*One inch of melted is considered equivalent to ten of unmelted Snow.

[EXPLANATION.—Thermometer, *Max.*, *Min.* showing the extreme heat (in the shade) and cold in the 24 hours; *Mean*, the result of observations made at 7 A. M. and 2 and 9 P. M., obtained by dividing their sum by 3; *R. S. H.* rainfall, snow, or hail (melted) during the 24 hours; *Wind*, force, graduated between 1 (the highest) and 0 (a dead calm), taken at 4 P. M., *Direction*, the prevalent direction *from* which it blows. In the *Weather* column is given the general aspect of the sky during the day.

THE emblems of mourning with which the columns of THE TIMES are shrouded this week, will prepare its readers for the painful announcement of the death of Mr. John R. Brown, Jr., the senior Editor. This sad event occurred on Monday night last. For some time past ill health has prevented Mr. Brown from giving much of his personal attention to the paper, and its patrons have missed from its columns those spicy articles with which it was his custom to brighten them. He however bore his illness with so much cheerfulness and patience that we all thought he might be much longer spared to us. But Providence—wiser than we—has called him in the prime of manhood, and we must all bow to the Divine Will.

Of Mr. Brown's character and abilities it is necessary to say but little. He was endowed with an intellect of far more than ordinary power,—he was a keen observer of passing events, and knew so well how to clothe his thoughts in graceful, pleasing and expressive language, that he was peculiarly adapted to the profession of journalism. There were few journalists of quicker perceptions—or more varied information—of truer intuitions or with a better appreciation of the requirements of the public than he; and he was destined had he lived to have become a brilliant ornament in the profession of his choice. A liberal education had improved the fine and bright intellect with which nature had favored him; and the mature judgment, the vein of sarcasm and the scintillations of wit which always characterized whatever emanated from his pen were but the indications of the innate power of his mind.

While his talent had gained him the respect and admiration of those who knew him but even slightly, his genial character and rare personal fascination had endeared him to the hearts and won for him the love of all those who knew him well. He was generous to a fault, sincere and ardent in his friendships, warm and impulsive in his sympathies, always courteous, gentle, kindly and frank.

His death will be universally regretted and his numerous personal friends will hold in most tender memory the many noble attributes of his character, for they all feel that in the bosom of no living man beats there a truer, warmer heart than was that which now lies cold and pulseless in the silent grave.

—Corruption in our National affairs has the same effect on the Government that a severe cough or cold has upon the human system. Political reform in the former and Dr. Bull's Cough Syrup in the latter case will remedy the evils. At the druggist's 25 cents.

—Forty-six boats, carrying 5,202 tons of coal, cleared from Cumberland on Wednesday.

Business Locals, &c.

Nothing Can be Worse Than to be Coughing Night and Day.

Use the great Remedy, DR. I. J. MARTIN'S PULMONARY BALSAM.

A Positive Cure for Diarrhœa, &c.

STONEBRAKER'S INDIAN GUM SYRUP, will positively cure any and every case of Diarrhœa, Dysentery and Summer Complaint, no matter how severe the case may be. It never fails in a single instance, and as a SOOTHING SYRUP, it acts with equal certainty, being far superior to any other in use. Mothers should bear this in mind. Sold by all merchants and druggists.

Enjoy Life.

What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means for enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up disheartened, discouraged and worried out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof that Green's August Flower will make them as free from disease as when born. Dyspepsia and Liver Complaint is the direct cause of seventy-five per cent. of such maladies as Biliousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of August Flower will prove its wonderful affect. Sample bottles, 10 cents. Try it.

Oct. 13, '77-1y.

Scribner for December

Opens with a paper on the lumber trade of the United States, by Charles D. Robinson, Esq., entitled The Wooden Age. The description of the life and dangers of the lumbermen is aided by half a dozen vigorous drawing by the young artist, Kelly, who has thus far only appeared in *Scribner*. Following closely upon this is Col. Waring's enthusiastic talk about The Thoroughbred Horse, which contains suggestions about training for the turf and riding to hounds, and a picturesque description of an English fox-hunt, with reproductions of some of Leech's famous cartoons. James Richardson's paper on American Oyster Culture (also illustrated) is not a compilation of statistics, but an interesting account of the methods employed in American waters for the culture of the oyster. The travel paper takes the reader from the Atlantic to the Andes, *via* the Amazon and Madeira rivers, and has an account of caoutchouc manufacture and some information with regard to the progress of Brazil. With her paper on Ants, of which many curious facts are told, Mrs. Herrick closes her series of microscope studies. The drawings, as usual, are by herself. Another scientific paper, Mars and his Moons, is by Lieut. E. W. Sturdy, of the U. S. Naval Observatory, whose calculations have met the approval of Prof. Hall, the discoverer of the moons. The serials are continued.—Miss Fratton's hero coming nearer to His Inheritance, and Mr. Eggleston's Indiana story presenting new phases of life in the Pocket. The reader is also enabled to compare Mr. Eggleston's fiction with reality, by the appearance, in this number, of the late Robert Dale Owen's reminiscences and anecdotes of life in the same part of Indiana.

A valuable paper in this number is a study of Keats, by the poet, R. H. Stoddard, who traces the life and analyzes the genius of the ill-fated poet, and gives him very high rank. The January number will have the conclusion of this essay, which the student of literature is advised to read with Keats's poems in hand. Some Precepts for Slandering Safely, by Chas. H. Truax, is a curious paper showing what one may or may not say against his neighbor without liability to an action in law. Edward Bellamy has a short story entitled Lost; and Charles de Kay a long poem, called Hesperus, in which will be found a new treatment of the theme of immortality. Other poems are contributed by Emma Lazarus, Edgar Fawcett, Susan M. Spalding and others.

In his special department, Dr. Holland discusses Protection, A Reform in the Civil Service and The Public Charities, and gives a record of the recent Harvard Examination for Women. The Old Cabinet is about The Newspaper, The Ladies' Magazine Man and the Powerful Politician, Architecture and Art in New York, etc. Among the books reviewed are Clarence Cook's new book on household art, The House Beautiful, Pierce's Memoirs of Sumner, and Mrs. Barnett's Surly Tim and other Stories. In Bric-a-Brac, Mr. Stockton gives a second installment of his humorous Models for Letter-writers.

Ayer's Hair Vigor

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its origin al color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will present the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit, but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.
