It is asserted that there are one hundred Frankforters worth from \$1,000,000 to \$5,000,000 each, and two hundred and fifty worth \$1,000,000 and upward. The city is one of the great banking centres of the globe. Its aggregate banking capital is estimated at about \$200,000,000, more than one-fourth of which the lamous Rothschilds, whose original and parent house is there, own and control.

The annual transactions in bills of exchange are in excess of \$400,000,000. Its general trade and manufacturing industries have greatly increased since the formation of the German Empire, to which Frankfort was originally averse, being a free city and an o pponent of Prussia un til coerced in July, 1866, by Gen. Von Falkenstein, who entered it at the head of an army and imposed a fine of 31,000,-000 floring for its insubordination.

### Chronic Aliments

The proper treatment of chronic cases of disease requires a thorough knowledge of physiology and pathology. Such knowledge is not attained by study alone but by years of experience. We have in this city a physician who has, during the last four or five years made many remarkable cures, and those treated say that for all forms of chronic disease no doctor in Baltimore is more competent and no doctor in Ballimore is more competent and uniformly successful than Dr. UNDERWOOD, of No. 166 West Fayette street. He cutes cancers without the use of the knife, and removes tumors by electriclysis. His electrical instruments are of the latest improvement, in fact one he has had manufactured with some improvements according to his own device. The doctor is a physician and a gentle-man, and any one calling on him can depend on his judgment and skill.—From Saturday Jan. 25, '79-1y.
