FRIDAY MORNING, Dec. 21, 1907.

Let the keynote of our Christmas be love—"peace on earth, good will to men." Let those whom God hath blessed with plenty be to us that their neighbors and friends have good cheer and abundance to make their hearts glad.

A young woman in Chicago, Illinois, has resigned her position as teacher in the public schools for the purpose of going as a missionary to Africa. Why should she go so far when Chicago is so near, where there are more heathens to the square yard than there are in Africa to the twelve square miles? Strange ideas of missionary work these school nurses have.

Let us rally around the standard of youth, remembering that the future of our country shall be what we young people make it. Let us show our fathers and mothers that the boys and girls of today shall be ready to stand forth fully equipped men and women of tomorrow. Let us show them the rising generation which is following in their footsteps is fully competent to succeed them and shoulder the responsibility of the farm, the home and the nation.

Sears, Roebuck & Co., of Chicago, have been indicted in the Federal courts for using the mails for fraudulent advertisements, and thereby defrauding the public. This concern, it is said, does the largest business of any mail order house in this country, the sales of which are still increasing. The indictment of this company was returned to the grand jury before the trial date, and before the trial date, the indictment was returned to the grand jury.

brought out at the investigation, the majority of them must have been defrauded.

It is much better to buy of the home merchant, who has honesty, responsibility and reputation back of his representation, than to buy of those you know not.

CRITICISM ON "THE OBSERVER."

The editor of the **OBSE** RVER recently had occasion to write J. Knob Hall, Thiburon, Fla., a special newspaper correspondent, who claims to write for more papers than any other man living, and who consequently receives more papers than any one else, had, therefore, should be a good judge of a newspaper. As Mr. Hall has been receiving the **OBSE** RVER for several months, we asked him for a criticism on it, as compared with other weekly papers throughout this country, and on Monday last received the following reply, which needs no comment from us:

"You ask for a criticism on the **OBSE** RVER and we take it for granted you want it to be honest, so we will. "How to the line, we do not fall where they may."

In the first place, you are giving your readers a two dollar paper for just one half that price. You can never expect to wear diamonds while you continue this practice. We receive hundreds of \$1. paper each week that will not compare with the **OBSE** RVER in any respect. We mail you a sample copy to prove our words true.

This article you use in producing your paper has more than doubled in price during the past three years. What would you think of a farmer, who, when pork doubled in price, would keep on selling his hogs at the same old price? That is just what you are doing. Your paper is a credit to Centreville. It is newsy, clean, and people at a distance, who judge a town by its paper, would imagine Centreville was a young Battleground. To be honest, we can find nothing in the **OBSE** RVER to criticize, not even its politics, except the subscription price, which is just half what it should be. If your price will permit you to have a turkey for Christmas we hope it may be tender and fat and that the New Year may come to you freighted with prosperity. Hoping you will accept our criticism in the kindly spirit in which it is given, we are,
