""Sunshine and Shadow' will be regarded as one of the best and most successful of Mrs. Newbs's works. It will remind the reader of the clever novels of society by Miss Jane Austin and Miss Ferman both so highly praised by Sir Walter a fight, in which one of them named Mishael Smith, was killed, and another mortally society by Miss Jane Austin and Miss Ferrier, both so highly praised by Sir Walter Scott; and of the more recent productions of Mrs. Grey and Miss Ellen Pickering. In this new story, an English baronet, with his four children, occupy the foreground. The evil spirit is a Lady Lora Vivian, a young and beautiful widow, who, while deeply attached to one man, promises to marry his clder brother, for the sake of his title and wealth. This leads to misunder. title and wealth. This leads to misundertitle and wealth. This leads to misunder-standing and misfortune—one brother pro-ceeding to Australia, where he founds a settlement, and builds a scaport, the other devoting himself to public life, with a fair prospect, at the close of the narrave, of having his heart-aches relieved by matri-mony. There is a good deal of courting in this tale—the wooing of Louisa Elton, the proper heroine, is decidedly original. There are four marriages, and a fifth on the proper heroine, is decidedly original. There are four marriages, and a fifth on the cards! The characters are well drawn and ably individualized. A Brilliant Record of Cures.

An American humorist tells us that it would have been money in his pocket if he had been born without a stomach, and then proceeds to figure up the cost of a chronic dyspepsia, to which he is a martyr, and which he says it is impossible to cure. On this point, "Josh Billings," (for he is the party referred to) is mistaken. Unless his stonach differs from all other dyspeptic stomachs, Hostetter's Bitters will cure him in less than three months. This it would be safe to guarantee under indigestion it never fails. Persons who had suffered for many years almost every conceivable species of torture from this agonizing complaint, have been permanently cured with the Bitters in six weeks. Hundreds of such instances are on record, authenticated by the teatimony of prominent men in every walk of life, eminent physicians among the number. But this celebrated vegetable preparation is something more than a stomachic and tonic. It is also an Attrative of wonderful virtue. In tonic. It is also an afterative of wonderful virtue.
