ELKTON, FEBRUARY 22, 1873.

LOCAL AFFAIRS.

Local Miscellany.—The Mutual Building Society meets to-night.

The latest from Port Deposit reports the situation unchanged.

Personal.—Dr. Stites, the noted humorist, was in town this week, with an automatic escape from burning houses, which he expects to make a fortune out of.

Church Membership.—The distinctive features of the M. E. Church, on relation to Church membership, will be subject of an address next Sabbath morning, by Rev. L. C. Matlack.

The Snow and rain storm of Saturday night last and Sunday was the most disagreeable of the season, and left a horrid slush for pedestrians to wade through the greater part of the week. Our streets have been prolific of wet feet and colds.

Missionary Services.—The friends and members of the Methodist Church, in Elkton, are requested to bring or send their contributions next Sabbath.

The missionary anniversary exercises of the Sunday School Society, of the M. E. Church, will be held on Sunday night.—Singing by the children. Addresses will be given and reports from the classes will be made. All are invited to attend.—Universal interest is taken in these Anniversaries every year.

Church Re-Opening.—The M. E. Church at Zion, in this county, having been remodeled and tastefully finished, was re-opened for divine service on Sabbath, the 9th inst. Preaching by Rev. S. W. Kurtz, a former pastor, morning and evening. At the close of the morning service, the pastor made the following financial statement:—

Cost of repairs, ...	$1,800
Assets, ...	1,100
Indebtedness, ...	$700

An effort was made to raise the amount, about half of which was realized in cash and subscriptions.

Public Sale.—Mr. S. Burns, Auctioneer, sold on Tuesday 11th inst., for Mr. L. Price, at Pivot Bridge, eight head of horses at prices ranging from $50 to $125. Fourteen cattle brougnt from $20 to $35 each. In addition to stock, there was sold a very large lot of farm implements and also of household goods; the sale aggregating upwards of $3,000.

The same auctioneer sold on Thursday and Friday following, for Mrs. W. Biddle, near Chesapeake City, 14 horses and 30 cattle, large quantity of farm implements and household furniture, and 20,000 feet of lumber. Horses brought $75 to $150, cattle, $20 to $35. A large lot of white corn was offered and part of it sold, but the prices not being equal to that offering by the millers it was withdrawn.

The Peaches.—At the meeting of the Peninsula, Fruit Growers Association, held at Dover, Del., on Monday last, the following information was elicited in regard to the condition of the peach buds:

There was much concern manifested about the probable injury sustained by the peach crop from the intense cold weather.

Mr. Townsend said the crop was badly damaged about Townsend.

Mr. Cochran said that around Middletown, the damage was serious, and thought there were enough uninjured buds to secure a fair crop.

Mr. Griffith, of Kent county, Md., said in the neighborhood of Sassafras, about 15 per cent. of the buds, only, are left—uninjured.

Geo. W. Cummins, of Smyrna, said that in the upper part of Jersey, and north of St. Georges, in this State, the frost has been very fatal.

Dr. Davidson said that in lower Kent (Del.) and on down the Peninsula, so far as *he* had heard from, the prospect for a large crop is most encouraging. The buds are entirely uninjured by the cold, and the trees are *in* a very healthy condition.

Jury for March Term.—The following are the names of Jurors for the March term of Court, drawn on Friday of last week by Judge Stump.

GRAND JURY.	PETIT JURY.
Jeremiah C. Price,	T. B. Gillespie,
F. H. Eldridge,	Joseph H. Steel,

Railroads.—Messrs. Russel and Mackey, canvassers for stock to the Elkton & Oxford Narrow Gauge Railroad, were in town on Saturday last, and reported progress.—There was to have been a meeting of the Board of Directors, but some of the members being unable to attend the meeting was not held. Messrs. Fliteraft & Co., authorised a subscription of $3,000 to the stock on the day above mention. The probability is that the stock, $60,000, required to grade this road between Elkton & Oxford, will be subscribed by the time Spring opens, when the work will be immediately put under contract.

The prospect of the Elkton & Masseys railroad, we understand, is in a favorable condition for entire success. And Elkton is likely at no distant day to become an important railroad centre. The place has advantages for any and all kinds of business, almost equal to any location that we know of. The climate is remarkably healthy, and facilities for shipping to and from all points are unusually good. A little, well directed enterprise and some capital to back it would insure this a first-class business centre.

Pilot Town Items.

Land Sale.—Wm. J. Jones, Esq., sold at Oakwood, on Saturday, 52 acres of land belonging to the estate of Andrew Lewis, deceased, for $12 per acre. Purchaser, J. C. Bell.

Ice.—The blockade of ice in the Susquehanna will take a tremendous force of water to move it. There is a large quantity of timber in the ice.

Religious.—There is a revival at Vinegar Hill or Mount Pleasant M. E. Church.—There have been some 40 conversions. The altar is crowded nightly with penetants.

Teachers' Institute.—The Institute held a special meeting at Port Deposit, on Saturday. The attendence was good. Mr. J. Calhoun, read an essay on Female Education. I think one of the ablest I have heard delivered at the Association. The teachers are preparing to attend the county Institute, to meet in your town in March.

Conowingo.—This ancient village is looking up. I understand that all the old houses are rented. Mr. Bell is repairing his saw mill; also putting up a mill to grind soap-stone for roof.

The Following Extract is from a letter received from a former resident of Elkton, which throws some light on the present failures of the effort to procure an appropriation for clearing the channel of Elk River. It is a refutation to the charges against Mr. Creswell, by certain persons, who to their shame, never lose an opportunity to misrepresent the Postmaster General:

Having occasion to call upon Hon. Stevenson Archer a few evening since, and during our conversation in regard to the Elk River appropriation, I informed him that a number of citizens of Elkton (all of whom are, of course, good Democrats,) were under the impression that Mr. Creswell did not exercise his influence in behalf of that enterprise. Mr. Archer said that after Senator Hambleton and himself had done all they could for it, that Mr. Creswell *did* go before the Committee and made a lengthy and able argument, warmly advocating the propriety of such an appropriation, and that probably he (Mr. Creswell) was more disappointed than the most interested citizen of Elkton.

Mr. Archer, further said, that he thought the appropriation was lost solely because the survey was inaccurate, as the Committee would not listen to making the appropriation when the surveyor's report before them showed that the survey was made by punching holes in the ice. He also said that he was pretty sure of getting a sufficient amount to make an accurate survey, and that he thought it policy not to bring the bill up again this session, for if it was brought up and lost, (which he was confident it would be) it would only have a tendency to weaken it at the next session.

Revivals.—There is a very encouraging revival of religion at Wesley Chapel, on Elk Neck charge, Rev. W. T. Tull, pastor. Quite a number have been converted, and the church greatly quickened. The meeting has been in progress for about two weeks, but there have been several stormy nights. Those converted are mostly grown persons, and are said to be such as will remain.

Cherry Hill charge, Rev. Mr. Weston, pastor, is having the greatest revival there that has been in that neighborhood for twenty-five years. The meeting has been in progrees a number of weeks—the pastor keeping it going for several weeks without any evidence of success. But about two weeks ago the people commenced to move, and since that time the altar has been nightly crowded—as high as forty-five persons being forward on one evening. Many have been converted and have joined the church. Both old and young are the subjects of salvation. Several persons who had been seeking for four and five years have received the light. The work goes on with unabated interest.

We are informed that the note published two weeks ago stating that the Sabbath School at that place had closed, was incorrect. There was a failure to have school on two Sabbaths, owing to a combination of circumstances which prevented the superintendent, Mr. W. J. Grant from being present. The school is now regularly held, when the weather is such that the children can attend.

TEACHERS' NORMAL ASSOCIATION.

PORT DEPOSIT, Feb. 17th, 1873.

A special meeting of The Teachers' Normal Association was held in the "new school-room," on Saturday the 15th inst., to make arrangements for the approaching Institute. Miss Biddle, on behalf of the Committee of Elkton, reported that provisions would be made for the entertainment of the Teachers during the Institute. Moved and seconded a vote of thanks be given them for their kind offer of hospitality. Moved and seconded that the President of the Association appoint several of its members to take part in the literary exercises of the Institute.

An original poem was then read by Miss Biddle, entitled "A Requiem;" after which an essay on "Classification" was read by Mr. Gifford. Its subject was then taken up and discussed by Messrs. Warner, Calhoun, Watts and Trainor and Miss Biddle. An essay by Mr. Calhoun was next read; subject "Woman's Capacity," after which, on motion of Miss Biddle, a rising vote of thanks was given him by the ladies. Owing to the lateness of the hour the other exercises were omitted. Appointments for the next meeting were as follows:—

Essays, Miss Biddle, Miss Carter; Oration, Mr. Watts; Discussion, Mr. Warner, Mr. Trainor; Question: "How can we interest the patrons of our schools so as to secure the regular attend ance of their children?"

Referred Questions, Miss Jinnie Vandiver, Miss Emma Wilson; Select Readings, Miss Johns, Mr. Passmore. The appointments made by the President for the Institute were as follows: Essays, Mr. Gifford, Mr. Passmore, Mr. Calhoun, Mr. Quigley, Miss Martha Biddle, Miss Jane E. Way and Miss Mate Roberts; Select Readings, Miss Jinnie Wilson, Miss Mollie Johns, Miss Jinnie Vandiver, Mr. Warner, Mr. A. A. Hanna.

Association then adjourned till March the 1st.

MATE L. ROBERTS,
Secretary.

North East Items.

Rainy Sunday.—Last Sunday it rained continually all day in North East, dissolving all the snow, much to the disappointment to some of our citizens who proposed taking a sleigh ride to Port Deposit, to see the *Gorge*, which I hear is gradually disappearing without harm to much extent.

Preparations for Fishing.—Chas. Pearce is hanging his sein, preparatory to commencing his Spring fishing at the head of the North East river. The ice has commenced to move out.

Bag Hunt.—Reynard was let out of a bag on Wednesday last, about one o'clock, from the Railroad Hotel. Forty horsemen and as many hounds, with many women and children, gave chase. After an hour's pursuit, hotly followed, he found comfort beneath a rock, near Crawford's Factory.

Moral Show.—Prof. Ryder exhibited at the Mechanics' Hall, on Wednesday night last, to a full house. A good thing. A good band of music paraded through the streets during the day, which amused the boys muchly and had the desired affect to bring out a full house.

Mud Scow moved down the river to complete the contract there, which had been left on account of the ice.

Moved.—Mr. George Moore has moved to his new residence near the Depot.

Writing.—Prof. Haines has organised a writing school, at the Classical Seminary, North East. The *Prof.* understands his "bis" and is slightly ahead of your itemizer in penmanship.

Shooting on the Flats.—On Wednesday last, a considerable amount of ducks were killed. They are said to be very fat and of fine flavor.

The Agent of the HOWE MACHINE CO., Elkton, Md., intends to run two more wagons in Cecil county, which will leave but a slim chance for any other Company that is *trying* to establish agencies.

We Want Money, and during the Winter months will sell our PURE GROUND BONE at a liberal discount for *Cash*. Samples sent when desired.

Prof. Ryder's Show.—The "great Moral Show," as the Prof. designates his performance, was well patronized at its exhibition in the Hall on Tuesday night. A good orchestra discoursed excellent music, and added much to the programme. The performance consisted principally of songs, solos, and duets, sang in character. The "nobby" songs were particularly well rendered by H. H. Beckwith, whose part fits him remarkably. Leroy Moore executed what may very appropriately be termed the ridiculous role. He succeeded beyond doubt in the character for his performance was sufficiently absurd and amusing for the most primitive taste. Judging from the tremendous applause his grotesque acting and singing created, the audience thought it just the thing. We never admired that style *much*, and perhaps are not a proper critic. Master Hammond showed more talent for musical tricks than music. He played on a number of instruments, and on the violin held in a variety of positions. The "tricks" were the feature of his performance, the music being but secondary. Prof. Ryder's "lightning changes" were executed with much sleight of hand skill and were amusing.

The "Mesmeric Act," which closed the performance, was the great feature of the occasion, in which "a lady floating in the air without visible support," was represented. Not knowing how the trick was performed, we will not attempt to explain. A bench or lounge was placed on the stage, and a box twelve or fifteen inches square placed upon the bench, which the lady mounted. Two supports—poles about five feet in length and two and a half inches in diameter were placed vertically on the stage, on which the girl rested her elbows. After adjusting these supports properly, the "Professor" commenced his mesmeric manipulations. Presently odor of ether or cloroform came out through the house from the stage, and the girl's head began to fall back and her eyes to close. The support was then taken from under her left elbow and the box from beneath her feet, and she stood suspended about a foot above the lounge, touching nothing but the staff with her right elbow. Thus suspended, the "Professor" proceeded to place her in position to represent several tableaux. A flower basket was placed in her hand, and she was made to represent a flower girl; a helmet was placed on her head and a sword and shield in her hands to represent a gladiator. Some half dozen or more tableax were represented while she kept her place, apparently in a mesmeric sleep. The "Professor" concluded the performance by raising her body in a nearly horizontal position with her hand resting under her head which represented her reclining on her elbow that still rested on the top of the pole which was fastened securely in the stage by a socket. A hoop was then passed over her and down the pole to the stage and back, to show that she was held up by no invisible wires or cords attached above.

The theory is that the girl is mesmerized and placed in this rigid condition by the "Professor," and held by the same, or some other magic influence exerted by the performer, suspended, as it were, in the air, like the coffin of Mahomet. We have no faith in the "Professor's" mesmeric influences and show of ether. All jugglers make profuse display of exerting some supernatural powers when about to perform their tricks. But admitting the "Professor's" mesmeric theory to be genuine, the law of gravitation forbids the suspension of a body in mid air unless it is a little lighter than the air, which will then support it; and unless the weight is extracted from the lady she will not float, though she be mesmerized as stiff as a poker. The girl is evidently held suspended by some ingenious mechanism which not knowing its construction we will not attempt to describe. The "Professor" cannot control the laws of gravitation by mesmerism or any other spiritual influence that *he* can command, and the logical conclusion is inevitable that he must depend upon mechanical means to perform his trick and the mesmeric sleep is in that case not necessary and is all *feigned*.

LETTER FROM NORTH EAST.

NORTH EAST, Feb. 18th, 1873.

E. E. EWING, Esq.—*Dear Sir.*—We must congratulate you for keeping your shears in such good condition; they are so remarkable sharp that they clipped our letter of the 11th inst., till "Sampson" like, it was well nigh shorn of its strength.—Perhaps the language was a little too sharp for your modesty, but, nevertheless, it was true; we hope by modifying it a little you will do us the justice to print part of it at least, inasmuch as comparatively few of your many readers have any idea of the distances those parties live from our village. Therefore we would just say that the respectable freeholders of our town and *immediate vicinity* peremptorily refuse to sign petitions for the sale of intoxicating beverages in North East; consequently the rumseller is compelled to go some *two* or *three miles* to get men to recommend them to the Honorable Judge or County Clerk; whereas the law says, in their *immediate vicinity*, and *shall* comply with all the Code in regard to ordinary license, and under *these* circumstances we cannot see how the Honorable Judge can justify himself in recommending those men to the County Clerk for license for the sale of rum in North East.

ONE OF THE 155 SIGNERS
TO THE PETITION.

Fourth District Item.

—Next week will be the last week of the Public Schools for this term. A good many are making preparations for a closing exhibition or examination.

—The report that Scott's mill dam is washed away, is in a great measure, false. The dam was slightly injured, but repaired in a day or two, and they are now running on full time.

—The frost is coming out very fast, and we sincerely hope that Winter will soon be over, that our Supervisors may get at our roads and fix them up.

—The singing class at Christiana Church, closed on Saturday evening last. There was 125 singers present, including members from other schools, and everything passed off pleasantly, both to teacher and scholars.

Why Endure what is Curable?

"What can't be cured must be endured," says the proverb; but indigestion can be cured, and therefore it is the merest stupidity to endure it. Dyspeptics have certainly a right to continue dyspeptics to the end of their days if they choose, but as it is not supposed that any rational being prefers physical torment to ease and health, the probability is that if all sufferers from indigestion were convinced that an absolute, infallible remedy for their complaint existed, they would with one accord resort to it. We most emphatically declare that such a remedy does exist, and that its name is Hostetter's Stomach Bitters. The record of its success extends over a period of more than twenty years, and it is fearlessly alleged that during the whole of that time it has never failed to afford permanent relief in any disorder or derangement of the stomach that was not organic, malignant, and incurable. The testimonials that go to establish this important fact can be counted by the thousand. Stomach complaints that had been aggravated by a total disregard of all dietary rules, and intensified and rendered chronic by unskillful treatment or drastic purgation, have in hundreds of instances been cured within three months by the systematic use of this celebrated stomachic and alterative. It should be remembered that weakness of the digestive organs [illegible] other ailments. Biliousness, headache, nervous debility, [illegible] palpitation of the heart, rush of blood to the head, nausea, vertigo, and sleeplessness are among its concomitants and results; and for all these the great vegetable tonic is a specific. It acts first upon the stomach, and through the stomach upon the secretory and nervous systems and the bowels, its general effect being always genial and beneficent.

Rising Sun Items.

Good.—The coasting down the North Queen street hill; and the prospect for a wheat crop.

Warm.—The weather on Wednesday and Thursday; and the man that saw two moons.

Gone.—Sleighing and bad roads.

Improved.—Budd Haines' lot with a new well.

Fizzled.—The lecture on Wednesday night; and disappointed, a large audience.

Dull.—Times generally, and corn 48 cts. a bushel.

Around.—The cigar man; the whisky man; the deputy sheriff; two stray constables; and the tax collector.

Scarce.—News items in this "Burg."

—General Sickles, our Minister to Spain, has intimated to the new Government that the United States will press no embarrassing questions concerning Cuba. There have been insurrectionary troubles in some of the Provinces, and the statue of General Washington was taken down from the facade of the town hall at Barcelona.

SAFE TENURE OF OFFICE.—The Washington *Star* attributes the following to General Grant: The President, in conversation yesterday, stated that he had no intention to make any removals in post offices, because the present incumbents had held the positions for four years or eight, or even twelve years. There is considerable pressure upon Senators and members at this moment by aspirants for office in the postal service. Unless better reasons than those stated can be given, the parties may as well save themselves any further anxiety or trouble.

—The most virtuous paper in the land is the New York *Tribune*. It cannot find language sufficient to express its honor at the corruptions unveiled in Congress by the Credit Mobilier Committee; which is all right. But after advocating the election of a crazy man to the Presidency, and doing this thing, knowingly, plain people will be apt to think that paper, more of a hipocrite than a saint.

—The New York *Sun* says that the inventory and appraisement of the estate of the late Horace Greeley and of Mrs. Greeley shows that each of the daugters will have a fortune of at least $100,000 after the legacies mentioned in the will of 1871 have been paid.

Three Weeks After Marriage.

My dearest, you are going out?
Indeed, 'tis very cold;
Let me, sweet love, around your neck
This hankerchief infold.

You know how anxious for your health,
My own dear George, am I.
One loving kiss before we part—
Goodby, sweet chuck, goodby!

Three Years after Marriage.

You're going out!—why don't you go?
I can not help the rain.
You wouldn't grieve me mightily
To ne'er come back again!

Umbrella! I don't know where 'tis!
What 'll you want next, I wonder?
Don't pester me about your cold:
Good gracious!—go to thunder!

TO CONTRACTORS.

Proposals for Postal Cards.

POST OFFICE DEPARTMENT,
WASHINGTON, D. C., January 22, 1873.

SEALED PROPOSALS will be received at this Department until THURSDAY, the 27th day of February, 1873, for furnishing United States Postal Cards for, and during a period, of four years, commencing on the 1st day of May, 1873.

SIZE AND QUALITY OF CARD.

The Cards will be three by five and one-eighth (3x5⅛) inches in size, made from "bond paper" stock, (cotton and linen mixed,) tub-sized, the fibre beaten out long, worked together in a solid sheet without pasting, and suitably calendered on both sides for printing and writing in ink or pencil. The card-board must weigh six (6) pounds per thousand (1,000) cards, and each card, at the option of the Postmaster General, must bear a water-mark rolls to be furnished by the Government.

PRINTING, DIES PLATES, &c.

The cards will be surface-printed on one side only, from hardened steel plates made from a die the property of the Government. Two forms of plates for thirty-six (36) cards each will be furnished to the contractor, mounted to the height of ordinary printing type on metal blocks, spaced accurately, to cut the size of the cards, ready for the press; said plate, to be kept in repair and renewed at the cost of the contractor.

The Department reserves the right to cause the design, die, rolls, plates, color, and water-mark of the card to be changed whenever the public interest may be subserved thereby; and to require, when necessary, new designs, dies, rolls, plates, colors, and water-marks, equal in every respect to those supplied by the Government, to be furnished within a reasonable time, at the contractor's cost, subject to the approval of the Postmaster General. And it is expressly understood that all dies, rolls, plates, and water-mark rolls, made or used at any time during the existence of the contract, shall be the absolute property of the United States, and shall be delivered in good working order to the Postmaster General, or his authorized agent, whenever demanded.

NUMBER OF CARDS FIRST YEAR.

The estimated number of cards required for the first year is one hundred million, (100,000,000,) but the contractor must furnish all that may be called for without reference to this estimate, be the same more or less.

BUILDING, SECURITY FROM FIRE AND THEFT.

The cards will be required to be manufactured in a fire-proof building, and in separate apartments, distinct from those in which any other work is done by the contractor; and when finished must be placed in a fire and burglar-proof safe or vault, to be especially provided for that purpose, and said apartments and safe or vault shall, at all times, be subject to the inspection of an agent of the Department.

PACKING.

The cards must be banded in parcels of twenty-five (25) and packed in strong paste-board or straw boxes, securely bound on the edges and corners with cotton or linen cloth glued on; each box to contain not less than five hundred cards; the boxes to be wrapped and securely fastened in strong manilla paper and sealed so as to safely bear transportation by mail for delivery to postmasters. When four thousand (4,000) or more cards are required to fill the order of a postmaster, the paste-board or straw boxes containing the same must be packed in strong wooden cases, well wrapped with hoop iron.—Said cases and packages shall be addressed by the contractor under the direction of an agent of the Department. Wooden cases containing the cards, to be transported by water-routes, must be provided with suitable water-proofing.

DELIVERY.

At the time the contract takes effect the contractor shall have on hand, ready for delivery, not less than five million (5,000,000) cards, and shall, from and after that date, deliver with all reasonable dispatch, packed, addressed, and labelled as aforesaid, such quantities as may be required to fill the daily orders of postmasters; the deliveries to be made either at the Post Office Department, Washington, D. C., or at the post office in the city or town where the contractor does business the place of delivery to be at the option of the Postmaster General; the cost of delivery, as well as all expenses of packing, water-proofing, storing, addressing, the labelling, to be paid by the contractor.

The Department shall have the right to require of the contractor, at the expiration of the contract, or at any time during its existence, to furnish an extra quantity of cards not exceeding a supply for three (3) months.

INSPECTION.—AGENT OF THE DEPARTMENT.

An agent of the Department will have supervision of the manufacture, storage, and issue of the cards, who shall, at all times, have full and free access to the apartments, safes, and vaults where the cards are manufactured and stored, for the purpose of inspecting the same, and whose duty it will be to require the stipulations of the contract to be faithfully observed; and the contractor shall furnish him and his clerks suitable office and desk room at the place of manufacture, for the transaction of the business of his agency, without cost to the United States.

The contractor, his employees, and agents shall conform to such regulations as the Department may from time to time adopt for the security of the Government.

REPORTS.

The contractor will be required to report weekly, under oath, the number of cards manufactured, (finished, unfinished, and spoiled, (the number issued during the week, and the number available for issue all spoiled cards to be destroyed by the contractor in the presence of the agent of the Department.

BLANKS.

In addition, the contractor will be required to furnish labels, and direct the same for each package in accordance with the daily lists furnished by the agent of the Department; together with all other blanks required to be inclosed with the cards; also all blanks for daily, weekly, monthly, and quarterly returns relating to the number of cards furnished, and stock on hand or in process of manufacture.

CONTRACT NOT ASSIGNABLE.

The contract can not, in any case, be lawfully transferred or assigned.

RESERVATIONS.

The Postmaster General reserves the right to reject any and all bids if, in his judgment, the interests of the Government require it; also the right to annul the contract if, in his opinion, there shall be a failure at any time to perform faithfully any of its stipulations, or in case of a wilful attempt to impose upon the sample furnished to the bidder by the Department.

PAYMENTS.

Payments for cards actually issued and delivered will be made quarterly, after, proper examination and adjustment of accounts.

AWARD—AGREEMENT—BONDS.

Within ten days after the contract has been awarded, the successful bidder shall enter into an agreement, in writing, with the Postmaster General to faithfully observe and keep the terms, conditions, and requirements set forth in this advertisement, according to their true intent and meaning, and shall make, execute, and deliver, subject to the approval and acceptance of the Postmaster General, bonds, with good and sufficient sureties, in the sum of one hundred thousand dollars, (100,000,) as a forfeiture, for the faithful performance of said agreement or contract, according to the provisions and subject to the liabilities of the seventeenth section of an act of Congress, entitled "An act legalizing and making appropriations for such necessary objects as have been usually included in the general appropriation bills without authority of law, and to fix and provide for certain incidental expenses of the Departments and offices of the Government, and for other purposes."—(United States Statutes at large, volume 5, page 526.) approved August 26, 1842, which act provides that in case the contractor shall fail to comply with the terms of his contract he and his sureties shall be liable for the forfeiture specified in such contract as liquidated damages, to be sued for in the name of the United States in any court having jurisdiction thereof.

If the contractor to whom the first award may be made should fail to enter into agreement and give satisfactory bonds, as herein provided, then the award may be annulled and the contract let to the next lowest responsible bidder, and so on until the required agreement and bonds are executed; and such next lowest bidder shall be required to fulfill every stipulation embraced herein, as if he were the original party to whom the contract was awarded.

The agreement will also provide that, if at any time during the continuance of the contract the sureties shall die, or become irresponsible for the entire penalty of the bond, the Postmaster General shall have the right to require a new bond, with additional and sufficient sureties, which the contractor shall furnish, to the acceptance of the Postmaster General, within ten days after notice, and in default thereof the contract may be annulled.

EXTENSION.

Should the interest of the Government require, this contract may be extended beyond the time named, not exceeding three months, by order of the Postmaster General, and the contract prices and all conditions herein set forth shall govern in such extended contract.

SPECIMENS AND FORMS OF BID.

Specimens of the printed card and card-board, (without the water-mark, which is not yet completed,) together with blank forms for bids, may be had on application to the Third Assistant Postmaster General.

GUARANTEE—PROPOSALS.

No proposals will be considered unless accompanied by a satisfactory guarantee, signed by at least two responsible parties.

Bidders must state in their proposals the price per thousand cards, including everything required to be done or furnished, as set forth in this advertisement; and all proposals must be made upon the blank forms furnished by the Department, securely enveloped and sealed, marked "Proposals for Postal Cards," and addressed to the Third Assistant Postmaster General, Washington, D. C.

DURING THE HEATED TERM

THE MAJORITY OF PERSONS SUFFER FROM

General Physical Prostration and Debility, Loss of Appetite, Distaste for Food, Want of Energy, Languor, Paleness, Emaciation, &c.

FOR THE COMPLETE RELIEF OF ALL SUCH CASES WE WOULD CALL ESPECIAL ATTENTION TO THE FOLLOWING PREPARATIONS:

Phospho-Ferrated Elixir of Calisaya Bark.

(*Iron, Phosphorus and Calisaya.*)

AND BITTER WINE OF IRON,

MADE BY E. BRINGHURST & CO.

These elegant Preparations are palatable and grateful to the taste, acceptable to the stomach and uniform in strength, possessing decided tonic and anti-periodic properties. They improve the appetite, assist digestion, create a relish for food, increase the strength and relieve the exhaustion and fatigue arising from excessive mental or physical labor, and are particularly valuable as a Restorer, Invigorator and Appetizer in all forms of general debility attended with nervous prostration and impoverishment of the blood, and especially suited for the use of convalescents, delicate females and children.

Notice of Amendment.

At a Special Meeting of the Shareholders of the Elkton Building Society, held February 8th, 1873, the following amendment to Article 13, section 2, was proposed:

"Shareholders wishing to withdraw, may, if notice in writing be given before the money is offered for sale on any regular meeting night of the Society of such intention to the Directors, be entitled to receive the amount actually paid and ten per cent interest thereon, to be calculated on the monthly payments, less all dues, fines and interest standing against him; *provided*, that no money shall be paid to withdrawing members so long as the same shall be claimed as a loan or advance by a member or members at a premium not less than ten per cent. But no member shall be permitted to withdraw who has taken one or more loans from the association, until said loans are fully paid, unless by consent of two-thirds of the Directors present."

The meeting adjourned to March 8th, 1873, when the proposed Amendment will be brought before the meeting for adoption or rejection, in compliance with Article 26 of the By-Laws of the Society.

MEDICINAL.

NEVER Known to FAIL.

THOMPSON'S

Fever and Ague Powders,

FOR THE PERMANENT CURE OF

CHILLS AND FEVER,

DUMB AGUE,

Or any form of Intermittent Fever.

THE GREATEST DISCOVERY OF THE AGE!

There are no diseases so debilitating in their effects upon the constitution as the above, and none more difficult to cure by the usual modes of practice. The FEVER AND AGUE POWDERS will effect a cure in cases of the longest standing as well as prove a preventive in the forming stages of the disease. Being purely Vegetable, they act with certainty on the disease, totally eradicating it from the system, and prevent a return at any future period.

Why waste your money and health in trying every medicine you hear of, when THOMPSON'S FEVER and AGUE POWDERS have never failed to cure the CHILLS in any case.

Reasons why they Only should be Used.

THEIR REPUTATION IS ESTABLISHED.—Thousands of testimonials have been received, showing that these POWDERS have performed miracles in curing cases of long standing, many of them considered hopeless.

THERE IS NO RISK IN TAKING THEM. They contain nothing injurious, and, therefore, cause none of the lingering diseases so often the result of the many nostrums of the day. Physicians recommend them as superior to Quinine or any other known remedy, for they leave the system in a healthy state, and the patient beyond the probability of a relapse.

BEWARE OF COUNTERFEITS.—The genuine are put up in square tin boxes, with THOMPSON'S FEVER and AGUE POWDERS stamped on the lid, and the signature of THOMPSON & CRAWFORD on the wrapper. No others can possibly be genuine.

THOMPSON'S RHEUMATIC AND Horse Liniment.

The Great External Remedy for RHEUMATISM, NEURALGIA, SPRAINS. BRUISES, &c.

Equally Good for Man or Beast.

This LINIMENT has earned for itself a reputation unequalled in the history of External Applications.—☞ Thousands who now suffer from RHEUMATISM, NEURALGIA, &c., would find immediate relief from all pain by using this CERTAIN REMEDY. It is equally effectual in CUTS, BURNS, SCALDS, STIFFNESS OF THE NECK, SORE THROAT, SWELLINGS, INFLAMMATIONS, FROST BITES, PAINS IN THE SIDE OR BACK, BITES OF SPIDERS or STINGS OF INSECTS.

One rubbing will in all cases give immediate relief, and a few applications complete a cure.

On account of its powerful penetrating properties it is beyond doubt the SUREST REMEDY for the most troublesome diseases to which Horses and Cattle are liable. It cures SCRATCHES, old and fresh Cuts or Sores, Chafes produced by the collar or saddle, Injuries caused by Nails or Splints entering the flesh or hoofs, Bruises, Sprains, Sweeney, Spavin, Thrush, and all Diseases which destroy the Hoofs and Bones of the Feet.

☞ FULL DIRECTIONS accompany each bottle.—The above are Prepared only by
