The land is in excellent ple when the head is affected, or to the cultivation, undergood fencing and judicious-wrist when the pain is in the arm or ly divided into fields and lots for farming and shoulder.

> New Post Office. - A new Post Office has been located at Araby, on the Baltimore & Ohio Railroad, between Ijamsville and Lime Kiln Station, and W. T. Mullinix, has been appointed Postmaster.
>
> Office has been located at Araby, on the there are all manner of Outbuildings for servents, Stock and Poultry, &c.; a Dairy and Ice House (filled). The Apple Orchard is of exceptionally good trult. A pump of excellent water at the door and springs and runder water at the door and springs are runder water at the door and springs and runder water at the door and springs are runder water at the door and spri Office has been located at Araby, on the

Coal. - The Cumberland Neios announces an entire suspension of coal mining in Western Maryland. Not a single mine is working between Cumberland and Piedmont, and not a pound of coal is being shipped from the whole region.

Dr. Bull's Cough Syrup-All those who have given it a trial will not be without it. It cures. Dr. Bull's Cough

(COMMUNICATED).

Lecture at Agricultural College.

The fifth lecture upon Agriculture was track, the one on which he met his death. delivered before the faculty and students purchaser with approved sureties. The unfortunate man is said to have been of the Maryland Agricultural College on under the influence of liquor at the time Friday evening last by Prof. J. D. Warold, and was the owner of a small farm in form of treating the subject under the approved sureties. Carroll County. It is said that the four heads of nature's elements; the earth, watchman of the bridge a few yards east | air, fire and water. Having developed of the tunnel knew of the accident, but the subject of lime, he touched upon the from fear would not enter the tunnel, and remaining elements of mineral plant left the body remain there until Thursday food. There are three classes of vegetamorning, when it was found litterally cut ble production, requiring three distinct leading essentials. Lime is first in grasses; Phosphoric Acid in grains and Potash in roots. Combine the three and we get a fertilizer which supplies about these leading crops. There is no fertilizer which unites these essentials in betmeet the demand. Sulphuric Acid comes to the farmer's aid in preparing crude placing a Mortgage of \$5,000 upon the road for bone for immediate use. As our true its extension to Clarksville and the improvepolicy is to manure for the present and let the future take care of itself, Sulphuric Acid comes, as by Divine mission, to smite the rock that the waters may gush forth. South America holds nature's gifts in

reserve for her northern sister. Hardly has the excitement of the discovery of Chincha island guano died away before vast beds of Nitrate of Soda are thrown upon the market. The lecturer then spoke briefly of Magnesia, Oxide of Iron, Manganese, &c, claiming that nature would take care of these. He then pointed out the close relation of the vegetable, mineral and animal productions. The vegetable creation depended upon the mineral; the animal upon both the vegetable and mineral. Nature loans to every ton of clover 200 lbs. of mineral late of Howard County, deceased. All perfood; the clover loans it again to our the demand or our credit must go to pro- they may otherwise by law be excluded from tests. Surely, we cannot expect in other all benefit of the said estate. lines of business to make 2,000 lbs. by the expenditure of only 200 lbs. or niue times the value of our outlay.

Fruit Trees. - It is a good practice This beautiful relation shows that to wash the trunk and main branches of working in nature is never lost; that the fruit trees with line wash. It the white elements are undergoing ceaseless changes put in to neutralize the glare. The wash the creation. The earth then, if kept as

Bismuth Snutt. -Dr. Ferrier, in face and upon the surface but upon ed. But as bismuth by itself is rather ing in houses built from the bones of the heavy and not easily inhaled, and it be- | dead; and further yet, that these bodies ing also necessary that it should form a of ours, which we hold in high estima-

The study of Agriculture requires the Geology, we stand appalled as if in the presence of a creator. Down in the depths of the northern earth, not only is Woodstock Items. - Mr. Johnson | the farmer seeking for truth but he finds God. Upon these pictured rocks are tracings of a Divine hand--a writing Messrs. Gill & MacMahon are shipping apon the wall which makes atheists
