Premiums Extraordinary

A Valuable Magazine Free!

We will send THE CECIL WHIG for **1874**, from January 1st, and a copy of WOOD'S HOUSEHOLD MAGAZINE, or a copy of THE JOURNAL OF THE FARM, for **$2.00.** Or for **$2.30** we will send THE WHIG and WOOD'S HOUSEHOLD MAGAZINE and a handsome Chromo YO-SEMITE FALLS, dimensions 14 x 20 inches. This is a beautiful landscape chromo, much superior to the majority of premium chromos.

Wood's Household Magazine is a first-class family periodical, published monthly, and any home circle receiving its visits for a year will reap many times the value of the entire outlay in pleasure and useful information. THE HOUSEHOLD is much improved and ranks among the best family periodicals of the day.

The Journal of the Farm is one of the best, neatest and most practical Agricultural publications issued from the American Press. It is published in Philadelphia, and we have selected the JOURNAL from a large list of agricultural papers as the very best one to supply the needs of the farmers of Cecil.—Every one who examines it will be satisfied that we cannot speak too highly of this publications. Both magazines may be seen at our office.

☞Send in your orders at once, ACCOMPANIED BY THE CASH, and receive a copy of the magazines.

LOCAL AFFAIRS.

—Rev. James A. Brindle will preach in Haye's school house, to-morrow (Sunday) afternoon, at 3 o'clock.

—The African M. E. Church will hold their Quarterly Meeting to-morrow at 11 o'clock A. M., and 3 and 7½ o'clock P. M.
D. RIDEOUT, Pastor.

—A new map and descriptive circular containing location, prices, &c., &c., of Kansas Railroad Land, sent free on applicants, from the WHIG office.

—Reuben Haines, Esq., Trustee, sold on Thursday, three lots belonging to the estate of the late John T. Bowden, in Rising Sun; lot on Pearl Street to Rising Sun Banking Co., for $302; and two lots to Annie Bowden, for $110.

—We were gratified to learn that the Rising Sun Banking Company, during the crisis by its generous course towards its depositors and customers, more fully secured the already well established confidence of the community. It is managed by good, reliable men. The new bank building, which is fast approaching completion, is an ornament to the town and will afford every security to depositors.

—Among the Felton items published in *Peninsular News and Advertiser*, we note that "Mr. M. Frank Lowman has made over $1,000 this year in the peach business, and increased his drug trade at the same time." Mr. Lowman formerly resided in Elkton, but for some years has been engaged in the drug business at Felton. We presume the above statement was written by himself and should be correct, for Frank ought to know.

—The Quarterly Conference of Elkton Station and Mission will convene in St. Philip's colored M. P. Church, North East, the 24th inst., at 10 o'clock A. M. The Quarterly Meeting, on Sunday, will be held at St. Mark's, Elk Neck; the sacrement discourse will be preached at 2 o'clock P. M., by Rev. E. W. Scott. Service will be held in Providence Church, Elkton, Sunday, at 10 o'clock A. M.; also at 3 and 7½ o'clock P. M.
Rev. E. W. SCOTT, Pastor.

Concert.—The Presbyterian congregation will hold a Concert, on the evening of the 6th of November, at the Odd Fellow's Hall, for the benefit of the Elkton Presbyterian Church. A number of fine amateur singers from abroad have voluntered to assist our home talent on the occasion.

Hot Supper.—The ladies of Chesapeake Presbyterian Church, propose giving a hot supper on the 4th of December, for the benefit of the Church. That is, the supper will first benefit the good folks who eat it, and the 50 cents they pay will benefit the Church. If the weather is any thing like last December, a warm supper will be very acceptable on the 4th or any other evening.

Appointed.—Mr. Cecil F. Weaver has received a probationary appointment as Postal Clerk on the Missouri Kansas and Texas Railroad. Head quarters Fort Scott, Kansas, and terminus of the route Dennison Texas. Mr. Weaver is a graduate of the Whig office, and has been employed for some time in the government printing office at Washington, but his health failing, and being threatened with permanent pulmonary disease, he solicited, and has procured the above named appointment.

Sermon on Temperance.—Rev. Pennel Coombe, will preach in the Presbyterian Church, of this town, on Sunday morning, the 2nd of November, and in the M. E. Church, in the evening at 7½ P. M. His subject will be principally devoted to the subject of temperance. He will lecture on Monday evening on the same subject. The well-known ability of Mr. Coombe as a temperance lecture will be sure to draw large audiences. He has few superiors in the country as lecturer on the subject of temperance.

Perhaps the progress of the present century is in nothing more strongly demonstrated than in the advancement of both medical and medico-chemical science. Diseases and ailments a few years ago, believed incurable, may to-day be relieved by medicines within the reach of all. Prominent among these curative agencies are the medicinal preparations of Dr. Swayne & Son, of Phila., to whose advertisement in to-day's issue we call the attention of our readers. These remedies are now for sale in our town, at the popular Drug Store of Dr. Frazer.

Lost and Found.—The gentlemanly beverage clerk at the "Owl's Roost," while in the act of handing out to the "birds" a little soft solder, on Saturday evening last, surprised the "birds" by suddenly disappearing to the "lower regions," taking with him, to the regret of the "old birds," all the glasses and "sich." While the "owls" stood there in amazement, and wondering where the old "boss owl" had stopped, and whether or not he was much hurt, they heard that "still small voice" from below cry out "Man wants but little *here below*, but wants that little *now*," whereupon he was immediately extricated. He was found to be but slightly injured, but his watch was "knocked out of time." And so the circus went on.

A Grand Display!—The dedication of the new hall of the Knights of Pythias, at Cherry Hill, will take place on the 1st day of November. There will be an imposing parade of uniformed lodges from Baltimore and other cities, and after the ceremony, speeches by Judge Lindsay and other officers of the Grand Lodge of Md. The fair and festival will be opened, October 30th, and continue three days. Attention is directed to the notice in another column.

Sale of Port Deposit Property.—Mr. F. S. Everist, assignee, on Monday, Oct. 20th, sold the Tannery and other property of Mr. J. L. Maxwell, situate in Port Deposit, to Mr. Kauffman Katts, for $4,050. The property consists of a large four storied brick dwelling and a smaller dwelling house, in addition to the steam tannery. The price is not considered to be one-half the value of the property, as the brick house alone would cost not far from $7,000 to build it. But the times are so out of joint that it is almost impossible to sell real property at all. Mr. Everist has had this property in the market for a long time; and it has been well advertised, and yet but one bidder could be found.

Major Henry R. Torbert, of Cecil.—This gentleman who has been among us for the past week, leaves for Baltimore this evening. Beginning with Saturday night last the Major has addressed large meetings at Cumberland, Frostburg, Lonaconing, Barton, Westernport and Mt. Savage, Everywhere he has gone he has made splendid speeches, always commanding the strictest attention of his hearers, and receiving their warm plaudits of commendation. Off of the stump the Major is a pleasant, sociable, genial gentleman, and has made for himself (as well as for his cause) scores of warm friends in Allegany. His services to our party cannot be overestimated, and we certainly are greatly indebted to him for his labors in our behalf. He will always be held in gratitude by us, and we hope that in future campaigns we may have his voice again raised in our cause.

We bid him good-bye with regret, and can only hope that he is as favorably impressed with our people as they are with him.—*Cumberland Daily News, October* 18.

Frost—Heavy Rain and High River—Injury to Mr. Tome's Park—Painful Accident—Plenty of Oysters—Farm Business—Politics and Politicians—The Effects of the Panic.

Frost has been quite plentifully strewn for a few mornings since, provoking chilly feelings, giving a foretaste of Winter and causing activity in the coal market.

Rain fell very abundantly on Sunday night and Monday, causing some damage in the town. The ground was deluged with water and the river in consequence is rather high. The beautiful grounds of the Hon. J. Tome were considerably injured. Mr. Pugh escaped this time without injury, having received his portion of disaster some time since.

Mr. S. Gorrll inflicted a painful and serious wound upon his right wrist by a blow from a hatchet, while working at the new house of Mr. John McClenahan. The hurt will incapacitate him from work for a few weeks.

The Oyster season has opened in reality, and the bivalve have appeared in numbers sufficient to satisfy the appetite of the lovers of the shelly eatables at the low rate of 50 cents per bushel.

The farmers have finished their seeding and are now stripping the golden corn of its husky covering; it bids fair to be an average crop. It is now being retailed along shore for the convenience of those who delight in fat, juicy pork.

Politicians are becoming excited as election day approaches. The Goldsborough and Price Campaign Club will hold a meeting on Friday, 31st inst., when able speakers are expected to address the members of the Club, and all others who may desire to attend.

The financial panic somewhat disturbed the business men of our town, but it has spent its fury, and business is resuming its wonted channels. There are no wrecked and shattered fortunes to be gathered up amongst us, since the storm has passed over us.

The Major lives here with us; keeps his horse and buggy here, visits around the other Districts, but always comes back to us at night; occasionally visits your town by railroad. It is reported he told some of our people it was much cheaper to stay in Port; for when in Elkton they always sent every one to him who wanted money, and that he could not afford to bear all the expenses of the campaign. He is evidently very much frightened, and well may he be, for we intend to go for him without gloves.

Chesapeake City Items.

Violation of Town Ordinance—Sold Out—Base Ball—Nutting—Rain Storm—Markets.

Notwithstanding the town law we have, prohibiting the running at large of cattle in our streets, we often hear of them committing some depredations on our neighbor's cabbage garden, etc.

Mr. Jacob Cass has sold his carting fixtures to Mr. S. P. Woods. Mr. Woods will now carry on the carting business in place of Mr. Cass.

An interesting game of base ball was played here on Saturday of last week, between a club of small boys of Elkton and the Chesapeake boys. Although the score shows rather a one sided game the playing was pretty good on both sides; the Chesapeake boys rather out batting their opponents. Score stood 12 to 47 in favor of Chesapeake.

Both the High and Public Schools were taken out by their teachers into the woods nutting, on Tuesday last; the children and teachers all enjoyed themselves highly. It was a recreation and an encouragement to the children.

A rain commenced here on Sunday night and continued all day Monday and evening. There are no reports of any damage being done.

Flour 9 per bbl.; potatoes 50, 60 and 75 cents per bush.; new corn 60 cents per bush.; butter 35 cents; eggs 25 cents per doz.; oysters 80 cents per bush. and $1.20 per gallon.

North East Items.

Steamboat—Building Association—Painting—Swarming—Markets.

The probabilities are that a boat will commence running next week, between here and Baltimore, and will continue if it pays; it, therefore, becomes the merchants and farmers to patronize it if they want cheap and direct freights to and from Baltimore.

The Building Association sold on the 22d inst., $1,100 at 1 per cent premium.

John B. Graham, of Charlestown, is giving his house a thorough painting and putting on new shutters.

The candidates are swarming. Six in North East in one day of different persuasions. All desirous of serving their constituents. The Republicans gaining every day and the opposition despairing.

Flour $9 per bbl.; corn 70 cents per bu.; oats 45 cents per bu.; white potatoes 40@50 cents per bu.; butter 30 cents per lb.; eggs 22 cents per dozen; beef, best, 16 cents per lb.; pork 12½ cents per lb.

AT HOME.

During the past Summer in this county the sewing machine business has so rapidly increased that I have for our Fall and Winter trade renewed our stock so as to be able to supply any customers with any thing in this line that may be desired, at city prices. I represent the GENUINE ELIAS HOWE MACHINE, which is believed to be superior to any other machine in the market, with all the latest improvements of 1872. In addition to this, I have the Bogus Howe, $40; Grover & Baker, $35, and other makes at prices as low as $2.50. You are not compelled to buy the Genuine Elias Howe Machine if you prefer any other. Every machine that is recommended will be warranted. Call at the office, *Whig Building*, North street, Elkton, and examine for yourselves. [18—3w]

"THE DOCTOR."

This gentleman who undertook to set up an infirmary sometime ago where political obtuseness could be healed, seems to be getting tired of his title. Most probably he has learned that his attempts to doctor Republican eyes until they could see backward has been a failure, so now in disgust he wants to quit being a Doctor and become a politician. He might try being a mathematician instead, but figures are as stubborn things to deal with as eyes that have been trained to see the hopeless hypocrisy and corruption of his party. The whole thing is about this: men who dread ridicule or who are not able to parry its sharpest thrusts, should not subject themselves to it.

In an age of activity, progress, improvement, and equal rights, there is no friend of human progress who does not regret that such men should wed themselves to the dead issues—the idols of the past. Yet many of them are not as hopelessly reactionist as they seem—their hearts are after all better than their heads. After all Galileo was right, "The world does move" and our conservatives must move with it. We do not believe that the Editor of *The Democrat* would to-day vote if he had the chance to re-establish slavery, or make it criminal to teach a negro child to read, the day for this has gone by.

The second count in his indictment seems to be the bad laws passed by Republican Congresses. To listen to some Democrats one would suppose that the constitution was in their especial keeping, that the only mission of the Republicans was to break it daily. If half the charges made were true we should think our constitution was getting quite well battered by this time, but it seems an equal for the old legend of Prometheus. This old fashioned gentleman is said to have had his vitals renewed as often as the vultures devoured them, so our constitution seems to come out of all its breakings as good as new. There is now little room for doubt that the Republicans control a majority of American voters and a still larger majority of American wealth and reason would suggest that they have at least equal interest in the laws with the Democrats.

Perhaps the worst breaking the constitution has had yet was when eleven States rebelled against its provision and fought for four years to destroy it, but in *The Democrat's* eyes this was a small offence compared with the fact that Congress passed a bill to enforce the 15th Amendment. Then the bill to prevent fraudulent elections they don't like because it shuts off one of the chief avenues to Democratic victories. The difficulty in Louisiana was that the "Bayonet Law" was not enforced, or the American public might have some idea who was elected Governor. With ballot boxes stuffed and returns manipulated by Democratic officials, no one can say who was elected. The only thing in which the general government was to blame was in not holding a new election that could have been some test of the will of the people.

The Democrat is anxious to get back to old issues. Let us look at a few of its party measures. It once passed a bill, called "The Fugitive Slave Law." Under it an officer of the United States could be sent into Fanueil Hall; but when it is proposed to send a man to New York, or New Orleans to see that through fraudulent votes unfit men are not sent to Congress, it becomes a terrible offence in the eyes of ballot box stuffers and their sympathizers. Our terrible Congress! The American people have not forgotten its old-fashioned rascality. Salary grabs are nothing new; but in this case the bill would have failed but for Democratic votes. We can give no reason for the salary steal unless it was that there were more Democrats in that body than usual. When *The Democrat* talks about no "Credit Mobilier" dishonesty in Cecil, we will call its attention to the list it publishes as defaulters to the State; there he will find $1,921.34 charged as due the State from Cecil officials, most of them Democrats. It is true this is small compared with some of the counties, but had best be paid up before talking about the purity of county officials.

The simple fact is that the record of the Democratic party is bad and the American public is unwilling to trust it. It ruined the South by plunging it into war and leaving it absolutely bankrupt. In Maryland it has doubled expenses in every county. It has distinguished itself as the enemy of all progress and as the friend of the most shameless corruption. It has depended alone for success on the strength of popular prejudice and ignorance, and as the foe alike of justice and humanity it is doomed. Its reign in Cecil is evidently over and there is some room to hope that Maryland is ready to cast off this "Old Man of the Sea" that is paralyzing its best interests, and take its place among the progressive, Republican States of the Union.

Bridge Over Big Elk.

MR. EDITOR:—I see by *The Democrat* that that vexed question of the Big Elk Bridge, is settled by letting out the stone work. Leaving the tax-payers to settle it with the Commissioners whether it is right to pass by the lowest bid and accept a higher one, and whether the late Fall is the proper season to let out an important contract for mason work, which cannot possibly be finished before mid-Winter, I proceede to inquire if persons who have to travel on foot have any rights that public officers are bound to respect?

The class whose rights I am defending, will not be benefited by the work in question. What they demand is some means to cross the stream without being obliged to wade, or swim, or go miles round to a bridge. The conviction strangly impressed is that none but equestrians are regarded as having any rights in this District.

We have one right, the right of suffrage left, and we will use this right in such a way as will change the administration of our county affairs so as to cost the taxpayers less money, and to insure to the poor such rights as belong to human nature.

Failing in this we intend, at the next term of Court to see if the Grand Jury think it right to leave a public road across a dangerous stream unprovided with a crossing for foot travelers for an indefinite period.
PEDESTRIAN.

For want of room we were compelled, much against our wishes to curtail considerably the above article; but in connection with it we are informed that Mr. Willis, who bid for the bridge entire, states that he counted the abutments at $1,500 and at that all the profits of the job were in the stone work; yet the work is let at $1,875, a loss of $375, and as all the profits were in the masonry of course Willis would want perhaps $500 more for the wood work so that the bridge will cost near $1,000 more than his bid.

Communicated.

That One Per Cent.

The Democrat has a high opinion of one of the former Republican County Commissioners—Samuel J. England—and he merits all that is implied in *The Democrat's* remarks in its issue of the 4th instant.

Now, I put it to *The Democrat* to say, whether it honestly believes that Samuel J. England, as a Commissioner, would "give the preference to a member of his party, over a leader of the" Democratic "party, and reject the *underbid* of that leader," considering that he "had a perfect right so to do," when he could save to the County the snug little sum of $1,000, by accepting the "underbid" of the democratic leader.

Just this is what *The Democrat* said its party did in the case of the commission paid for supervising the work on the new jail, and *The Democrat* approves the policy—says the Democratic Commissioners "had a perfect right to do" it.

If *The Democrat* has any doubt about what Mr. England would do in such a case, then I will ask it whether Jethro J. McCullough, Davidson D. Pearce, Lewis T. Roberts, or Thomas Kennard would have so far prostituted their official positions when County Commissioners as to do this thing, which it seems it is perfectly right for a Democratic Commissioner to do, and for doing which the organ of the party will extol him.

Truly there *is* something "rotten in Denmark" when *The Democrat*, with its present management, can have the hardihood to make the declaration referred to.
TAX PAYER.

WHY WE HONOR THE PARTY.—We are suspicious of the man who is continually boasting of his noble ancestry. To know a man, we must know what he is, not what his father was. Noble descent is well enough in its place, but when a man has nothing better to boast of than his pedigree, he has reached the bottom, and is little better than the snail that looks up with envy at the strong-winged eagle in its lofty flight. It is nobler to ascend than descend; to improve on the family stock rather than deteriorate. To fall back upon the reputation of our great-great-grandfather to sustain our own, is little better than robbing a grave to secure the jewels buried in it. So with parties; we honor them for what they are, not what they were in days gone by. We see nothing in Democracy but the shadow of a great name. When we ask what it has to commend it to our confidence, its Tweeds and Garveys and Warmoths, with their party plunder concealed from view, point us to its honorable past, before slavery corrupted its honor, or treason destroyed its political virtue.

NEW ADVERTISEMENTS.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant Sudorific, Alterative and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelminitics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

DR. TUTT'S VEGETABLE LIVER PILLS.

THE ONLY KNOWN MEDICINE

THAT AT THE SAME TIME

Purges, Purifies and Strengthens the System.

Dr. Tutt's Pills are composed of many ingredients. Prominent among them are Sarsaparilla and Wild Cherry, so united as to act together; the one, through its admixture with other substances, purifying and purging; while the other is strengthening the system. Thus these Pills are at the same time a tonic and a cathartic, and desideratum long sought for by medical men, but never before discovered. In other words, they do the work of two medicines and do it much better than any two we know of, for they remove nothing from the system but impurities, so that while they purge they also strengthen, and hence they cause no debility and are followed by no reaction.

Dr. Tutt's Pills have a wonderful influence on the blood. They not only purify without weakening it, but they remove all noxious particles from the chyle before it is converted into fluid, and thus makes impure blood an impossibility. As there is no debilitation, so there is no nausea or sickness attending the operation of this most excellent medicine, which never strains or tortures the digestive organs, but causes them to work in a perfectly natural manner; hence persons taking them do not become pale and emaciated, but on the contrary, while all impurities are being removed, the combined action of the Sarsaparilla and Wild Cherry purifies and invigorates the body, and a robust state of health is the result of their united action. Price, 25 cents a box. Sold by all druggists. Depot 48 Cortlandt Street, New York.

PROPOSALS FOR MAIL LOCKS AND KEYS.

POST OFFICE DEPARTMENT,
WASHINGTON, D. C., Sept. 17, 1873.

SEPARATE SEALED PROPOSALS will be received at this Department until 12 o'clock noon, the FIFTEENTH DAY OF DECEMBER, 1873, for furnishing, under separate contracts, two different kinds of Padlocks and Keys; one for the sole and exclusive use of *registered through mails*, and the other for the sole and exclusive use of *street letter boxes*.

Every proposal must be accompanied with duplicate samples of the locks and keys thereby offered to be furnished; one of each kind of sample lock to be riveted up and finished, and another to be open or unriveted, so that its internal structure and arrangements may readily be examined. Each sample should be plainly marked with the bidder's name, and if the same, or any part thereof, be covered by a patent, the name of the patentee must be attached thereto. It must also be such as shall be warranted to not infringe on any patented invention of which the bidder is not the patentee or assignee.

The internal plan or arrangement of the locks offered, and the particular form of the keys requisite to open them, must not be like any now or hitherto in public or private use, and must not have been exhibited, described or exposed, in any manner tending to impair their security and usefulness for the mails; and it will be an important consideration in favor of any lock and key submitted if, being otherwise suitable, it shall have been invented specially for the purpose for which it is offered.

Locks suitable for the registered mails, or for the street letter boxes, should not exceed eight ounces each in weight, and should possess a high degree of security, strength and durability. Every such lock, while it must be secure from being opened by any other means than by its peculiar key, (unless designedly broken by extreme and obvious violence,) must be devoid of any intricacy in opening with the proper key, and be capable of being securely shut without the use of the key. The shape or size of the locks for *registered mails* should be such as to make them distinguishable at a glance from the locks of the *street letter-boxes*, and both should, by their external shape, be instantly distinguishable from the mail locks now in use.

The Registered Mail Locks should be made of hard and tough brass, excepting the shackle and rivets, which must be iron, the latter well shouldered, countersunk, and headed at both ends. The shell or case of such locks must not have sharp angles, and must be free from knobs, escutcheons, or other appendages likely to be compressed, battered, or knacked out of order by the peculiarly hard usage of the service. Each lock is to have outside upon its face, in letters sufficiently large and distinct, "*U. S. Registered Mail,*" and also such number, (in figures, each, not less than 5-16 of an inch long,) as may be ordered; a different number, not exceeding four places of figures in any case, being required on each lock. Such words and figures are to be sunk by stamping, if the shell be made of wrought or sheet brass, or to be raised if the shell be made of cast metal. All the locks for registered mails are to be uniformly alike, excepting the numbers marked on them, and all their keys, which should be case-hardened iron and nickle-plated, are to be also alike, so that any one of all the keys which may be furnished for them shall easily fit and readily open any one and all of the locks. The keys should have a shank nearly two inches long between the bit and the bow, and the bow should be solid, with a hole through it, and have stamped on one side the words, "*U. S. Registered Mail,*" and upon the opposite side such number (in figures not less than one-eighth of an inch long) as may be ordered; every key to have a different number, of which none will exceed four places of figures.

The locks for the Street Letter Boxes are to be made of hard and tough brass; and the key-hole of each lock should be in the lowest part of the wall of the shell or case, when the lock is hanging by its shackle, and should be sheltered by a sufficient jutting out of the upper and lower rim around that part of the wall. The interior mechanism of the lock should be in a position somewhat remote from the key-hole, and be operated easily by its key, which should be flat, made of steel, and be of convenient length and sufficient strength and stiffness.—The bow of the key should be solid, with a small hole through it, and is to have "*U. S. Letter Carrier*" stamped on one side, and such figures and letters stamped on the opposite side as may be ordered. The face of each lock is to have upon it "*U. S. Street Letter Box*" in either raised or sunk letters, and any other letters besides, not exceeding three, that may be ordered. All the locks and keys of the same letter or letters are to be adapted to each other, and no lock is to be opened by any key not marked with the same letter or letters.

The locks of each kind contracted for must be delivered according to order, at the Post Office Department, at the risk and expense of the contractor, put up in pasteboard boxes of five locks each, and packed in strong wooden boxes containing not more than two hundred locks each. The keys to such locks are to be strung, by the natural series of numbers, on wire rods, each containing one hundred keys, and are to be delivered to an agent of the Department specially authorized to receive them and convey the same from the manufactory to this Department, where both the locks and keys are to be inspected and approved as conformable to the adopted sample before they shall be paid for.

From the sample locks and keys submitted under this advertisement, the Postmaster General will make a selection for contract, unless he should deem it proper for the interests of the service, to decline accepting any of the proposals and samples presented. Therefore the right to reject any and all the proposals and samples is hereby reserved to him.

A decision on the several proposals and various samples submitted will be made on or before the second day of February, 1874, and within thirty days thereafter the bidder or bidders whose proposals may have been accepted must enter into contract with bond and security as hereinafter specified.

The contracts which may be made will be for the term of four years from and after the first day of January, 1874.

The contractor for Registered Mail Locks and Keys will be required by contract to furnish said locks and keys in such quantities, and at such times, as may be ordered by the Postmaster General, and must agree, and be able, to furnish three thousand of such locks and six hundred of such keys, if so ordered, within three months after the receipt of such order, and to furnish thereafter any further quantities of such locks and keys as the same may be ordered. On entering into the contract the contractor must execute a bond in the penalty of ten thousand dollars, with two sufficient sureties, (certified by the postmaster where they reside,) conditioned for the full and faithful performance of such contract.

The contractor for locks and keys for Street Letter-Boxes will be required to furnish such locks and keys in such quantities, and at such times, as may be ordered by the Postmaster General, and must agree, and be able, to furnish twelve thousand of such locks and six thousand of such keys, if so ordered, within six months after the receipt of such order, and to furnish thereafter any further quantities of such locks and keys as the same may be ordered. On entering into this contract the contractor must execute a bond in the penalty of twenty thousand dollars, with two sufficient sureties, (certified by the postmaster of the place where they reside,) conditioned for the full and faithful performance of such contract.

Both contracts will contain a provision binding the contractor to guard, with due privacy, integrity and care, the manufacture and custody of the locks and keys, in the finished and unfinished state. They will also contain the provision that in case of any default on the part of the contractor, causing the Postmaster General to annul the contract, all locks and keys, finished or unfinished, and all such patterns, drawings, gauges and dies, in possession of the contractor, as may enable others to make or successfully forge or counterfeit such locks and keys, shall, on such annulment of the contract, become the property of the United States, for the use of the Post Office Department; and, thereupon, the Postmaster General shall have the right, besides a resort to the remedy of the bond, to demand and receive the same from the contractor, who shall promptly surrender the same, on the order, in writing, of the Postmaster General, without compensation, or any claim to compensation whatever, for the same; also, that the Postmaster General shall, in that case, have the full and absolute right to employ any other person or persons to make and furnish similar locks and keys, without any charge or claim whatever for the use, thereby involved, of any patent of the defaulting contractor.

Every proposal must specify, unconditionally, the price of each lock and Key offered to be furnished, and must be accompanied with a bond in the penalty of two thousand dollars, executed by the bidder and two sufficient sureties, (certified by the postmaster of the place where they reside,) conditioned for the bidder's entering into contract, with bond and security, as hereinbefore specified, in case his proposal shall be accepted by the Postmaster General.

Blank forms of proposals and accompanying bond and certificate will be furnished on application to the Second Assistant Postmaster General, and all bidders are requested to conform thereto in submitting proposals under this advertisement.

Every proposal should be enclosed in a sealed envelope, indorsed "PROPOSALS FOR MAIL LOCKS AND KEYS," and be addressed to the SECOND ASSISTANT POSTMASTER GENERAL, Washington, D. C. *If sent by mail, the postage must be duly pre-paid.*
