It is announced from New York that he agents of the Union Pacific and Central Pacific railroads have determined on an advance in freights on first-class goods. The new charges are nine dol lars per one hundred pounds on bales at owner's risk, and twelve dollars per one hundred pounds on cases. This is an advance of six dollars per one hundred pounds. The reason for this doubling up is said to be a determination on the part of the company to compel merchants to stop the practice lution declaring them to be exorbitant of sending only small parcels by rail, while the bulk of the shipments go by the water route; though how such a Bullitt and Ashhurst having severally policy is going to increase the business of the road it is difficult to understand. The Results of Investigation. What has Been Proved so far by the

Potter Committee. [From the Washington Post.]

The Potter committee have proved, be youd successful rebuttal, things believed to be true, but not absolutely proven to be true before, to wit: That the electoral votes of Florida and Louisiana, which were given to Hayes, belonged to Tilden. Leaving out of consideration the State of Florida, which no honest man will deny to have been stolen, we will take up Louisiana. As to this State the Potter committee has clearly proved:

1. That a conspiracy was entered into by certain Republican leaders, the object being to hold no election in East Feliciana, Grant, and other Democratic par-

2. That the fact that no Republican votes were cast in East Feliciana was not due to intimidation, as alleged, but was owing to Anderson's advice to the Republican leaders not to vote, as it would have a better effect than all the affidavits that

could be produced. 3. That for a period of two days after the election the Republican leaders admitted that Tilden and Nicholls had carried the State by a heavy majority.

4. That when it became evident that the election of Hayes depended upon the result of the State, deliberate preparations were made for the purpose of defeating the will of the people as expressed at the

5. That in pursuance of this plan, protests, forged and altered to suit the occasion, were made for the parishes of East and West Feliciana, whereby a Democratic majority of over 2,800 was changed to a Republican majority of 500.

6. That the supervisors of the abovenamed parishes were prevented by promises of reward made by John Sherman and others from exposing such forgeries.

7. That on the 27th day of November, when the Returning Board proceeded to sum up the result of their labors, it was discovered that while Packard and a Republican Legislature were elected, Hayes was defeated.

S. That after the above date, and in order to secure the electoral vote for Hayes, forged protests were made from Richland and other parishes, and the returns from Lafayette and other parishes o changed as to increase the Republican

guilty of subornation of perjury. 13. That the leading parties necessary to a completion of the fraud were promised by him protection and reward. 14. That the fraudulent President in fulfilment of Sherman's and Noyes' promises has rewarded with office every scoun-
