THE SUN FOR 1879

THE SUN will be printed every day during the year to come. Its purpose and method will be the same as in the past: To present

all the news in a readable shape, and to tell the truth though the heavens fall. The Sex has been, is, and will continue to be independent of everybody and everything save the Truth, and its own convictions of duty. That is the only policy which has won for this newspaper the confidence and friend-

and informed him that she had not the pleasure of his acquaintance. "Well," against the dishonest Republican, and for the honest Republican as against the dishonest Republica remarked the young man, "you don't Democrat. It does not take its cue from the utterances of any politician or political organization. It gives its support unreservedly when men or measures are in agreement with the Constitution and with the principles u; on which this Republic was founded for the peo-ple. Whenever the Constitution and consti-tutional principles are violated—as in the outrageous conspiracy of 1876, by which a man not elected was placed in the President's office, where he still remains—it speaks out

office, where he still remains—it speaks out for the right. That is The sun's idea of independence. In this respect there will be no change in its programme.

The Sun has fairly earned the hearty hatred of rascals, frands, and humbugs of all sorts and sizes. It hopes to deserve that hatred not less ta the year 1879, than in 1878, 1877, or any year gone by. The Sun will continue to year gone by. The SUN will continue to shine on the wicked with unmitigated bright-

While the lessons of the past should be constantly kept before the people, The SUN does not propose to make itself in 1879 a magazine of ancient history. It is printed for the men and women of to-day, whose concern is chief-ly with the affairs of to-day. It has both the disposition and the ability to afford its reade s the promptest, fullest, and most accurate intelligence of whatever in the wide world is worth attention. To this end the resources belonging to well-established prosperity will

marking that she can tell a Brazilian pebble, from a diamond in a ring, with her eyes shut.

In this country, and the interval time, lend an extraordinary significance to the events of the coming year. The discussions of the press, the debates and acts of Congress and the movements of the leaders in every section of the Republic will have a direct bearing on the Presidential election of ISSO—an event which must be regarded with the most auxious interest by every patriotic American, whatever his political ideas or allegiance. To these elements of interest may be added the probability that the Democrats will control both bourse of Congress. ity that the Democrats will control both houses of Congress, the increasing feebleness of the fraudulent Administration, and the spread and strengthening everywhere of a healthy abhorence of fraud in any form. To present with accuracy and clearness the exact situation in each of its varying phases, and to expound, according to its well-known methods, the principles that should guide us through the labyrinth, will be an important part of The Sun's work for 1879.
