The Cecil Whig

ELKTON, JULY 27, 1872.

LOCAL AFFAIRS.

Cow Killed.—Mr. John Partridge had a very fine cow killed by the cars, on Monday evening, at the crossing below the Elkton depot.

Death of Rev. H. G. Simpers.—We regret to announce the death of Rev. H. G. Simpers, which occurred at his residence, in North East, yesterday (Friday) morning at 7½ o'clock. Mr. Simpers had been sick for about ten days.

A Grand Temperance Mass Meeting will be held in Haines' Grove, near Rising Sun, Md., on August 15 1872. Many prominent speakers will be present. All Lodges are cordially invited to attend in delegation.—Be on the ground by 10.30 A. M.

Nothing Like Advertising.—Miss Martha Biddle, teacher, who advertised for a situation in *The Whig* a week or two since, informs us that she has had a *call* from Liberty Grove, and that she has accepted. Nothing like advertising in *The Whig*.

Excursion.—Lodge No. 31 Knights of Pythias, of Port Deposit, propose to have an excursion from that town to Annapolis, on Monday, August 5th, on the steamer *Wenonah*. A sail over the Chesapeake bay is always pleasant in the Summer, and the excursion will doubtless be very enjoyable.

I. O. G. T.—The members of Elkton Lodge, No. 73, I. O. G. T., are hereby requested to attend the meeting on next Monday evening, 29th inst., at 8 o'clock.

L. M. HAINES, W. C. T.
J. J. DAVIS, W. R. Sec.

Injured.—Mr. Thomas King, son of Mrs. Mary King, of Elkton, had one of his legs very badly bruised by being caught between the cars while coupling them. Mr. King was acting as brakesman. The accident occurred at Newark, Del., on Monday last.

Elkton Academy.—We invite attention to the advertisement of Rev. J. E. Alexander, Principal, at present, of Elkton Academy, who will open that institution for the Fall term, on Monday, the 2d of September, for both boys and girls. It is hoped that our citizens will feel sufficient interest in the cause of education to heartily co-operate with Mr. Alexander in establishing a first class academical school here. By mutual efforts there is no doubt that a result gratifying to all may be achieved.

The Masons commenced laying the foundation for the new match-stick factory this week. The new factory is to be located below the causeway bridge, on the north bank of the creek. The factory when finished will contain two large cutting wheels driven by steam power, with the necessary saws for manufacturing logs into scantling and cutting up the lumber into blocks, with other necessary machinery. The building will be pushed to completion as rapidly as possible.

The Mutual Building Association will meet to-night, when the books of Series C will be opened, and the first payment on the stock of the new Series be received.—This society has been exceedingly prosperous in the two first years of its existence, which is very encouraging to the stockholders. The withdrawal feature, which pays to members who wish to withdraw at any time, six per cent on the money they put into the society has given universal satisfaction. Persons who have a small surplus which they would like to invest monthly at 6 per cent interest, on which they can realize at any time, if not desiring to remain in the society as permanent stockholders, should subscribe for a few shares of Series C to-night, after which the books for that Series will be closed.

Large Tomatoes.—Mr. Geo. Booth, left some very fine specimens of Trophy tomatoes at "our place" this week; which were large, smooth and in every way the most perfect specimens of that popular fruit—or vegetable, which is it? both, either or neither? Mr. Booth has taken the "rag off the bush" in early vegetables this season, and appears to have distanced all competitors.

Still Another.—Mr. Jas. H. McCullough, of Cherry Hill, well known to Elkton housekeepers for the variety and excellency of his "truck," has also left on our desk a package of exceptionally fine tomatoes. Though not so large as those of Mr. Booth, they will pass for a No. 1 article. Both gentlemen have our thanks, and we bespeak for them the freedom of the town for a market. Who will be next? Don't all come at once.

Sudden Death.—A young man named John R. Fields, who resides at Bay View, Md., came to this city on Tuesday evening for the purpose of visiting his brother, and stopped at the White Horse hotel, corner of Second and Fatnall streets. In the morning Mr. Miller gave notice of breakfast, but received no response. Not suspecting anything wrong, he went to market, and on returning his wife informed him that the young man was very sick. A physician was immediately called in but before he arrived the young man was dead. Coroner Woodward held an inquest, and the jury rendered a verdict of death from causes unknown. Two packages of strychnine were found under his pillow, and there was no money in his pocket book, yet the physician seemed to think that he had died from other causes than poison.

Del. Republican.

The Sea Side.—Three of our prominent citizens left for Cape May, on Thursday morning last, to enjoy the surf, salt-water oysters and sea-breezes—Messrs. Levis, Hoffman and brother Cruikshank, editor of the "black-republican" organ of Elkton, *The Democrat*, of Greeley, Sumner and that other "colored pusson"—if he'll only come in—hope and faith—anything-to-beat-Grant, whilom Sumner always *excepted*, but now accepted.

Attentive clerks and a choice variety of fine goods will be found at the Glass Front, notwithstanding the proprietor's absence; as well as obliging "devils" and other attachees at the office of the "black-republican" organ of "Sumner always *excepted*," & Co., and the colored pusson, if he'll only come in, as the sick lion said to the animals.

—The Watertown *Times* pointedly and truthfully says: Tweed, Sweeny, Mayor Hall, Ben. Wood, Mudgett, and John Cochran are foremost in their advocacy of the Cincinnati ticket. It is significant of their expectations. Mr. Greeley is surrounded by men whom the honest voters distrust, and for good reasons. The cry of reform from such a crowd ought not to mislead the people. There is no other explanation of the course of the corruptionists of New York City that they prefer Mr. Greeley to Grant because they think they can use him to better advantages.—They are a class of men that are not apt to make mistakes of this kind. They live by this business and they study their subjects well. Voting for their man in the hope that, after all, he will prove true to honest men's purposes, is a visionary dream.

New Livery Stable.—Messrs. Thackery & Bro. have opened Livery stables, at the Felton House, at the Elkton Depot. New horses; new carriages and new harness. [20

RISING SUN ITEMS.

Deaths.—On Saturday last, an infant son of Mr. and Mrs. Rowland, aged 4 months, died at the residence of Hiram Brown, its grandfather, of cholera infantum. On Saturday, 20th inst., a son of R. McCauley, aged 17 months, died from the effects of a burn received some short time ago.

Celebration.—On Wednesday, 24th inst., the M. E. Sabbath School, of this place, had a celebration on the Woodlawn Camp Ground. The Rising Sun Band headed the procession and enlivened the occasion.

Removals.—Mr. Lamborn has removed to Kennett Square; Mr. Jno. T. Bowden removed into the house lately occupied by Mr. L.; Wm. Grason moved into the house vacated by Mr. Bowden—this was formerly The Cecil House, and Mr. G., again resumes operations in it.

Calm.—Our citizens, for the last week, have been talking of little else than the late destructive fire, and re-counting the many accidents and incidents; but now have got it all talked up, and are quite calmed down, except when the incendiary is the subject of remark, then things are lively.

Dry.—The drouth still continues. Corn is beginning to suffer. Both late and early potatoes will be short crops. The second crop of grass will be very short.

PILOT TOWN ITEMS.

Harvest.—The farmers have got their hay and wheat in the barns. The wheat is of very good quality. The oats crop is very heavy. Late potatoes will be a heavy crop.

Accident.—Mr. Nelson McDowell got his feet mashed by a large stone falling on him, while quarrying stone for the railroad bridge at Peter's Creek.

Sun Stroke.—Mr. Henry Reynolds, Jr., the gentleman whose leg was amputated some four weeks ago, while walking to a neighbor's received a sun stroke, on Friday afternoon of last week. He is recovering.

Black Barren Spring.—There is quite an influx of strangers at the Springs, drinking the waters. Col. Blake has doubled his shipment of water.

HOW TO GO WEST.

This is an enquiry which everyone should have truthfully answered before starts on his journey, and a little candid examination of Routes will in many cases save much trouble, time and money.

The "C., B. & Q. R. R.," running from Chicago, through Galesburg to Burlington, and the "L., B. & W. Route," running from Indianapolis, through Bloomington to Burlington, have achieved a splendid reputation in the last two years as leading Passenger Routes to the West. At Burlington they connect with the B. & R. R. and from the great Burlington Route, which runs direct through Southern Iowa to Nebraska and Kansas, making close connections to California and all Territories; and passengers starting out Cecil County, in their way westward, will not do better than to take the BURLINGTON ROUTE.

This Line has published a pamphlet entitled "How to go West," which contains much valuable information; a large sectional map of the Great West, which can be obtained free of charge by addressing the General Passenger Agent B. & M. R. R. in Burlington, Iowa.

LOOK! CECIL COUNTY, LOOK!—Let no one who has not tried the "Wilmington City Soap," should begin at once. Those who do not try a bar for next wash-day, will are fined half price. Buy a bar, and try the *fine*.

LETTER FROM NORTH EAST.

NORTH E, July 25th, 1872.

MR. EDITOR:—I ng for sometime seen scarcely anything your popular paper from here, with the exception of "Items" by your regular correspondent, I take this opportunity to wn "letter"—not for the purpose of ving a certain class of individuals, or to any reproach on our village; nor yet, tl at any of your correspondents; but imply, (if you should adjudge this letter thy of publication,) to such of your ligent readers as admire such a thing account of our "last sensation"—said sation being a *select* Ball, held at "Pavilion," on Wednesday evening, inst.

Every day, for about a week preceding this eventful day ir correspondent had noticed several 'boys," of the male persuasion, going bout, and apparently, engaged in low earnest conversation.—Seeing this, I came the conclusion that there was some thing in the wind. From some remarks let n my presence I found that it was to l ball, though of the exact locality inch it was to be held I was not certain hearing "The Pavilion" mentioned several times, I concluded that it was be there.

So stowing away me necessaries of life, and gearing up my own spotted "matches," I, without invitation, notification or molestation, I me away to that, to me strange and historical spot. I went there merely to lon; because my talent for dancing is hr up to the average of a broken jumpinsk.

"The Pavilion situated near a small stream called Bir Creek, and is about a mile and a half s west of North East, on the road lead from this village to Charlestown. Its built by the old "Fire Brick Co. store clay in, but since that firm exploit has been used by parties, at different times, for both public and private "hc It was from these that it derived its pellation of Pavilion. The building, it cannot be far short of 20x40 feet—open all sides, but with a pretty good floor roof. It *could* accomodate four "sets it, on account of irregularities in tying of the floor, not more than three dance at one time with any degree of sa

When I got e, on the evening in question, none e parties had yet arrived; but I ha long to wait, for, in less than twenty minutes, all the *elite* had arrived, and "Pavilion" was lighted up by lantern sung from the cross beams. With li rel iminary ceremony, partners were co for the first quadrille. Then came the itable "pling-pling," "tung-tung," ring from tuning the instrument. E thing being declared in readiness, the gut began to squeak, and, the Floor ager pronounced the words, "forwar our!" At the mention of these magic ls the proper couples began to skip ud fro, betwixt and between with the diness of poodles The "set" concludes ladies were escorted to seats, (commo ards ranged around the building,) a very one joined in pronouncing it "jetly delightful." But there was one dback: the exertion had rendered the ps engaged very warm and thirsty. [one of my gentle readers that has ed anced when the thermometer stood 2 and no breeze going knows how it itself or himself.] Now what remedy s be applied, in such a case as this, am ladies and gentlemen of thorough terance proclivities?—Why, ice cold lade, to be sure. Acting on this idea accompanied by a white man and two an gentlemen of color, proceeded to the gage wagon, and taking there from lemons, fifteen lbs. of A 1 white sugar me ice and a large, new wash tub we eeded to a spring of water near by, there, by the light of the silvery m began the brewing of this time-honond refreshing beverage. Having negle do bring squeezers, and being in a hur assuage the thirst of the terpsichor we were compelled to use our hands, thing after the manner of the house wa mixing up dough; and the way we med and "squoze" those unoffending les would have been a caution to all ladi ad gentlemen of fastidious palate. on't mean to insinuate that we were dy about it, for we washed our hands n and were very careful; but the *idea* o thing, you know.] At length, Maj. I mean that *white* man aforesaid, pro ced the decoction complete and th ored men seized the tub and bore it in mph toward "The Pavilion."

But an acci occurred, on the route, that came near aking "spilt milk" of it, and causing *elites* to depart for home, in the "wee hours," with dry and parched lips. It was after this manner: in climbing a fence, with the tub, the fence gave ; but "the colored troops fought nobly and succeeded in rescuing the beverage n a "watery grave." Without further dent, we succeeded in getting it to the ards;" and the way those *elites* crowded and that pub reminded me of a lot of flies around a drop of lasses.—There being t one glass in the place, (resulting fr an over sight on the part of the man, and the blind confidence of his humble vant,) one of the gentlemen, had recse to a tin water bucket which he fill with the fluid and went round presen it to the ladies after the manner of a stler watering his team.—Some drank on the novelty of the thing, while others ing of more fastidious disposition, wo only drink because others did. We ha heard the medical faculty say that it ealthy to imbibe this liquid at 12 o'clock., in the night time, but as no one was ired by it, the presumption is, that it is lite wholesome.

The comp , being now much refreshed, went again dancing, and, after a few more dances oth round and square, subsided at the rectable hour of 1 o'clock, A. M., and d rted for their several homes. The party v composed of pretty much of an "the yth and beauty of our town, and immedi vicinity, and everything passed off pl antly with the exception of a slight misderstanding between the Floor Mana and the chief musician, in consequence of which, the man with the "big fiddle" timates as much as that he will go aga some time stormy evening about the vicity of Christmas.

I understa that some parties in Elkton, who, hav heard that a ball was on the tapis here ere somewhat disappointed in not receiv invitations to it. Well, I feel sorry for em, as I know they would have enjoyed. Of course, it wouldn't have done for them to have gone as I did, or they might have been snubbed; but as everybody knows that reporters and interviewers are not rolable, they didn't think it worth while snubbing me, which exactly suited yours, repressibly and truly,

The Ground Bone now manufactured by us, is finer than that made previous to last Spring, and we believe it sufficiently fine to meet the views and requirements of most farmers.

We recommend our Ground Bone, not only for the Wheat but also as a fertilizer without a superfosphate for the succeeding grass crops.

Our mill is continually open to public inspection, and we cordially invite all interested in those of fertilizers to call and thoroughly examine our works, and satisfy themselves that we furnish a uniform article without admixture of any kind.

WHAT THE KU-KLUX EXPECT OF GREELEY.

—A Greeley organ in Alabama, the Talladega *News*, recently published the following brutal account of the murder of two Union soldiers while attempting to arrest a man who had been indicted for Ku-Kluxing: "Last Sunday two Yankee boys in blue visited the house of Mr. Maroney, in Shelby county, and near the county line of Shelby and Bibb, not far from the little village known as Six Mile, for the purpose of arresting him under a bill found by the Grand Jury of the United States Court, recently in session in Montgomery. Mr. Maroney was implicated in the Coosa county affair. Under this true bill found by the Grand Jury these brave soldiers of the best Government the world ever saw went with handcuffs for Mr. Maroney. He welcomed them with hospitable hands to inhospitable graves—he poured lead into one and cold steel into the other, whereupon both of these gallant soldiers gave up the ghost, and Mr. Maroney is still as free as the air which he inhales. We gather these facts from a reliable gentleman just returned from Shelby county. We regret and condemn this occurence, and call upon our people to remain quiet—the old white hat will make all things right."

JULY.

Midsummer is upon us. The midland forest puts on its livery of the darkest green and highest vigor, in the Northern Temperate Zone; while, in the corresponding torrid region, the skies, if still serene, are making ready for the annual deluge which is the veritable spring time in those lands that boast a double summer. In the former Zone there is a general, though momentary respite from the almost universal pests of the young and the declining year; but not so in southern latitudes, where the order of the seasons is reversed, and in California, where they are somewhat exceptional. In regions where rain never falls, the deep shadows of scarcely-penetrable woods, with the heavy, never ceasing dews on which they feed, keep up the perpetual decomposition of the dying leaves, and the reign of malaria continues throughout the year.

Even in the hot season of the milder climates, especially in the heavily timbered districts of the West, the same effect follows from like causes; and while dysenteries and more or less malignant bilious fevers ravage the cleared ground and upland slopes, the intermittent fevers are still frequent in the forest and the swamps. Once more then, we call attention to the advertisement of Paschall's Fever and Ague Mixture, as it appears on another page of this paper. [July 6, 1872—1m

Midsummer Maladies.

The hot solar rays that ripen the harvests generate many distressing diseases. If the liver be at all predisposed to irregularities, this is the season in which bilious attacks may be anticipated. A weak stomach, too, is the weakest in the summer months, and the loss of vitality through the pores by excessive perspiration is so great, that a wholesome tonic, combining also the properties of a diffusive stimulant and gentle exhilarant, is in many cases necessary to health, and under no circumstances should be dispensed with by the sickly and debilitated. Of all the preparations intended thus to refresh, sustain, and fortify the human frame, there is none that will compare with Hostetter's Celebrated Stomach Bitters. They have been weighed in the balance of experience and not found wanting; have been recommended from the first as a great medicinal specific, not as a beverage, and in spite of interested opposition from innumerable quarters, stand, after a twenty years' trial, at the head of all proprietary medicines intended for the prevention and cure of all ordinary complaints of the stomach, the liver, the bowels, and the nerves. In the unhealthy districts bordering the great rivers of California, Hostetter's Stomach Bitters may be classed as the standard one for every species of intermittent or remittent fever. The people of those districts place the most implicit confidence in the preparation—a confidence that is increased every year by the results of its operation.

As bitters, so called, of the most pernicious character, are springing up like fungi on every side, the public is hereby forewarned against the drams-shop frauds. Ask for Hostetter's Bitters, see that the label, etc., are correct, and remember that the genuine article is never sold in bulk, but in bottles only. [July 6, 1872—1m

CORRECTION OF ARTICLE ON ATTACHMENT.—A mistake occurred in the article "Familiar Law" on attachment printed in *The Whig* of July 6th. Instead of as printed in that issue, it should read as follows: "For instance, A hires to B for so much per month; A is indebted to C; C sues A, gets judgment, and lays an attachment in the hands of B, as garnishee. Now whatever is due A, by B, less ($10) ten dollars C is entitled to. The omission of the word (to) and insertion of $20 instead of $10 made the mistake.

THE FARMERS' MUTUAL FIRE INSURANCE Co. of York, Pa., has been in successful operation nearly 19 years; has paid twelve hundred and ten claims amounting to $712,697.56, without a single assessment. Prompt and ready, it has always been able to meet its engagements; never permitting debts to accumulate. Prudent and careful, it has established a business far superior in quality to that of any Mutual Company, doing a general business in Pennsylvania, hence the small percentage of losses and freedom from assessments.—Insures against loss or damage by fire and lightning, on all safe class property at reasonable rates. Losses liberally adjusted and promptly paid.
