So here's three gobbles for the " Turkey" as a candidate for next sheriff.

his honest conviction is living in a state of mortal sin. The teaching of the Catholic Church on the subject of education may be summed up in a few words: Our life is twofold-the life of the body and the life of the soul. These two lives are so intertwined that they cannot be separated even in thought. The education of both must, therefore, go hand in hand; for although the body is here only the jeweled casket of the immortal soul it is still destined by God to share with the soul happiness unspeakable through the endless years of

The command to blend the education of soul and body together is as old as Revelation; for almost every page of the Holy Scriptures bristles with warnings to romember our Creator in the days of our youth, before the days of affliction come .-

It is, therefore, of great importance that persons whose minds are opported with heavy business responsibilities or harassed by family troubles, or excited by speculation.
