-A Western journal says that one of their local judges recently had a lesson in pelling. The incident affords a "Spelling Ree" suggestion. The witness before the court was Mr. Wood. "What is your name?" asked the clerk. "Ottiwell Wood," answered the witness. "How do you spell your name?" then asked the comewhat puzzled judge. Mr. Wood replied, "O double T, I double U, E double L. double U. double O D." The astonished judge thought it the most extraordinary name he had ever met with, and after two or three attempts to record it, gave it up, amid roars of laughter.

Progress is reported at the Greenwich Observatory in reducing the observations made on the last transit of Venus. Two of the most recent calculations required the use of 3,000,000 figures. The French atempts at obtaining new figures for the sun's distance by the study of the photographs taken during the transit have been reported as turning out badly It is even doubted whether the photographs can be used at all for this calculation. Better results are hoped for at Washington from the photographs taken by the American expeditions; but the PIPE FITTING FOR STEAM OR WATER work proceeds very slowly, because the appropriations by Congress were much smaller than had been expected.

An estimate has lately been made of and Geiser the number of camels in the world. Algeria has 180,960; Tunis, 50,000, of which 30,000 belong to the Bey; Egypt kept on hand, which we sell at manufacturer's and Arabia are believed to have nearly prices. 200,000; Spain is credited with about U.000, most of them being in the Canary and Machine Castings made to order. Plows 1-lands. The central portion of Asiatic and Plow Castings always on hand.
April 25, '74-tf. Russia has 350,000; in the Punjaub, India, there are 165,000, 6,000 are emplayed in the caravans between Bokhara and Russia; China and Mongolia have more than 270,000; and Persia and Turkey nearly 200,000. The latter, in common with Egypt, uses camels and dromedaries largely for military purposes.

The Secretary of the Treasury has declined the application of Messrs. Anton Janker, Jos. Roeller and J. P. Kissinger, proprietors of the Union Distillery Company of the First district of Illinois, for release upon condition of the payment of a nominal fine of \$100. The claim against them for fines, penalties, forfeiture and taxes amount to \$599,993.39. The Secretary says that the release of the proprieors after participating in a crime of such magnitude merely because they had confessed their guilt would be a dangerous

A man named Jean De Falaise was hanged in the sixteenth century for a cories of murders. To all questions he replied with a song, and on the scaffold and in the presence of 6,000 persons he asked and obtained permission to say a lew words. Then he begged the throng to join in the chorus of a popular ditty. There were four asses in a field nipping the tender grass," which consisted of imitations of braying. Then said Jean; "I die happy, because at my last moment I have heard six thousand asses braying at once, and I have no desire to live with such fellow-creatures."

There is wide difference between camblers' mines and stockholders' mines, between mines that are to be sold and mines that are to be worked. The gold mines of California, the mines that have made it famous, have given to the world \$1,147,000,000 of the precious metals. any of the four Stock Exchanges in San Prancisco, and they are not known on the street; they are real property, and must be kept beyond the reach of gam-

its. In testimony of merit I herewith sub-

mit the certificates of farmers known to you all. In this there is no humbug, as you can

meet them and learn for yourselves the truth. Respectfully, DAVID SPRECHER.

POPLAR SPRINGS, HOWARD Co., MD., March 6, 1877. Mr. David Sprecher-Dear Sir: In a full and fair trial with Buckeye, Champion, No. 6. Wheelerand World Reapers on our farm last harvest, it was the unanimous opinion of all present that the Buckeye was the best machine. Table Rake far excelled all others in delivering the grain. It delivers on the side out of the way a straight and compact sheaf as good as any hand rake; no waste in handling the sheaf after it is bound, which no other Self-Rake that we have ever seen would N. B. - Furniture made to order. Repairing do. After twenty years' experience with machines and through trial last harvest with the Buckeye in wheat, rye, oats and grass, from the manner in which it did its work, lightness of draft and managed so easily when in motion, we do not hesitate in recommending it to farmers as the best machine now in use.

Yours Respectfully, TRACEY & WHALEN. WEST FRIENDSHIP, HOWARD CO. January 25, 1877.
Mr. D. Speeder-Dear Sir: In answer to your inquiry as to the comparative merits of the Buckeye and Champion Reapers, I hesitate not to say that after a full and satisfactory trial of both, I pronounce the Buckeye the best machine I have ever handled; and that both as a Reaper and Mower, the Buckeye has, perhaps, no equal, and surely no superior. The Table Rake delivers the bundles perfectly straight or as near so as can be done, and it saves at least one binder and enables them to

do far better work.

better work.
Respectfully Yours,
G. W. LEISHEAR.

GLENELG, HOWARD Co., MD., July 10, 1876. Mr. D. Sprecher: It gives me the greatest pleasure to state that the Buckeye Reaper, with Table Rake Attachment, bought from you, far surpasses all that I had hoped for, both in reaping the grain and delivering the sheaf. Such is the excellence of the Rake that three binders can do as much as five after any other machine and do far better work. For simplicity of construction, lightness of draft, and evident durability, it cannot be ex-celled. In my opinion it is all that a ma-chine can be in excellence. I advise my

brother farmers to buy a Buckeye. Yours Truly, ENOCH SELBY.

Mr. D. Sprecher—Dear Sir: 1 bought a combined Champion Reaper for the harvest of 1875 and was pretty well pleased with it until I saw the Buckeye perform in its contest. with the Champion on the farm of Mr. David W. Burdette, in the harvest of 1876, and was so satisfied of its superiority over the Champ-ion that I traded with you for a combined Buckeye Table Rake Machine. I am still of THE Undersigned hereby respectfully inform the Public that they have opened a Tinstore on Main St., opposite Wosch's Restaurant, where they will keep constantly on hand all articles in their line of business, such as the side, with no tangle, and any binder can make a nice sheaf with no preparatory labor, which will not scatter the grain in gathering Fewer binders can do as much and better work. I also like it as a front cut. It is a light draft, durable, easily managed machine. Both a Reaper and Mower it pleases me. As a saver of grain and labor it must win the favor of the farmer.

Yours Truly,

RICHARD VANSANT,

Mt. Airy, Carroll County, Md. Mr. D. Spreeler-Dear Sir: 1 am much per night. pleased with the combined Table Rake Bucks eye Reaper and Mower bought from you. In my opinion it is the only machine that gives the farmer full value for his money. It saves money, because it causes no loss of time in the harvest field, and it cuts and gathers the grain clean, and the sheaves made from it do not scatter the grain in gathering and they are in nice condition for shocking and stacking. It saves labor, as three binders can do as much and better work after it than five can after any other machine. It is the strongest light draft machine made and is more at command of the driver by use of levers, both to suit all kinds of grain and to regulate the size of the sheaf than any other. It cats six feet and yet is easily worked by two horses. As a Mower it is all that a farmer needs. I like it also as a front cut, I would have no other. For safety, service, saving of grain and labor easy management of the machine, and comfort, both to man and beast, I heartily commend the Buckeye.

JOHN W RHINE. MOUNTAIN VIEW, HOWARD Co., Mr. D. Sprecher-Dear Sir: The combined Buckeye Reaper and Mower with Table Rake Attachment, bought from you, gives entire satisfaction. I believe it to be the best in use, both as a Reaper and Mower, and the Table

way without a particle of tangle underneath and saves at least two binders as well as ena-bles them to make nice sheaves and clean work. In some of the worst down and tangled wheat I have ever seen it went right tangled wheat I have ever seen it went light through cutting smoothly and delivering in good shape. It delivers in good order the tallest wheat, rye and oats, as well as the shortest, and also grain leaning from the machine. In every respect, as a harvester of grain or as a mower, I deem it perfection and would have no machine but a Buckeye. This I say after testing it fully. I believe it to be durable, and I know it to be of light draft, easy on the horses and so easily managed by use of levers (with nothing stashing around the head of the driver like the Champion Rake) that a boy can drive and at the same time lower or elevate the bar and guards to

therake at pleasure, making the sheaves of any size. Respectfully Yours, JAMES S. RIDGELY.

suit light or heavy or down wheat and stop

FEB. 12, 1877. Mr. D. Sprecher-Dear Sir: The combined Reaper and Mower bought from you is all right; and I have never made a purchase that pleased me better. It gives me pleasure to commend it as superior to all other machines for many reasons; among which are-lightness of draft, durability, easily managed by the driver to suit short or tall, down or upright Address No. 40, Post Office Avenue, grain and I also like it as a front cut machine. But its crowning perfection is the Table Rake, which delivers the bundles on the side in the very best condition free from tangle, and i thus a labor and grain saver. After a full trial I think, both as a Reaper and Mower it cannot be beaten. I heartily indorse the Buckeye.

Yours, &c., JOSEPH SMALLWOOD, "Locust Grove," Howard Co., Md.

ELLICOTT CITY, Aug. 24, 1876. Mr. D. Sprecher: It gives me pleasure to ay that the combined Table Rake Reaper and

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping-Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of moddiscoveries of medern science, few are of more real value to mankind than his effectual remedy for all diseases of the Throat and Lungs. A vast tri-al of its virtues, throughout this and other countries, has shown that it does

will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affec-tions of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attacks of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily they can

turely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of preducing cures as memorable as the greatest it has ever effected. PREPARED BY

L. M. COLE, Gen'l Ticket Agent. April 1, '72-11. THERE IS NO USE "WAITING

For something to turn up," and we have at last decided to turn it up. The protracted warm spell has materially interfered with the CLOTHING BUSINESS of Baltimore. Hundreds of Thousands of Dollars worth, which seasonable weather would have sold, remains on Shelf and Counter. It is usual in most business houses to make reductions after the season of demand is over. We have decided to take time by the forelock and make those reductions NOW. Hence our entire stock has been marked Down, Down, DOWN to an after-holiday basis. We will positively stick
