Liver is King.

The Liver is the imperial organ of the whole human system, as it controls the life, health and happiness of man. When it is disturbed in its proper action, all kinds of ailments are the natural result. The digestion of food, the movements of the heart and blood, the action of the brain and nervous system, are all immediately connected with the workings of the Liver. It has been successfully proved that Green's August Flower is unequalled in curing all persons afflicted with Dyspepsia or Liver Complaint, and all the numerous symptoms that result from an unhealthy condition of the Liver and Stomach. Sample bottles to try, 10 cents. Positively sold in all towns on the Western Continent. Three doses will prove that it is just what you want.

Nothing Can be Worse Than to be Coughing Night and Day.

Use the great Remedy, DR. I. J. MARTIN'S PULMONARY BALSAM.

GENERAL SUMMARY.

MONDAY

A Harrisburg (Pa.) dispatch says Deputy Attorney General Gilbert is about to procure a writ of quo warranto from the Venango County Court against the corporation known as the United Pipe Lines on the following grounds: That the company is doing business within the county of McKean, where no company is authorized to do business of that character; that it is a common carrier, and has violated its duty as such by refusing to receive and transport petroleum when offered it for that purpose by certain persons, partnerships and corporations; that it has discriminated in rates of charges for storage and transportation of petroleum, so that some shippers are compelled to pay a much higher price for it than others do for the same service.

The three mile sculling match at Wheeling, W. Va., Saturday, between Edward Clayton, of that city, and Seibert, of Pittsburg, was won by the former by three boat lengths. Time 22 minutes and 15 seconds.

John Hughes completed a walk of 500 miles at Newark, N. J., Saturday night, in 35 minutes less than 6 days. He will challenge Leary for the championship.

It appears Lazzaretti, the new religionist, who was killed in Italy last week, claimed he was Christ come a second time to earth, and had 3,000 followers.

A tramp named Dennis Belor was lynched, near Shelbyville, Tenn., for an outrage on the wife of Wm. Martin, a farmer.

Mrs. Ralston, the widow of the California banker, arrived at New York from Europe Saturday.

Gen. Szapary telegraphs that the insurgents attacked him again on Friday, but were repulsed.

Extensive ravages by the phyloxera are reported from the Malaga (Spain) vineyards.

Minister Kasson gave a banquet to Gen. Grant at Vienna Saturday night.

Later reports show that the Austrians won a decided victory at Stolatz.

TUESDAY.

A Mormon with two wives took them before the third district court, at Salt Lake City, yesterday, asking for naturalization papers for the second wife. She answered affirmatively the question whether she was living in polygamy, whereupon the district attorney objected that she was not of good moral character. The objection was sustained. The *Evening News* (Mormon Church organ) advises polygamous wives hereafter in any matter in which the law of the land is concerned to call themselves by their maiden names, and in any court to take the position of unmarried women.

A family named Gifford, living near Rochester, N. Y., lay claim to one fourth of Coney Island, and are taking steps to assert their rights. They claim to have the documents which will indubitably establish the ownership claimed. The land claimed is now handsomely improved, and there will be "millions in it" should the claimants succeed.

The Bennett challenge cup was won at Newport yesterday by C. D. Waggstaff, of Babylon, L. I., who killed nine birds out of ten. The second money was awarded to A. T. Thornhill, of London, and the third to Newton Earle.

The London *Times* says Canada could not establish reciprocity with the United States without transgressing the "most favored nation" clause in England's commercial treaties.

The Austrian police have surrendered to the Bernese authorities a female swindler who has sold a total of $200,000 bogus jewelry.

In the shooting contest at Newport yesterday, Messrs. Howard Ridgely and J. Swann Frick, of Baltimore, each won a medal.

Count Andrassy's convention project was rejected in the ministerial council, and the Porte has submitted a modification.

The report of the Rhodope commission has been signed by the British, French, Italian and Turkish delegates.

It is denied that the Porte refused Minister Layard's request to execute certain promised reforms.

The Russian headquarters have been transferred from San Stefano to Rodosto.

Dr. J. W. Weldon, a noted horse trainer, died at Saratoga Sunday evening.

Reports of outrages in Bulgaria continue to be received.

A slight shock of earthquake was felt in Germany.

WEDNESDAY.

The democratic congressional convention for the third district of Virginia met in Richmond yesterday. Nominations for Congress being in order, Gen. Joseph E. Johnston and Maj. W. F. C. Gregory, of Richmond, Col. John B. Young, of Henrico, Dr. Tuesenbury, of Caroline, and Capt. Frank V. Winston were placed in nomination. Thirty-eight ballots were taken without making a choice, Gen. Johnston being the leading candidate on every ballot after which the convention took a recess until to-day. All the indications point to a strong combination against Gen. Johnston. There was much fillibustering during the day, and many attempts made to adjourn. There are no indications of a compromise man yet. It was thought that if Johnston fails his adherents will go to Winston.

At Newport, R. I., yesterday, a match for $1,000 a side, 25 birds, was shot by Carroll Livingston and T. C. Van Buren against J. B. Roche and A. J. Thornhill, of London. The Englishmen won the match, killing 32 birds to 26 for Livingston and Van Buren. Much money changed hands. Mr. Robert Garrett, who was entered to contest in the shooting match at Newport Monday, for the Bennett challenge cup, was not on hand when the match was called.

Awards have been made at the Paris exhibition in fifteen classes of the American section. Among the awards are: Class VIII, educational, diploma, (equal to a gold medal), to the United States Naval Academy, Annapolis, Md., and the United States bureau of education; class IX, printing, diploma of honor, to the United States government printing office; class XIII, musical instruments, silver medel, Chas. M. Stieff, Baltimore, Md.

Capt. Bogardus gave an exhibition glass ball shooting in Dayton, O., yesterday, breaking 317 balls in 21 minutes, making 26 misses. This is the best shooting in that time on record. Bogardus left for Chicago last evening to take part in a tournament there.

The yellow fever is still on the increase in the South. At New Orleans yesterday, 191 new cases and 49 deaths were reported, and at Memphis 96 new cases and 32 deaths. At Vicksburg there are in all 600 cases of fever.

The scull race arranged between Warren Smith, of Halifax, and James Riley, of Saratoga, is off, the latter declining to row, owing, he says, to the late arrival of the articles of agreement.

Thomas and Louisa Bigelow, charged with robbing the financial department of the receiver-general at Toronto of $5,000 cash and some Canadian bonds have been arrested in London.

Although Count Andrassy experiences considerable opposition he is still supported by the Hungarian ministry, his colleague Von Hoffman and the Emperor.

The insurgents are threatening the Austrian forces both at Doboj and Serajevo, and are increasing in every direction.

Jackson, Beijer & Co., London, commission merchants, have failed with liabilities estimated at $750,000.

Servia's complicity in the Bosnia insurrection is again asserted.

THURSDAY.

Secretary Sherman addressed the merchants of Cincinnati yesterday after the session of the Chamber of Commerce, and congratulated them on the marketing of the largest crop ever gathered in this country—the only detraction from our prosperity being the yellow fever plague in the South—and the fact that the currency is soon to be based upon the solid money of the world. He took a hopeful view of business affairs, and said that after the present week (when the bankrupt act repeal takes effect) there will be an end of bankruptcies, when all men who believe they are not in a condition to pay their debts will have taken the benefit of the law. The secretary was greeted with hand-shaking and complimentary remarks.

The yellow fever continues to increase in violence in the South. At New Orleans yesterday 220 new cases were reported and 57 deaths; at Memphis 119 new cases and 58 deaths; at Vicksburg 125 new cases and 15 deaths. The scenes at these points are indescribably sad, and more help is needed.

A new iron steamship for the Charleston, Savannah and Florida line was launched at Wilmington, Del., yesterday noon. She will be delivered at New York in October.

Mr. William T. Van Zandt, a wealthy New Yorker, arrested on the charge of arson, has been discharged from custody for want of evidence to connect him with the fires.

The British bark Minnehaha, Capt. McGonigle, which vessel was seized by the British government for smuggling tobacco sailed from London for Baltimore August 26.

The Austrians have formed a communal council at Serajevo composed of eighteen citizens of all professions, and military operations are temporarily suspended.

Dennis Kearney, the labor agitator, called on President Hayes yesterday, and intends to visit Baltimore and make a speech Saturday night.

At a public meeting held at Liverpool a committee was appointed to obtain subscriptions for the yellow fever sufferers in America.

Servian citizens have been prohibited from leaving the country without permission, and warlike preparations are going forward.

Gen. Joseph E Johnston was yesterday nominated as the democratic candidate for Congress in the Richmond (Va.) district.

Meditations in behalf of Greece has been postponed by the powers pending the arrival of another memorandum.

The Bigelows, arrested in London for alleged connection with a Canadian robbery, have been released.

Dr. R. M. Welman has been nominated for Congress by the republicans of the second Indiana district.

FRIDAY.

The committee of creditors of the Jay Cooks estate has declared a second dividend of five per cent. in cash, together with a dividend of three and a-half per cent. of the Northern Pacific and St. Paul and Duluth railroad companies, making in all 8½ per cent. Should the creditors approve the plan for a scrip dividend the trustee says this will make a total dividend in cash, and the distribution of securities of 51 cents on the dollar.

Dennis Kearney made his threatened political speech last evening from the east portico of the Capitol at Washington. He uttered his customary denunciations of bondholders, and said the battle was to be fought between honest men and thieves. He had not a very high opinion of President Hayes, and despised Tilden, preferring Butler to either.

The sham battle at the reunion of the veterans at Deckertown, N. J., yesterday was a spirited affair. It ended in a truce between the rival troops. The veterans and the volunteers then passed in review before Gen. Kilpatrick, and the camp broke up.

The Russians and Bulgarians have had a sanguinary fight at Jamboli, fifty miles north of Adrianople, because the Russians endeavored to prevent the maltreatment of the Jews. Many were killed on both sides.

Vice-President Wheeler, accompanied Surgeon General Woodward arrived at Elizabethtown, N. Y., Wednesday, and are the guests of Hon. Robert S. Hale. A reception was held last evening.

At New Orleans yesterday there were 140 new cases of yellow fever and 49 deaths. At Memphis 99 new cases were reported and 70 deaths. The condition of affairs there is appalling.

There will be five hundred and forty-eight Catholic journalsists in Europe in the press pilgrimage to the feet of the Pope on the anniversary of his exaltation.

Count Andrassy's convention project has been accepted by the Austrian cabinet and will probably be signed this week.

M. Marinovich, the conservative leader and the Servian Senate will probably form the new Servian ministry.

General Szapary's position is said to be critical and further mobilization of Austrian troops is imminent.

The French committee on the treaty of commerce gave a banquet to the American delegates.

In France the waters of the rivers Rhone and Baone have risen to an alarming height.

The first bale of the new cotton crop reached New York yesterday from North Carolina.

Batoum will be surrendered to the Russians September 6.

Why Should Not Physicians Treat Animals as well as Men?

If a physician has all he can do to treat ailing humanity, certainly the animals must be neglected; but when, as at present, the "doctors" are making a poor living, or none at all, what should prevent them from treating the animals? Nothing hinders but a false pride. Study and experience will enable any physician to do it with success. Comparative anatomo is studied in all our medical schools; comparative pathology should be. The knowledge of animal diseases is of great service to a physician. In fact, man and animals are found to have so many diseases in common, that animal pathology is quite essential to reasoning upon, and treating many of the ills that man is heir to. Were it to become a general custom among physicians to treat animals, and to charge for it, we might confidently anticipate the most gratifying results.

These or some of them, I venture to enumerate. First, the physicians would make a better living; besides, they would at once become more important to their constituencies. Second, the country would have a corps of efficient observers, on the watch for infectious or contagious diseases among animals, and quick to detect and report upon unusual animal diseases of any kind, wherever they might break out, thus providing an efficient safeguard against their spread, and against filling our city markets with diseased meat, or the killing of such for country consumption. Third, the wealth of the country would be increased at once by the saving of the lives of many animals, and ultimately by the better understanding and prevention of various murrains and maladies. Fourth, improvement in the sanitary surroundings of both animals and men, and a much higher degree of health and soundness.—*American Agriculturist.*

TROPICAL RAINS.—As the tropical rains though generally confined only to part of the year, and then only to a few hours of the day, fall in much greater abundance than under our skies, it may naturally be supposed that the single showers must be proportionally violent. Descending in streams so close and so dense that the level ground, unable to absorb it sufficiently fast, is covered with a sheet of water; the rain rushes down the hillsides in a volume that wears channels in the surface. For hours together, the noise of the torrent as it beats upon the trees and bursts upon the roofs, occasions an uproar that drowns the ordinary voice and makes sleep impossible. In Bombay, nearly nine inches of rain have been known to fall in one day, also twelve inches in Calcutta in the same period, or nearly half the mean quantity of rain on the east coast of England. During one single storm which Casteluan witnessed at Pebas on the Amazon, there fell not less than thirty inches of rain—nearly as much as the annual supply of the west coast of England.—*Tropical World.*

THE PARIS BALLOON.—The captive balloon, which is one of the attractions of the Paris Exposition, is said to have cost nearly $150,000, and the proprietors pay a ground rent of $3,000. The price for a twenty minutes' ascension is $1 a head. Miss Sarah Bernhardt, the famous actress, makes three ascensions daily. It is reported that, after the close of the Exposition, the balloon is to be brought to this country.

Some Old American Laws.

There is a long list of these quaint laws, a few of which will suffice to exhibit the condition of the society in which they existed. "No Quaker or Dissenter from the established worship of the Dominion shall be allowed to give a vote for the election of Magistrates or any other officer." "No food or lodging shall be offered to a Quaker or a heretic." "No Priest shall abide in the Dominion. He shall be banished, and suffer death on his return." "Priests may be seized by any one without a warrant." "No one shall run on the Sabbath day, or walk in his garden, or elsewhere, except reverently to and from meeting." "No one shall travel, cook victuals, make beds, sweep houses, cut hair or shave on the Sabbath day." "No woman shall kiss her children on the Sabbath day, nor on a fasting day." "No minister shall keep a school." "No one shall read Common Prayer Books, keep Christmas or set days, eat mince pies, dance, play cards, or play on any other instrument of music such as a drum, trumpet and jew's harp." "To pick an ear of corn from a neighbor's garden shall be deemed theft." "The *Selectmen*, on finding children ignorant, may take them away from their parents and put them in better hands at the expense of their parent." "A man that strikes his wife shall be fined ten pounds." "Adultery shall be punished with death." "Married persons shall live together or be imprisoned." "A drunkard shall have a master appointed by the *Selectmen* who are to debar him from the liberty of buying and selling," and—"Whoever shall publish a lie to the prejudice of his neighbors shall be set in the stocks, or be whipped ten stripes."

OVERTASKING THE ENERGIES.—It is not advisable for any of us to overtask our energies, corporeal or mental, but in the eager pursuit of wealth or fame or knowledge, how many transgress this salutary rule. It must be a matter of great importance to all who do so to know how they can regain the vigor so recklessly expended. The remedy is neither costly or difficult to obtain. Hostetter's Stomach Bitters is procurable in every city, town and settlement in America, and it compensates for a drain of bodily or mental energy more effectually than any invigorant ever prescribed or advertised. Laboring men, athletes, students, journalists, lawyers, clergymen, physicians, all bear testimony to its wondrously renovating powers. It increases the capabilities for undergoing fatigue, and counteracts the injurious effects upon the system of exposure, sedentary habits, unhealthy or wearying avocations, or an insalubrious climate, and is a prime alterative, diuretic and blood depurent.—*Adv.*

VARIOUS CAUSES—Advancing years, care, sickness, disappointment, and hereditary predisposition—all operate to turn the hair gray, and either of them inclines it to shed premature ly. AYER'S HAIR VIGOR will restore faded or gray, light and red hair to a rich brown or deep black, as may be desired. It softens and cleanses the scalp, giving it a healthy action, and removes and cures dandruff and humors. By its use falling hair is checked, and a new growth will be produced in all cases where the follicles are not destroyed or glands decayed. Its effects are beautifully shown on brashy, weak, or sickly hair, to which a few applications will produce the gloss and freshness of youth. Harmless and sure in its operation, it is incomparable as a dressing, and is especially valued for the lustre and richness of tone it imparts. It contains neither oil nor dye, and will not soil or color white cambric; yet it lasts long on the hair, and keeps it fresh and vigorous. For sale by all dealers.—*Adv.*
