The fine weather which has prevailed which the last national campaign was during the last month has proved a great fought. That battle, said he, was waged boon to farmers, who were enabled to in favor of a national confederation of hall, a horticultural hall, a fine arts hall, thresh their wheat under a dry atmosphere and make rapid progress in the State government having full control in ing tea houses on the Japanese grounds preparation of land for the autumn tillage. all domestic matters. That is where we The English harvest is now finished, and have stood. It is for that we have batthe main bulk of cereals in Scotland has tied, and it is with some degree of satisbeen secured in good order, but in the faction that we note that the powers that northern districts fields of standing grain be at Washington have now adopted are still to be seen. The potato crop these very principles, and are following must certainly prove a failure, although, the line of policy of reconciliation which no doubt, the dry weather of the past few the democratic party has always advocaweeks has been very useful in checking ted. It is gratifying to know, said Mr. threatened to destroy the tubers entirely. were right all the time. Root crops are not making rapid progress, and in the north Swedes have been affected by mildew. The second heavy grass crop, which is now being secured, will prove a boon to stock owners, who were beginning to show anxiety owing to the scarcity of roots and the high price of winter fodder. The supplies of ed condition how general the fine weather has been, but in spite of moderate offerings there has been no advance in values. The imports of foreign wheat into London continue large, and it is evident that Russia is straining every nerve to turn as much of her wheat as she can into money before winter closes her ports, from the fact that last week's returns showed the arrival of our 50,000 quarters of St. Peteraburg wheat. This process has doubtless been increased by the unprecedent-edly low rate to which Russian exchange has fallen. These supplies, coupled with the very heavy shipments from America, an increase of 7,586,237 bushels. There must necessarily depress trade for awhile, and it is necessary to bear carefully in bushels in the exportation of rye during country as well as the possible require- 81,409 bushels. In corn alone there has ments of the continent to avoid falling into the erroneous idea that we are threatened with a glut of coin.

"A fair amount of steadiness character-BAVAGE, Wednesday, October 24, at ized the wheat trade at Mark Lane, but transactions were limited. No quotable transactions were limited. No quotable change occurred in prices. The attention that Indian descriptions which have been regarded with so much favor have been entirely neglected. Good varieties, however, still hold their ground. The demand for maize is steady, with but very little change in value. Oats sold slowly at barely the late rates."

-The work of devastation and death has gone on for so long a time in Cuba that both parties are now said to desire hardly be possible. The result of the peace, and certainly this country ought to encourage them in any honorable efforts to secure it. The exports of sugar alone from the ports of Havana and Matanzas had declined from 238,458 tons in the first six months of 1875 to 147,924 tons in the same period of 1876; while between 1874 and 1876 the exports to this country chant says. No matter how enthusiastithe other day, fell into the company of one other day, tell into the company of Cuba will accept the terms which Spain estimating its volume. Never be- journed for the term.
