Victimized .- A young man called at the lager beer saloon of Joseph Stapp, in Warwick, on Thursday last 18th, and represented himself to be an agent for a Life Insurance Company. While he was talk: ing, an elderly man came in and pretended to want money to pay duties on goods at the custom house in Baltimore. Stapp offered to contribute a dollar, but the man dition that the same should be returned in a few days. Immediately after receiving the money the party drove off in a buggy together. This excited the suspicion of the following the money of the ferror of the old shade trees.—More of the old shade trees.

Farmers' Association .- On Saturday, 4th of May, an attempt will be made by the farmers of the First, Second and Third Districts to form an association for their mutual interest, which we hope will meet with a measure of success not heretofore achieved by them in accomplishing so benelicial an object. The meeting will assemble in the Hall over Mr. Conrey's store, in Chesapeake City. We did not hear the hour proposed, but suppose about one or two o'clock in the afternoon. Every live farmer within six or eight miles of the pla ce should make it a point to attend, as he vould if he expected to receive his share of so me valuable article to be distributed. The True Grounds of Confidence. Whence comes that firm reliable, that absolute ambubting faith in the efficacy of Hostetter's Stomacl Bitters as a remedy for indigestion, bilious disorders, intermittent and remittent fevers, which notoriously prevail in all parts of the United States? This confionce has been growing for twenty years, and it is still extending. It is not the result of credulity; it has not been engendered by any human device, but is the spon-taneous and natural consequence of experience. Mn. Editon:—You will doubtless be surprised to receive a letter from this out-of-the way corner of creation, where we arrived at six o'clock on the 16th inst., after leaving your village upon the morning train going north and making a stay of three hours in Philadeldhia. Learning that Nillson was giving entertainments at the Academy, we thought to remain over night and enjoy the rare treat of hearing the sweet-voiced little Swede; but alas, for human expectation! we learned upon inquiry that every ticket was gone, not only for that night, but for the entire course;

"Ignorance is the parent of vice, the oppo-nent of progress, the bane of the Republic, a destroying element in society, the pre-cursor of death and decay. Has society no power to protect itself? Has the Republic no right to live? Shall she continue to nurse in her bosom the viner which will nurse in her bosom the viper which will one day sting her to death? If these ques-tions are not answered by the representatives of the people—answered by the enact-ment of wise and inst laws providing for the education of all the children of the na-tion—the future historian will answer for us, when he portrays the downfall of a once mighty nation, which forgot its origin, derided its destiny, sold its birthright, and ended its career in shame and dis-grace."—Scribner's for May.
