we know he is going to pay.

Sudden Death.—William Stojope and a comrade were at Welsh Point, on the Elk River, on Sunday morning last gleaning for ducks. They fired at a bunch of ducks from behind their blind, and one of the birds fell crippled. Stojope hastened to push his boat into the water, which was lying near the blind, and jumping in seized one of the oars, and that instant dropped dead.

Foolishness.—Putting sand on the sidewalks, in the very heart of town, in place of bricks. One year's use with the thawing and freezing of winter, sinks the sand to the bottom and brings the mud to the top. The putting on and taking off soon costs as much as a brick pavement, which once laid is perpetual, with slight repairs.

Good Templars' County Convention.

The eighth session of the Cecil County Temperance Convention, met in the Town Hall, at the rising sun, on Tuesday, the 10th inst. In the absence of the W. C. T. the Convention was called to order by the Secretary, at 11 A. M., and the Rev. T. E. Martindale called to the chair.

The Committee on Credentials reported six Lodges represented by 21 delegates, and a large number of visiting members.

A Committee was in attendance from the Chester County Convention, who, as well as other visitors, was accorded the privileges of the meeting, and gave some interesting accounts of their work, and some useful suggestions.

After the appointment of a Business Committee, the meeting adjourned until 2 P. M. The Delegates from the more distant Lodges were detained by the inclement state of the weather.

The meeting assembled at 2 P. M., and after transacting some regular business, proceeded to elect the following officers:—W. C. T. J. D. Kemp; W. V. T. Indle V. Cooper; Chapman, J. H.; England, the Sec. and Treas., holding over. Cecil was chosen as the place of next meeting, and the first of Wednesday at 10 A. M. The Committee on business reported the following resolutions, some of which were discussed at length, and with some amendments, adopted.

We, the Good Templars of Cecil county, in Convention assembled, in order that all men may have a just appreciation of our principles and objects, do hereby declare the following resolutions, some of which were discussed at length, and with some amendments, adopted.

1st. Total abstinence from all intoxicating liquors as a beverage, in any form or under any circumstances, for the sale of liquors to be used as a beverage.

2d. The absolute prohibition of the manufacture, importation and sale of intoxicating liquors for such purposes—prohibition by the will of the people, expressed in due form of law, with the penalties deserved for a crime of such enormity.

3d. The creation of a healthy public opinion upon the subject, by the active dissemination of truth in all modes known to an enlightened and philanthropic.

4th. The election of good, honest men to administer the law.

5th. Persistence in efforts to save individuals and communities from so direful a scourge, against any forms of opposition and difficulty, until our success is complete and universal.

WHEREAS, No reform can be thorough and permanent without a literature well sustained, and widely distributed; and

WHEREAS, The Temperance Reform in this county, greatly lacks this element of power; therefore

Resolved, That we urge all our people to subscribe for some Good Temperance paper, and to exert every effort to secure the publication of a paper devoted to the cause of temperance.

Resolved, That no valid objections can be urged, with any show of propriety, against the secret circulation of orders, signs, or other symbols or objects that we do not publish to the world.

Resolved, That we do most respectfully ask, and urge upon our State Legislatures, the necessity of passing the Local Option law that has been so largely petitioned for.

Resolved, That we consider it a violation of the principles of our Order, for members to be present at or engaged in any ball, or other parties, for the benefit of any drinking saloon, or other public house where liquor is sold in our community.

Resolved, That the W. C. T. of this Convention appoint a Committee of one from each Lodge in the county, to call the attention of the Executive Committee of the Convention to all important measures, during its recess, the W. C. T., and Sec., to be ex-officio members.

Resolved, That this Convention endorse the action of the citizens of the county, who have petitioned for the prohibition of any drinking saloon, or other public house where liquor is sold in our community.

FOURTH DISTRICT-ITEMS.

Adjoined.—The Jackson Debiting Association has adjourned to meet again on the second Thursday evening in October.

Low Water.—The streams flowing through our District are very low, and some of the mills situated on them experience considerable difficulty in getting water enough to run their machinery.

Snow.—Winter has again invaded spring in the shape of a big snow storm, which began falling on Monday evening and continued to fall until Tuesday morning, covering the ground to the depth of about six inches.

The Wheat.—The prospect for a good wheat crop is very discouraging at present. Many farmers that have raised 25 and 30 bushels to the acre say they will be satisfied if they get five bushels this season.

Building Association.—The Cherry Hill Building Association had quite a spirited meeting last Thursday evening. Several amendments to the Constitution were offered and the same were called forth a large meeting.

Railroad Matters.—Considerable interest is being manifested among our citizens in the proposed Railroad to the Little Elk, from Elkton to Lewisville.

The Roads.—The recent snows have left the roads in a bad condition the mud in many places being six inches deep. We hope our citizens will remember the call for primary meetings to be held this afternoon to elect delegates to attend the coming road meeting in Baltimore.

RETRACTION.

NORTH EAST, March 14th, 1872.
Mr. Editor:—In your last issue, we made some remarks as to the coolness of a paragraph in the North East items. Since then the writer has ascertained that the apparent coolness was entirely unintentional, and believing him to be a gentleman and a Christian, we do unhesitatingly endorse the truthfulness of his assertions, and therefore withdraw all personal reflections in the matter.

Spring Shawls, Standard Trimmings, Ladies' Bows, Japanese Silks, and nice young men at \$10, all very cheap.

What Dyspepsia may End In.
Dyspepsia is not dangerous, say the faculty, perhaps not in itself, while it remains merely an indigestion. It is, however, a chronic disease, and is a forerunner of a still greater one. A pressure of the stomach will just put it out; a breath will extinguish it. Yet it may grow a powerful, or, it may kindle a fire that will consume the life.
