among Americans, both in qualities of style and in keen insight of nature. Mr. R. E. Robinson, author of a delightful paper on "Fox-Hunting in New England" in the January number, will represent the same section in this series. John Burroughs, whose papers on similar topics have been a highly prized and popular feature of Scribner will write of Farm Life in New-York. Maurice Thompson, the poet-naturalist, will describe the characteristics of Western farming, of which but little has been written. It is expected that the illustration of this series will avail themselves of an early application. Also be of a refined and typical character, commensurate with the subject-matter. It is thought that no paper of series of papers yet issued in Scribner will so fully realize the constant desire of the magazine to keep out of the ruts, and, both in text and illustrations, to obtain quality rather than quantity, and to print tresh, strong and delicate work from original sources.

It is illustrated by one of the ablest of the younger American painters-Mr. Walter Shirlaw, President of "The American Art Association."

Mr. Burroughs's papers will begin in the January number, the first being entitled "Birds and Birds," and illustrated by Fidelia ARCHITEC URE OF BIRDS .- Dr. Thomas M. Brewer will contribute four ex quisitely illustrated articles on birds'-nests,

which every lover of nature will delight in.
Dr. Brewer has probably the finest collection
of birds' eggs in the world to draw upon for the illustration of these papers. THE SADBLE-HORSE,-Col. George E. He treats specially of saddle; horses and their use for pleasure and for sport, including road-riding, fox-hunting and racing The nature of the English the oughbred and that of his Eastern progenitor (the Arabian) are fully considered

# WORLD

1878.

Since the change in its proprietorship (which took place May 1, 1876) "The World has become the brightest, sprightliest, most scholarly and popular journal in the metropo-lis." 'It is entertaining, interesting, bright, decent, fair and truthful." It does wrong wittingly to no man, no creed, no interest and no party. It treats all subjects of importance earnestly and with respect. It seeks to make itself an agreeable companion, as well as a faithful guide and teacher. THE WORLD regards the recent victories of the party with which it by preference acts not as mere parti-ean triumphs gained by partisan contrivances, but as the unmistakable expression of a deep and genuine popular demand for new methods in government, for a thorough puriculation of the public service and for a rectification of the aims of our party organizations. Wherever and whenever the Democratic party proves itself loyal to this popular demand THE WORLD will resolutely uphold it; wherever and whenever it falls short of or altempts to counteract this popular demand THE WORLD will as resoluted to opense and demange it. In a year THE in government, for a thorough puriculation of ty oppose and denounce it. In a word, THE WORLD will as resolved by oppose and denounce it. In a word, THE WORLD believes the Bemocratic party to exist for the good of the public service. It does not believe the public service to exist for the good of the Democratic party.
