Ayer's Cathartic Pills,

For the relief and cure of all derangements in the stomach, liv-er, and bowels. They are a mild aperient, and an excellent purgative. Being purely vegetable, they contain no mercury or mineral whatever. Much

whatever. Much retious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the Pills with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by Ayer's Pills, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar-coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution or diet or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these Pills rapidly cure:

For Byspepsia or Endigestion, List-lessness, Languor, and Loss of Appetite, they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

THE PICTURESQUE SIDE OF AMER. ICAN FARM LIFE.—This subject will be treated in a series of separate papers engaged from writers who stand in the front rank among Americans, both in qualities of style and in keen insight of nature. Mr. R. E. Robinson, author of a delightful paper on "Fox-Hunting in New England" in the January number, will represent the same section in this series. John Burroughs, whose papers on similar topics have been a highly prized and popular feature of Schibnen will write of Farm Life in New-York. Maurice Thompson, the poet-naturalist, will describe the characteristics of Western farming, of which but little has been written. It is expected that the illustration of this series will be of a refined and typical character, commen-

fresh, strong and delicate work from original sources. "RONY,"--by EDWARD EGGLESTON (author of ',The Hoosier Schoolmaster," &c). This new novel will doubtless be the most important American serial of the year. The first number was published in November. Those who have read it in manuscript declare Roxy to be much the most striking and remarkable story this author has ever written. It is il-lustrated by one of the ablest of the younger
