When I was inclined to embark in this move I was under the impression that I was at liberty to do so as a Republican; but we have been drawn on, step by step until we find ourselves not only out of the Republican party, but about to enter the mocratic ranks as recruits. The last is Democratic Tanks as recruits. The last is a step that I cannot take, I may, by lending countenance to the Liberal move, have compromised myself to such extent as to forfeit the privilege of voting, but I do not think that I have gone so far as to give the Democratic party a just claim to my undi-vided vote and political assistance I am not a Democrat, nor lawe I been a member of that party. On the contrary, I

have been a Republian and have constantly so announced myself. Now, the events of the last six months clearly indicate to or the last ski mounts clearly interact of my mind that there is more liberality in the Republican party than has been developed by the move that has been called the Liberal move. I cannot, therefore, find reason, in logic or in sentiment, for passing the line between the Democratic party and musel. As previously stated Liny. and myself. As previously stated, I may be so compromised as to have forfeited my privilege of voting the entire Republican ticket, but I must not go so far as to forbid my return to the party when the present canvass is closed. I must ask you, there-fore to withdraw my name from your committee, begging at the same time to renew my assurances of kind personal regard for our former colleagues.
