FRIDAY MORNING, DEC. 20, 1907.

Let the keynote of our Christmas be love—"peace on earth, good will to men." Let those whom God hath blessed with plenty see to it that their neighbors and friends have good cheer and abundance to make their hearts glad.

A young woman in Ottawa City, Illinois, has resigned her position as teacher in the public schools for the purpose of going as a missionary to Africa. Why should she go so far when Chicago is so near, where there are more heathens to the square yard than there are in Africa to the twelve square miles? Strange ideas of missionary work these school marmes have.

Let us rally around the standard of youth, remembering that the future of our country shall be what we young people make it. Let us show our fathers and mothers that the boys and girls of today shall be ready to stand forth fully equipped men and women of tomorrow. Let us show them the rising generation which is following in their footsteps is fully competent to succeed them and shoulder the responsibility of the farm, the home and the nation.

News, Roebuck & Co., of Chicago, have been indicted in the Federal courts for using the mails for fraudulent advertisements, and thereby defrauding the public. This concern, it is said, does the largest business of any retail house in this country. Some of the goods which are mailed to the homes of this country are of such quality that they are

CHRISTMAS GREETINGS. This is the season of good cheer. The season of the holly and the mistletoe—the time for bright faces and generous impulses—for gladness of greetings—a time for noble sentiments to be born—a time for old acquaintances to die—a time when the benevolent side of one's nature should outgrow the selfish side—a time when the thoughts should be turned toward home—a time when the carrying chains of business should be ignored. A time when the child with golden curls and the man with silvered locks, alike, cry "Glory to God in the highest, peace on earth, good will to men." These words have been chanted by all Christian nations since the infant Jesus slept in the rude manger in Bethlehem. The organs in the grand cathedral have pealed forth these words and the hearts of the worshippers have been filled with adoration; those treading flowerless paths of poverty echo the praise. The poor mother in the hovel, as she bends over the smouldering embers upon the desolate hearth, and wraps over the empty stockings of her neglected children— even she hears the strains in the distance, and her plaintive voice, so full of want, joins in the chorus, "Glory to God in the highest." Perhaps this mother is thinking of the Christmas days in her girlhood, when piety crowned the board, and these memories may be feeding her hungry heart. Theologians may cavil over the date and origin of this day, but we will hold fast to our Christmas.

CONTEMPLATED PUBLIC IMPROVEMENTS. In response to the demands of every Grand Jury for the past five or more years, as well as a well defined sentiment throughout the county, Senator-elect J. Frank Harper has under consideration the drafting of a bill to be submitted to the next session of the Legislature to bond the county for a sufficient sum of money to erect a suitable and substantial jail and jail residence. The present structure is a dilapidated

—Mr. and Mrs. Wm. C. Cook have issued cards to the marriage of their daughter, Miss Mary Frances, to Mr. John W. Peoria. The wedding will be solemnized at University St. Church, Hayden, at 1.30 P. M. on Wednesday, December 26, 1907.

—Miss Lella Sparks, only daughter of Mr. and Mrs. J. F. Sparks, of Medicineville, and Mr. John Sparks, Jr., were quietly married by Rev. W. L. White at the parsonage in Chestertown on Wednesday of last week. Mr. and Mrs. Sparks will reside near Medicineville, where the groom is engaged in farming.

—Mr. Norman B. Taylor, a prominent farmer and large land owner of the Sixth Election district, made a deed of trust to J. H. U. Legg, Esq., last Monday. A large estate is involved, and the stringency in the money market is said to be the cause of the assignment. This will place on the market some of the finest land in the county.

—The promoters of the Centreville Light, Heat and Power Company claim that when all the work has been completed on the plant and wiring, Centreville will possess the finest lighting system on the Eastern Shore. Many have decided not to make use of the electric lights on account of their dying out at times, but the reason for this defect is that a sufficient number of electric transformers are not in use, and although the necessary number has long since been ordered and shipped from the West they have not as yet arrived. They furthermore state that when these transformers are placed in the proper places, as they will be immediately upon arrival, it will be practically impossible for the lights to go out, with two boilers, two dynamos and two engines, always in readiness, so that if one dies out the other is ready to take its place.

—Two student electric lights in front of each show window have been placed on the clothing store of Mr. J. B. Morris. These brilliant lights greatly enhance the appearance of the windows, and show up the goods inside to the best possible advantage.

—Wm. O'Donnell, who was placed in Centreville jail by Undersheriff Dana, of Church Hill, several days ago, charged with stealing a drum out of camp from Mr. Wm. Townsend, at Townsend, Delaware, was taken to Wilmington last Saturday afternoon by Detective Harry I. Gilien, of the Wilmington Detective Bureau. O'Donnell was arrested at Millington, but was placed in Centreville jail to await the action of the Delaware authorities, who will investigate the charge.

brought out at the investigation majority of them must have been defrauded. It is much better to buy of the home merchant, who has honesty, responsibility and reputation back of his representation, than to fly to them you know not.

CRITICISM ON "THE OBSERVER." The editor of the OBSERVER recently had occasion to write J. Knox Hall, Toulon, Ill., a special newspaper correspondent, who claims to write for more papers than any other man living, and, consequently, receives more papers than any one else, and, therefore, should be a good judge of a newspaper. As Mr. Hall has been reading the OBSERVER for several months, we asked him for a criticism on it, as compared with other weekly papers throughout this country, and on Monday last received the following reply, which needs no comment from us.

"You ask for a criticism on the OBSERVER and we take it for granted you want it to be honest, so we will 'How to the line, let the ships fall where they may.' In the first place, you are giving your readers a two dollar paper for just one half that price. You can never expect to wear diamonds while you continue this practice. We receive hundreds of 82 papers each week that will not compare with the OBSERVER in any respect. We mail you a sample copy to prove our words true. Every article you use in producing your paper has more than doubled in price during the past three years. What would you think of a farmer, who, when pork doubled in price, would keep on selling his hogs at the same old price? That is just what you are doing. Your paper is a credit to Centreville. It is newsy, clean, and people at a distance, who judge a town by its paper, would imagine Centreville was a young Baltimore. To be honest, we can find nothing in the OBSERVER to criticize, not even its politics, except the subscription price, which is just half what it should be. If your price will permit you to have a tariff for Christmas, we hope it may be tender and fat and that the New Year may come to you freighted with prosperity. Hoping you will accept our criticism in the kindly spirit in which it is given, we are,

the time has arrived when a common consent, action must be taken to replace the present jail and residence with one in keeping with the demands of our county. We reproduce the report of the Grand Jury for the May term of Court 1907, which report is but an endorsement of the reports of every preceding Grand Jury for years: "We have visited the jail and examined the same, also the outlying property belonging thereto. We found the premises in a neat and cleanly condition, but the interior of the jail, that portion in which the prisoners are confined, is in a most unsanitary and unhealthy condition. In the room in which is located the bath room and toilet, we found the floor covered with water and in some portions to the extent of one inch in depth; due, it is said by the Sheriff, to a leak in the inflow pipes. Several attempts have been made to remedy this leakage, but without success. Such a condition should not longer exist, and a remedy should be found therefor. In several of the cells the plastering is in a very delapidated condition, and, in our judgment, the outer brick walls are in such a condition as to make escape most easy. A careful and general inspection of the entire building leads us to but one conclusion, and that is that repairing of the present building is impracticable. We, therefore, urgently recommend and advise that during the next session of the Legislature such measures shall be enacted as will enable the county to build a new jail, either upon the present site or on such a site as shall be selected."

It is estimated that fifteen thousand dollars would be sufficient to make this improvement, which could be liquidated at the rate of \$1,000 a year, so that it would not be burdensome to the taxpayers, as at this rate the interest and all would not amount to more than two cents on the \$100 each year. While Mr. Harper is not considering any further public improvement, in connection with the proposed bill, yet it is also being strongly urged that this bill be made to provide for the remodeling of the present Court House, as it is believed that by the expenditure of something like \$10,000 it would be made to meet all requirements. With the removal of the old Town Hall, ample room will be given back of the Court House for any contemplated improvements at a small
