Like the regular Ford cars the Ford Model T One-Ton. Truck is a real farm necessity, just as it is the necessity of manufacturer, contractor and merchant. There is no question about it proving money-saver right from the start. It is flexible, turning in a 46-foot circle; has 124-inch wheel-base, the regular Ford motor with worm drive-and has proven as economical in operation and maintenance as the Ford Touring Car. The price of the truck chassis is \$600 f. o. b. Detroit. We urge placing orders without delay in order to get reasonably fair delivery. The demand is big-come in and let us talk it over.
