M., at Wesley Chapel, at 3 P. M. Rev. Mr. Tull will preach at Perryville, at 10} A. M., at Asbury, at 3 P. M., and administer the Sacrament of the Lord's Supper at both

Sale of Town Property.-The fine resi dence on Main street, in this town, for several years occupied as a Parsonage, was sold at private sale, this week, by the Trustees of the M. E. Church, to Mr. G. W. Herbert, for \$5,700. It is stated to be the intention of the Trustees to either buy or build a smaller building for the purpose of a Parsonage. Mr. Herbert takes possession July first.

Fire. - On Saturday last, about 11 o'clock, A. M., a tenant house situate north of High street, near the railroad, belonging to Mrs. Parker, took fire and burned down, without damage to surrounding property. Two breaking in and routing out the sleeperswho were said to be drunk. They lost all and what little of furniture they possessed. P. Vandegrift was choosen. The house was not very valuable, but had no insurance on it.

Dentistry .- We publish in another column to day, the card of Doct. R. F. Tull, who succeeds Doct. Musgrove, in the practice of Dentistry in Elkton. Dr. Tull was a student under Dr. M., and a graduate of the Pennsylvania College of Dental Surgery, and has the reputation, of posessing much skill in his profession. We wish him great 60c.; Strawberries per box, 123c.

We also publish a card from Dr. Musgrove to his friends and old patrons, informing them that he is about to leave Elkton, and recommending Dr. Tull to their confidence and support. We are sorry to part with Doct. M., and hope he may prosper wherever he goes. He has lived among us for many years and has had the confidence and respect of the entire community, and leaves us retaining it.

our market this week. The price was down as low as 10 cents per box. Green peas and cucumbers also made their appearance this week.

The office attached to the dwelling or North street, recently purchased by Messrs. W. J. Jones and Wm. S. Evans, has been taken down, and the main building repaired and painted, adding greatly to the appearance thereof.

The County Commissioners and Orphan's Court will hold their regular monthly meeting on Tuesday next. The Elkton Building Society meets to-

Mr. Peter D. Gilbert, having purchased the Meat and Provision Store of Robt. Tong, appears in a new advertisement this week. Mr. Gilbert advortises a strictly Cash store, and we hope he may be able to carry his plan through.

Transferred .- Rev. H. S. Thompson. who has been stationed at the M. E. Church, in this town, for the past fifteen months, was last week transferred to Providence Conference. The transfer was rath er sudden and took his congregation by surprise. Mr. Thompson was in New York at the time, and the first intimation of the matter here was a letter from the pastor himself stating the fact. Mr. Thompson goes to the church at Warren, Rhode Island; which is said to be quite a fine appointment. It is given as the Bishop's plea for thus unceremoniously depriving a congregation of their Pastor, that it would be much easier to supply Elkton with a preacher than the church at Warren. That church had been for some time filled by a Navy Chaplain, who was home on a furlough, and he having been called to duty was the cause of the vacancy there. There was also a numerously signed "call" from that Conference, asking for the transfer. Mr. Thompson filled his new appointment last Sabbath.

The Show of the Season.-Kleckner & Co's great Mastodon Menagerie, Gigantic Circus and Collosal Caravan and Museum, together with the wonderful M'lle Fontainebleau, will exhibit in our town, on June 15th, for one day only, afternoon and veving, with an ascension outside, at 1 'clock, on a single wire 360 feet long, y the great M'lle Carrie Cordona. Beautiful Pictures.—We had the pleasure, the other day, of sceing the very beautiful French "Oil Chromos:" Wide Awake and First Asleep, which are now so widely advertised and so much admired by amateurs. These beautiful pictures, which are now selling rapidly in all the picture stores, at \$10 for the pair, are given an premiumns to subscribers for H. W. Recher's Christian Union, and are decidedly the best thing of the kind we have seen. The paper itself, (a large 24 page weekly) independent of the Chromos, is fully worth the subscription price, being the leading weekly religious and family has purchased from Jacob A. The Editor, H. W. Beecher, contributes a lecture or sermon regularly every week. Altogether it is have ever seen, and lovers of literature will lo well to take advantage of the opportunity now offered to subscribe. The pictures were obtained in Paris by the publishers by a mere chance at a very reduced rate and will not be offered again this year. A pair of these beautiful Chromos can be seen at this office, where subscriptions will be received for the paper.

CHESAPEAKE CITY ITEMS.

Religious .- Quarterly Meeting will be held in the M. E. Church on Bohemia Manor, on Saturday and Sabbath next. Preaching Sabbath morning, at 101 o'clock. There will be no preaching in the M. E. Church here, on Sabbath morning. Preaching in the evening, at 8 o'clock. There will be no preaching in the Presbyterian Church, the Rev. Mr. Mallery having to fill an appointment in Kent county.

Lecture .- Our quiet town was somewhat aroused on Tuesday evening last, by a street colored people, a man and woman, were in lecture and sermon delivered by a gentle-the house asleep when it caught fire, and man from Ohio. The weather being cool were rescued by some of the neighbors and the wind high, the audience was small. LETTER FROM DAKOTA.

DAKOTA, May 19th, 1872.

DEAR WIIIG:-In my last, I said I would north-west. . Well, it is very cold in the get their wheat in until the middle of April, and then it was cold. It is very dry; not The Crops.-From observation during much rain falls here in the Spring. There some recent drives in the adjoining country are no snow squalls or rain storms here like as well as from information derived from there are in the east; but the wind blows very hard and cold. The grass grows very pect for the coming wheat harvest as very luxuriantly. This has been a cold Spring, poor indeed. The yield must fall far and at this time we wear our winter cloth

The people here are all new comers from the East, many from Philadelphia and New York. They live in houses built of sod. They plow and then cut the sods in thunder storm, which occurred during the blocks about 14 inches square, and build afternoon, a high northerly wind set in them up like bricks. They are built about and continued during a portion of Wed- 14x18 feet, one story high; the roofs are nearly flat, with brush or long grass laid dwellings and some offices, so cool was the on the rafters, and dirt thrown on the grass -so they look from the outside like a pile of dirt. They make a very warm housemuch warmer than a log cabin. Some have cellars under them, but they never wall the cellar up; indeed there are not stone enough to build a chimney. The stove pipe is run out through the roof .-Some have log houses sided up; but it is so dry that the boards warp up and they are

colder than the mud houses.

Now don't think that the people are low class; far from it, they are a very intelligent class-all well educated and have seen something of high life. Indeed I find them a hearty, good natured class of people .adze, on Tuesday last, cut himself severely | Their furniture consists of one or two rude bedsteads, one table, two or three chairs, furniture, so a cabinet maker would starve taker, why he could not live, for it is very healthy. Indeed, it seems to me that they enough the first year to set out from 500 to 2,000 trees. The trees are what they call Cottonwood; it grows very fast. The Cottonwood and Maple are the only trees that CORN WHITE grow here. Some places there is some oak; but it is not good for anything.

The wheat and oats crops look very fine.
Nearly all are done planting corn. Farming here is the easiest work I ever saw.

The Last Kick of a Copperhead. MR. EDITOR:-I do not deem the slanders and misrepresentations which find a place in that cest-pool, called The Cecil Demplace in that cest-pool, called The Cecil Democrat, whose columns are open for the vomiting of those who are overcharged with gall, worthy of a reply; but there are men who read that sheet who are not aware of its poison, because it bears the name of Democrat. I have special reference to the Democrat. I have special reference to the issue of May 25th, in relation to the visit of the President of the United States to of the President of the United States to the little town of Elkton, which with Noah's Ark, will compare as to to the length of the time of building. For what particular purpose the President came we know not; possible to see if the shittin wood of which part of the town is built was not rotten; which he found was so. While making this examination, a copperhead, who lay embedded in the rotten wood, snapped at the President and Postmaster General, with all the venum possible; and not content with trying to bite these two notables, he throws out his crookthese two notables, he throws out his crookthese two notacies, not introval on the crowded congue at an old gray-headed man, he called a Barreniter, which in his view is a crime but adds still further, he knows everybody and everything. The reason of his fixing the old man's residence in the of his fixing the old man's residence in the Barrens was that location was most familiar to him for reasons here unmentionable.

This is the same spirit that has long governed the southern branch of the so-called

Democracy, who have burned churches, and school-houses for fear some would learn

to resist fraud and assert their rights.

When within 1½ miles of Driftwood, going down grade 40 miles an hour, at a very short curve to a bridge across the river, our engine, baggage, smoking and one passenger car took a notion to make a short cut, and as I had no programme on my ticket, I didn't see nor understand the sudden turn (upside down) things had taken. A PITIFUL CONDITION. It is a sad thing to pass through life only half aliv-Yet there are thousands whose labitual condition is one of languor and debility. They complain of no specific disease; they suffer no positive paint; but they have no relish for anything which affords mental or sensuous pleasure. In nine cases out of ten this state of lassitude and stuper arises from a morbid stomach. ndigestion destroys the energy of both mind and body When the waste of nature is not supplied by a due and regular assimilation of the food, every organ is starved every function interrupted.

Now, what does common sense suggest under these circumstances of depression? The system needs rous ing and strengthening; not merely for an hour or two to sink afterward into a more pitiable condition than ever (as it assuredly would do if an ordinary alcoholic stimulant were resorted to,) but radically and permanently.

How is this desirable object to be accomplished? The

answer to this question, founded on the unvarying experience of a quarter of a century, is easily given.— Infuse new viger into the digestive organs by a course of Hostetter's Stomach Bitters. Do not waste time by DEAR WHIG:—In my last, I said I would salm instering temporary remedies, but wake the system up by recuperating the fountain-head of physical strength and energy, the great organ upon which all the other organs depend for their nurture and support winter; some days it is from 15° to 20° below zero, and a high wind blowing most all the time. There are generally some warm days in the last of January and first conject—until healthful blood, fit to be the material conject. of February. At that time they plow and sow wheat; but this Spring they did not sow wheat; but this Spring they did not hough the channels of circulation, instead of the through the channels of circulation, instead of circulations and circulation circulations.
