Chronic Affections. The proper treatment of chronic cases of disease requires a thorough knowledge of physiology and pathology. Such knowledge is not attained by study alone but by years of experience.

We have in this city a physician who has, during the last four or five years made many remarkable cures, and those treated say that for all forms of chronic disease no doctor in Baltimore is more competent and uniformly successful than Dr. Underwood, of No. 106 West Fayette street. He cures cancers without the use of the knife, and removes tumors by electrolysis.

His electrical instruments are of the latest improvement, in fact one he has had manufactured with some improvements according to his own device. The doctor is a physician and a gentleman, and any one calling on him can depend on his judgment and skill. -From Saturday Standard, Jan. 25, '79-ly.
