FOR VICE-PRESIDENT, HENRY WILSON, OF MANSACHESETTS.

CAMPAIGN WHIG. 4 Months for - 40 Cents.

We will send THE WHIG as a Campaign Paper, from the 9th of July till the Presidential election, in November, for 40 Cents.

the 9th of July till the Presidential election, in November, for 40 Cents.

We propose to expose the Democracy in their new role of attempting to steal to power, disguised in the old white hat and coat of Horace Greeley. We are fighting the same old party of "treason, strategemandspoit," and mean to beat them by exposing their "little game" to cheat unempecting Republicans by adopting the farmer of Chappaqua as a blind.

The friends of ORANT AND WILSON, and of the Republican party in Cecil, cannot aid the cause more effectually than by making an effort to get up Campaign Clubs for The Haigs at every Poot Office in the county.

30 cents for 4 months will not much more than pay for the paper The Whig is printed on.

3.2. No campaign subscriptions received without they are secondariled by the cash.

-Note the following, from the New York Times: "There is not a rascal in this city who does not propose to vote for Greeley. Tweed, Sweeny, Ilall—the entire "Tanmany gang—are for him. Every Tammany organization in this city is being revived for his benefit. The Tammany Republican—the meanest rollitician in the publicaus—the meanest politician in the world—are using all their efforts in his Tweed in the chair—the first time he has dared to show himself in public for months

It is the Tammany Democrats, allied with the ex-rebels of the South, who make up the bulk and the most active element of Greeley's supporters.

It is becoming very plain why the Democracy have resolved, as a party, unanimously to support Greeley. There is nothing very strange about it. When the whole tribe of Tammany thieves, who are personal acquaintances and some of them business partners, support him with so much public emphasis, the whole Democratic tribe, far and near, know that he has been sounded and is safe-safe for those notorious thieves. Would such men prefer him who have been beguiled to follow Greeley, him and the Democrats, we marvel that even one with an honest purpose at heart, can be found who is not alarmed and

together. There is no end to the complaints of these Reform newspapers that Gen. Grant and his over-worked Cabinet officers, when their present duties are performed, seek relief in relaxation; and it is even said that after working faithfully and cheerfully through the session with Congress as a body, they have fled the face of the individual Congressman seeking an interview. The Tribune, the other day, reproduced some snarling of this kind from a disreputable source. It is nearly Mid

"straight" nomination at Baltimore. It may serve, also, as a seasonable reminder to Republicans, of the precise issues into which the Presidential contest has resolved

The party will make a straight homina-tion at Baltimore in putting Greeley's name at the head of the ticket, the very straightone institution in this country attracted my attention, possible, for it proposes thereby to reinstate the old party organization in power at Washington. Yielding nothing, compromising nothing, acknowledging nothing, promising nothing, acknowledging nothing, promising nothing, acknowledging nothing, from the feel old man, whose desire for, office is almost an insanity, and who, to compass it, is ready to turn his back upon the record of his whole life; and on the supposition of his popularity with his own party they propose to capture Republican votes enough to put themselves into power. Whether they will succeed in carrying such a scheme as this to a successful termination, or whether, succeeding it, they will cheat Greeley or Greeley cheat them, is another question. tains many fine schools, both public and private, and among its institutions of modern improvements it numbers a street railway. There are many commanding sites on the bluffs, back of the town, which will be occupied by future buildings of the ornamental class, which will add greatly to the beauty of the city. Some of those sites are already improving in this manner. But the large body of the finest land in the world for agricultural and grazing purposes, which surrounds Omaha, reaching for 200 miles east and west of the city, and nearly as far north and south of it, insures

for the city a grand future. I might say a great deal about Omaha and Council Bluffs-the latter derives its name from the council held here by Lewes and Clark with the Indians in 1804-but what most interests the eastern reader is the undeveloped country spreading out hundreds of miles in all directions an unbroken sod, except in the immediate neighborhood of the towns and railroads. The Burlington and Missouri River Railroad Company have a land grant extending for two hundred miles east of Omaha, of 20 miles on each side of their road, of every alternate section, and as far west as Fort Kearney; and the Union Pacific Company has a similar grant, extending from Omaha to Ogden, a thousand miles.-It would be difficult to find a more beautiful agricultural country than that through

—Peter's Detector says: A very ingenious trick, by which a gang of swindlers are making money by mutilating national bank notes of the denomination of five dollars, has recently come to our notice. The dodge consists of making ten bills out of nine, and is so managed that there is but one pasting to each of the manufactured note. The nine whole bills are taken, and the charge has not been, we believe, denied the charge has not been we believe, denied the charge machiner in the first story where plow thrown away in 'smoothing up the timbers for effect. MARYKAND SUPER-PHOSPHATE

[WE COURT THE CHEMIST'S INQUIRY.] Micr 23 years' experience in the Fertilizing business, and after establishing a wide reputation for the purity excellence of his Bone Dust, the subscriber has been induced to prepare a Phosphate suitable to the require-is and every way worthy the attention of the Maryland farmer. ients and every way worthy the attention of the Maryland larmer.

The "Maryland" is a rejuvenator and permanent improver of the soil. It stimulates equal to Peruvian inano, and sustains equal to Bone, being composed almost entirely of those ingredients, with a very liberal per entage of Potash in the residum. There is no adulterator nor interior article used—vary particle of the Phosphate being of essential benefit to the land. Neither pains nor expense have been spared in its preparation, and see claim for it the greatest benefit to the farner from the smallest outlay.

For Cotton, WHEAT and CORN, and as a general estimulant and aliment for worn and impoverished land there can be nothing superior. It is warranted to run as high in Annaonia and higher in Bone Phosphate than any PRICE, \$50 PER TON, IN NEW BACS. No charge for delivery.

DONE DUST, 43. PONE MEAL, S.O. DISSOLVED BONE, \$2, our cwn manufacture, in new legs; East-man Western BONE DUST, 83. PERUVIAN GUANO delivered from Peruvian Government Warehouse, at lowest ratio. No charge for delivery. JOSHUA HORNER, Jr., MANUFACTURER AND GENERAL COMMISSION MERCHANT.
