No. 1 PERUVIAN GUANO.

Warranted genuine, and direct importation into the United States by Mr. J. J. Barril. We respectfully call the attention of Dealers and Farmers to our stock of Peruvian Guano, of which we have purchased a large quantity from Mr. Barril. This Guano has been pur-chased from the Peruvian Government, in Peru, loaded there from their deposits, and brought directly into the United States, as the Records of the Custom House will show. In virtue of an existing law and agreement etween the Peruvian Government and the Company that has contracted for the consignment of Guano in the United States, Guano can be purchased there for the United States by paying the price established.

The Guano we offer for sale was purchased in accordance with established rates, and was shipped by the Company who send all Peruvian Guano to the United States, they transferring the Bills of Lading to the purchaser, hence we guarantee the genuineness and puri-ty of the Guano we offer for sale to be equal in all respects to that offered by any house in the united States, the Agents not excepted.

Chronic Allments.

The proper treatment of chronic cases of disease requires a thorough knowledge of physiology and pathology. Such knowledge is not attained by study alone but by years of experience. We have in this city a physician who has, during the last four or live years made many remarkable cures, and those treated say that for all forms of chronic disease no doctor in Baltimore is more competent and no doctor in Baltimore is more competent and uniformly successful than Dr. Underwood, of No. 166 West Fayette street. He cures can-cers without the use of the knife, and re-moves tumors by electriclysis. His electrieol instruments are of the latest improvement, in fact one he has had manufactured with some improvements according to his own device. The doctor is a physician and a gentle-man, and any one calling on him can depend on his judgment and skill.—From Saturday

Sunstroke, We hear of so many persons in professional life, and in pursuits not compelling

exposure, suffering from sunstroke, that we wish to say a word or two about it. The one great lesson to avoid injury from the heat in hot weather is to take things moderately. Be quiet, keep out of the sunshine as much as possible, always carry an umbrella in the street, walk slowly, ride when you can, never get excited, swear not at all, drink no intoxicating liquors, and what you do drink should not be too cold or too hot, dress lightly with thin under flancels, sleep as long as possible in the night, and cat only easily digestible

suggestions: "Sunstroke is caused by excessive heat, and especially if the weather is 'muggy.' It is more ant to occur on the second, third or fourth day of a heated term than on the first. Loss of sleep, worry, excitement, close sleeping rooms, debility, abuse of stimulants, predispose to it. It is more apt to attack those working in the sun, and especialty between the hours of cleven o'clock in the morning and four o'clock in the afternoon. On hot days wear thin clothing. Have as cool sleeping rooms as i necessary fatigue. If working in-doors, and where there is artificial heat-laundries, etc., see that the room is well ven-

(not black, as it absorbs heat), straw, etc., and put inside of it on the head a wet cloth or a large green leaf; frequently lift the hat from the head and see that the cloth is wet. Do not check perspito keep it up, as perspiration prevents the the body from being overheated. Have whenever possible an additional shade, as a thin umbrella when working in the sun. When much fatigued do not go to work, but be excused from work, especially after 11 o'clock in the morning on very hot days, if the work is in the sun. If a feeling of fatigue, dizziness or head ache or exhaustion occurs cease work immediately, lie down in a shady cool place; apply cold cloths to and pour cold water over head and neck. If any one is overcome by the heat, send immediately for the nearest good physician. While waiting for the physician give the person cool drinks of water or cold black te:, or cold coffee, if able to swallow. If the skin is hot and dry, spange with or pour cold water over the body and limbs, and apply to the

keep a cold cloth on the head, and pour cold water on it as well as on the body." "If the person is pale, very faint, and pulse feeble let him inhale ammonia for a few seconds, or give him a teaspoonful of aromatic spirits of ammonia in two tablespoonfuls of water with a little
