The Railroad Question in the West. The conflict between railroad companies and the producers, especially of farm products, is becoming exciting. The threatened conflict between the Postoffice Department and some of the largest railroad year. One of the Board of County Comcorporation in the matter of postal cars missioners after hearing the very able and came apparently very near resulting in a eloquent address of the President of the serious manner, and has only been post- School Board, replied that if he had his poned for a future adjustment.

But the western farmers, who loudly complain of extortion, are rising en mass to blush and hang his head in shame, to think resist the railroad companies, and the following extracts from an address before a tor of her affairs. And the Democratic that is on trial between the contending par-

"Here is the whole story in a nut shell: ment.

law tells us when the reason of a law ceases, the law itself ceases. By its aid many a musty precedent has been swept away, and gives place to a better and juster rule.

"With the producers of Illinois, organized and united, with an enlightened understanding of the issues involved, not forgetting that the lawyers may be found necessary evils in the fight, with faith in the purity and eminent ability of our Supreme Court, within the next six months we shall hear the voice which emancipates us from the tyranny of railway monopo-

heard, who is competent to put his thoughts into fair English, and who has something possessing individuality enough to entitle it to a hearing. The Jeffersonian maxim of allowing truth to combat error, we think a good one, and in fact, the only fair one for the publisher of a popular journal to follow. We can pretty readily determine what constitutes fair play, but the question of orthodoxy is constantly changing and is apparently as far from settlement as it ever was. We will sell out The Whin, however, to our friend on reasonable terms, if he would like to try the edi-

the back pay voted to Congressmen. Good for the Judge: But did he vote for that twin relic of barbarism to charge postage on newspaper exchanges, and on circulation in the county where published. Let us know who among our Maryland Conservation in the county where published. Let us know who among our Maryland Conservation in the county where published in the county where the county us know who among our Maryland Congressmen voted for this tax, if any, and let the public hear what defense they have to make. All of our Maryland Congressmen we believe voted against the big steal, but we believe voted against the big steal, but has any of them, except Judge Merrick, refused the plunder? How much better is Thomas F. Hicks, in Wilmington, Del. Price a penny 2 week.

THE FARMERS MUTUAL OF YORK, PA., Matual Fire Insurance Companies in operation. Its Agents do a large business in ation. Its Agents do a large business in this county. Risks on farm property taken [27 Oak Hall may be the popular clothat low rates.

Condition and Wants of our Public Schools.

The following interesting paper was read before the County Commissioners on Tuesday last by the President of the School Board, on the occasion of the annual meeting of the Board with the County Commissioners to confer with them, in the matter of making the necessary appropriaway he would repeal the Public School law. Does not every intelligent man in Cecil Elkton ring is alone equal to such senti-

with the producers of fillinois, organized and united, with an enlightened understanding of the issues involved, not forgetting that the lawyers may be found increasary evils in the fight, with faith in the purity and eminent ability of our Singenized a Teachers' Association about two years ago, which was a commendate by the profits of the characters of the Cth, 7th and 8th Districts. They preme Court, within the next six months we shall hear the voice which emancipates us from the tyranny of railway monopolies."

EXTHUSIASTIC.

A correspondent of the All Day City Rem from Washington, writes in the following enraptured manner of the Postmaster General.

The Postmaster General has beaten the Railroad Monopoly, just as he beat high postages, the franking privilege, public documents, and other oppressions of his department, and as he will beat the Telegraph Monopoly.

Mr. Creswell is just, and he is brave. No amount of labor, or threat, or smile, or roof of hard solder, intimidate him.

He is for the People, who will make him Bresident one of the sed axes file will consider the province of the control of the control

small outlay of money; for instance in the or hard solder, intimidate him.

He is for the People, who will make him President one of these days, if he will consent to take the abuse and vexation that of getting to it. Even in the towns of getting to it.

-- When the office hunters fail to secure soft places they sigh and prophecy that soft places they sigh and prophecy that there will be a going to prices of parties predicted. He twice applies the word before four years roll round. The Balti

Answer to the Letter "E."

EDITOR OF THE CECIL WING .- Through the politeness of some friend I have received a copy of your paper of the 5th, inst., containing some strictures on my lectures by a correspondent who signs himself "E." It is not generally expected that a man will take much notice of anonymous criticisms, matter of making the necessary appropria-tion for the support of schools the ensuing tion for the support of Schools the ensuing enlighten one who freely applies the word "sinister" to those who may differ from

him. I believe it is generally supposed among gentlemen, that such epithets are evidence of weakness, not to speak of ill Le manners, on the part of those who use them. It is certainly easier to call names and assail motives than to refute the demonstrated facts of science. The latter lowing extracts from an address before a great farmers' convention at Bloomington, Illinois, delivered by a Mr. Rowell will serve to show the character of the issue that is on trial between the contending part.

To of her affairs. And the Democratic party are responsible for this great shame. Thank God such an outrage to the intelligence of the age is not possible for the that is on trial between the contending party. A representative of the downward of the party are responsible for this great shame. When the character of the issue gence of the age is not possible for the filled against them. But in all such conflicts science has invariably whipped, not party are responsible for this great shame. When the character of the issue gence of the age is not possible for the filled against them. But in all such conflicts science has invariably whipped, not party are responsible for this great shame. When the character of the issue gence of the age is not possible for the filled party. A representative of the filled party are responsible for this great shame. When the character of the issue gence of the age is not possible for the filled party. A representative of the filled party are responsible for this great shame. When the character of the issue gence of the age is not possible for the great shame. This holf-then it vers old. Has been had a when the character of the intelligence of the age is not possible for the gence of the age is not possible for the party are responsible for this great shame. When the character of the intelligence of the age is not possible for the party are responsible for this great shame. This holf-then it vers old. Has been had a when the character of the intelligence of the age is not possible for the party are responsible for this great shame. When the character of the intelligence of the age is not possible for the party are responsible for

serve to show the character of the issue that is on triab between the contending particles.

"Here is the whole story in a unt alied property of the state-demandation and the property of taxtion have been harfully used in the construction of these roads." They are, therefore public highways. The correspondent almost man all the property of the state-dare political officers as the state of the

It la for the People, who will make him President one of these days. If he will consent to take the shows and vexiston that sent to take the shows and vexiston that he shows and very that he shows in each of these towns and until we are religiously bound in to succeed the shows in each of these towns and until we are religiously bound in to succeed the shows in the shows in each of these towns and until we are religiously bound in to succeed the shows in the County are on the shows in the County are shown and the shows in the County are on the shows in the County are shown and the shows are shown and the shows are shown and the shows are

ty of ignorance, bigotry and prejudice, but it stands the eternal Sentinel of truth, to welcome every light that flashes along the

paths of science, to reveal the presence and the wisdom of creating power. Such, at least is my confidence in the perfect harmony between Nature and Hovelation,
Your obedient servant,
C. CHAUNCEY BURB,

Cope's Bone and Ammoniated Bone PHOSPHATE OF LIME,

Over seventien hundred tons sold during the year 1872, an increase of thirty-three per cent over previous year. There is not a particle of adulteration in these manures, and we defy the world to prove our articles to be made from material different from what, we represent. Phosphoric Acid, Ammonia and Jenah are the principal great fertilizing elements they contain, and any one who has the slightest knowledge of how plants feel and what they require, will acknowledge that these elements furnish the very life blood to them. England, having only a small area of territory, consumes eight hundred thousand tone annually of concentrated leftilizers. Thus agriculture is developed to a very high degree of perfection, and that amount is more than double what is used in the United States. Farmers of Cecil and the adjoining counties, you can use more reliable fertilizers with profit to yourselves and advantage to your country. Customers respectfully instited to visit our whose, see our mode of operation, view the raw material, and have a talk with the manufacturers. Thanking our kind friends for their exertions on our behalf, and the public for their fiberal patronage, we hope by strict personal attention to every branch of our business to still merit your kind indugence.

For Sale by GEO. B. PASSMORE & CO., Rising Sun, Md., and delivered at Factory Prices, free of freight, at the consumer's nearest Railroad Station.

HENRY COPE & CO.,
LINCOLN UNIVERSITY, CHESTER COUNTY, PA.

READ THE TESTIMONY IN ITS FAVOR.

WET GROVE, December, 1872.

II. Core & Co.—Your Super Phosphate gave us the best satisfaction of any fertilizer used.

2011N I. CARTER, Superintendent of the Eastern Experimental Farm.

Ributwat, N. C., January 17, 1873.

II. Corr & Co.—Gents.—We prefer your Ammoniated Bone Phosphate to Eureka or another popular brand we lave used alongside. Send us 20 tons for Spring use.

J. WILLIAMS THORNE. II. Corx & Cc.—Dear Sirs:—In reply to your inquiry concerning the value of your Ammoniated Bone Phosphate of Lifne as a fertilizer, I thould say, judging from the analysis, that it is a good stife, and I should not healtate in recommending it as a useful manure. The quantity of soluble phosphoric acid, on which its value as a fertilizer principally depends, is above the average that has come under my inspection; the quantity of ammonia is pretty fair, and the quantity of Potash also materially improves if as a fertilizing material. Yours truly bit, T. R. WOLF, Professor of Chemistry, Delaware College.

Dit. T. R. WOLF, Professor of Chemistry, Delaware College.

II. Corg & Co-dientlemen:—During the last three years I have been testing your Annoninted Phosphate upon my truck-fura, near this berough, with very satisfactory results. Upon corn I tested it side by side with the best stable manure—and in the little of six other rows, about a table sponfull of the Phosphate, thus alternating over the field, and leaving one row between early six without application of either the phosphate or the nature. The manured rows stated first, graw rather faster and made larger stalks, but when the corn was bucked, the phosphate rows yielded as fine case and as many of them as the manured rows—but producing fifty per cent more corn than the rows left without the application. Upon posphate leaving every fift row without the application. All through the growing season this fifth row could be distinguished at a quarier of a mile distant, and upon taking up the crop, the yield was a looper cent better in the phosphate rows. I applied the phosphate about 400 Bs. to the action, in the rows, with "All in Planet Prill," at the time of planting. I found your phosphate very advantageous to late cabbage crop, and have also used it with decided benefit to winted be sets, and particularly to my turnip crops. While I am of the opinies that nothing can equal first quality stable manure for trincking purposes, yet as a sufficient quantity of this minure counts to obtained here, I deem it a fortunate circumstance that we have your exclient phosphate to fall lack upon.

Truly yours,

Pres. of the Oxford Agricultural Society, late Pres. of Chester Co. Agricultural Society.

Orrord, Pa., February 26, 1847.

HENNY Core 5 Co.—In the Spring of 1872, I had a field of 814 acres, in Londongrove township, plan 4cd with corn. Knowing that your fertilizers had a good rejutation, I purchased 115 tons of your agents, at Wast Gree, S. R. Chambers 4 Bro. One ton of the Bonn Phosphate was sown broadcast before plowing, and half a tee of the Ammonistic was stilled with the corn when planted. This was all the manufing the quantity of ours on it. The wasterge. One acres of the field was measured for the purpose of accretaining the quantity of ours on it. The corn was measured when banked, and the yield on the acre was one hundred bushels and twenty-three pounds.—The whole field averaged at least seventy-five bushels per acre—the premium acre having received a rather larger quantity of the fertilizer in the drill. I am satisfied that the crop was greatly increased by fertilizer applied.

HENRY L. BRINTON, (Editor Oxford Press.)

And potatoes. The results have been very satisfactory. I feel a pleasars in recommending your brands of fettilizers, as having been many years at your Works, examined your material and viewed your mode of operation, am attainfied you are making an honest and first-class stricle. I shall take about three tons of your Phosphate and Bone for apring crops.

Vourstruly,

ALEX. H. INGRAM.

II. Cork & Co.—I have been uning your bearing to the contraction of the contraction of the contraction.

H. Cork & Co.—I have been using your Bone Phosphate for three years alongside of other branks. Young home much better for me than any I have ever used. I recommend it highly to brother farmers.

JAS. W. HUTCHISON.

West Grove, 7th Me. 2300, 1871.

I cheerfully recommend Cepe's Bone Phosphate, believing it to be truly a bone phosphate, and, the very lost hat we can lay.

24 Mo., 1873.—I will take three tons of your Phosphate for Spring crops.—M. C. HANKY COPE & CO.—Gentlemen:—Though I have not been in the practice of giving certificates to those who manufacture the Phosphetics which I have used, yet I feel that it is due to Henry Cope & Co. to say that of the Phosphetis that I have tried, and the rations tests which I have made, Cope : Phesphetic was far superior to any. Some other brands I could not be induced to use at half the price they sell, for the only good wheat had this and in fact on every crop used I am condend that I was well remunerated. And so long as your establishment is one grow the force, I shall never use any other, except by the way of test.

Yours truly, JESSE C. DICKEY.
