THE SUN FOR 1879.

THE SUN will be printed every day during the year to come. Its purpose and method will be the same as in the past: To present all the news in a readable shape, and to tell the truth though the heavens fall. THE SUN has been, is, and will continue to be undependent of everybody and everything save the Truth, and its own convictions of

duty. That is the only policy which has won for this newspaper the confidence and friend-ship of a wider constituency than was everenjoyed by any other American Journal. THE SUN is the newspaper for the people. A. M. It is not for the rich man against the poor 4.45 4.45 (Washington and Way Stations, 6.30 Ellicott City and Way Stations, 6.45 Washington and Way Stations, 7.00 (St. Louis, Cincinnati, Chicago, Pittsburg and Washington Express. man, or for the poor man against the rich man, but it seeks to do equal justice to all in-terests in the community. It is not the organ of any person, class, sect or party. There need be no mystery about its loves and hates. It is for the honest man against the rogues

every time. It is for the honest Democrat as against the dishonest Republican, and for the nonest Republican as against the dishonest Democrat. It does not take its cue from the utterances of any politician or political organization. It gives its support unreservedly when men or measures are in agreement with the Constitution and with the principles u, on colat, &c., &c.

THE SUN has fairly earned the hearty hatred of rascals, frauds, and humbugs of all sorts and sizes. It hopes to deserve that hatred not less in the year 1879, than in 1878, 1877, or any year gone by. The SUN will continue to shine on the wicked with unmitigated bright-

While the lessons of the past should be constantly kept before the people, The sun does not propose to make itself in 1879 a magazine of ancient history. It is printed for the men and women of to-day, whose concern is chiefly with the affairs of to-day. It has both the disposition and the ability to afford its readers the promptest, fullest, and most accurate intelligence of whatever in the wide world is worth attention. To this end the resources belonging to well-established prosperity will be tiberally employed. While the lessons of the past should be con-

be liberally employed.

The present disjointed condition of parties in this country, and the uncertainty of the future, lend an extraordinary significance to the events of the coming year. The discussions of the press, the debates and acts of Congress and the movements of the leaders in every sec-tion of the Republic will have a direct bearing on the Presidential election of 1880—an event which must be regarded with the most anxious interest by every patriotic American, whatever his political ideas or allegiance. To these ele-ments of interest may be added the probabil-ity that the Democrats will control both houses of Congress, the increasing feebleness of the fraudulent Administration, and the spread and strengthening everywhere of a healthy abhorence of fraud in any form. To present with accuracy and clearness the exact eituation in each of its varying phases, and to expound, according to its well-known meth-ous, the principles that should guile us through the labyrinth, will be an important

part of THE SUN'S work for 1879. We have the means of making THE SUN, as a political, a literary and a general newspaper, more entertaining and more useful than ever before; and we mean to apply them freely. Our rates of subs ription remain unchanged. For the DAILY SUS, a four page sheet of twenty-eight columns, the price by mail, postpaid is 55 cents a month, or 86.30 a year; or, including the Sunday paper, an cight-page sheet of fifty-six columns, the price is 65 cents a month, or 87.70 a year, postage paid.
