WE are giad to be able to present to our readers, this week, a statement of county expenses for the past fiscal year, which will give them reason to congratulate the Board of County Commissioners upon the good judgment and economy with which they have managed the affairs of the county. Whatever may be the difference of opinion touching the justice and propriety of the law which takes the sum of \$219,282 of church, school and other property from our taxable basis, no one can deny that the Commissioners are entitled to much cicdit for having so managed the county affairs, that, notwithstanding that law, they have been able to keep the taxes down to within one cent of what they were last year More especially is this true when we remember, that besides the usual and ordinary county expenses, there had to be levied this year \$480 to pay the interest on the new jail bonds, \$1000 to retire one of the same bonds and \$1000 to meet the deficiency in the school fund, none; away from the Executive the power to proved. of which items were included in the ex. enforce the laws, he would have us forget penses of last year, - when the taxes were 00 cents on the \$100 as against 61 cents | the administration of Washington, and on the \$100 this year. We feel sure that the half century and more which followed was made and accepted. Statement: this showing will prove as gratifying to it, - and yet as Senator Hill so justly our tax paying readers, as it must be to says, no man could have stood before the the Commissioners themselves, to whose indignation of the American people, who, careful management the good results is so | during that time, would have proposed to largely due.
