Won Every Event In Their Glass on Atlanta Speedinay

During a week a racing on the new two-mile Atlanta Motor Track the Chairners-Detroit "30's", driver by Matson and Knipper, were never defeated

Think of going out day after day the same two stock cars and winning every race offered, from four miles to one hundred miles. Here is another remarkable fact: In every race in which both "30's" were entered they wen second place as well as first. Both "30's defeated every other car of their class. They were always together, neck and neck, at the finish. Neither of them were out of commission at any time. During the whole distance covered in all these races the "30's" averaged 60 miles an hour, a mile a minute for every moment they were running on the track.

There are no other cars in the world at any price with such records for consistency. Members of the technical committee of the A. A. and editors of the Automobile Trade Journals, who keep careful records of automobile contests of America and Europe, are authority for the statement that the CHAL-MERS-DETROIT "30" holds the world's record for consistent performance.

The Chaimers-Detroit "30" Sells for \$1500

and it is thoroughly proved to be the best car in the world at the price.

We are also Agents for the Hudson and ford Antomobiles.
