THE SUN FOR 1880. The Sun will deal with the events of the

year 18:00 in its own fishion, now pretty well understood by everybody. From January 1, until December 31 it will be conducted as a new-paper, written in the English language, and princed for the people.

As a newspaper, The Sun believes in getting all the news of the world promptly, and presenting it is the most intelligible shape—the shape that will enable its readers to keep well abrerst of the age with the leest unproductive expenditure of time. The greatest interest to the greatest number

that is, the law controlling its daily make-up. It now has a a circulation very much larger than that of any other American newspaper, and enjoys an income which it is at all times prepared to spend liberally for the benefit of its readers. People of all conditions of life and all ways of thinking buy and read The Sux; and they all derive satisfications. faction of some sort from its columns, for they keep on buying and reading it. In its comments on men and affairs, The

Sur believes that the only guide of policy 6 to 1d be common sense, inspired by genuine 6 med the common sense, inspired by genuine 6 merican principles and backed by honesty of purpose. For this reason it is, and will continue to be, absolutely independent of party, class, clique, organization, or interest. It is for all, but of none. It will continue to praire what is good and reprobate what is evil, taking care that its language is to the point and ing care that its language is to the point and pain, beyond the possibility of being misunderstood. It is uninfluenced by motives that do not appear on the surface; it has no opin-lous to sell, save those which may be had by any purchaser with two cents. It hates injustice and rascality even more than it hates unnecessary words. It abhors frauds, pities fools, and deplores nincompoops of every species. It will continue throughout the year 1850 to chastise the first class, instruct the second and discounterance the thirt at second, and discountenance the third. All honest men, with honest convictions, whether sound or mistaken, are its friends. And The SUN makes no bones of telling the truth to its friends and about its friends whenever occa-

sion arises from plain speaking.
These are the principles upon which The Sun will be conducted during the year to come.
The year 1889 will be one in which no patriotic American can afford to close his eyes to multis office. It is impossible to experse. to public affairs. It is impossible to exagge-rate the importance of the political events which it has in store, or the necessity of resolute vigilance on the part of every citizen who desires to preserve the Government that the founders gave us. The debates and acts of Congress, the utterances of the press, the ex-citing comests of the Hepublican and Democratic parties, now nearly equal in strength throughout the country, the varying drift of public sentiment, will all bear directly and effectively upon the twenty-fourth Presidential election, to be held in November. Four years ago next November the will of the nation, as expressed at the poils, was thwarted by an abominable conspiracy, the promoters and beneficiaries of which still hold the offices they stole. Will the crime of 1876 be repeated in 1881. The west deads of ware greater in 1881! The past decade of years opened with a corrupt, extravegant, and insolent Administration intrenched at Washington. The SUN did something toward dislodging the gaug and breaking its power. The same men are now intriguing to restore their leader and themselves to phase from which same men are now intriguing to restore their leader and themselves to places from which they were driven by the indignation of the people. Will they succeed? The coming year will bring the answers to these momentous questions. The Sex will be on hand to chronicle the facts as they are developed, and to exhibit them clearly and fearlessly in their relations to exhibit and the sex of th

relations to expediency and right.

Thus, with a habit of philosophical good humor in looking at the minor affairs of life, and in great things a steadfirt purpose to maintain the rights of the people and the prin-ciples of the Constitution against all aggress-ors, The Sun is prepared to write a truthful, instructive, and at same time entertaining bistory of 1830 history of 1830. Our rates of subscription remain unchanged.

For the Daily Sun, a four-page sheet of twen-ty-right columns, the price by mail, post-paid, is 35 cents a month, or \$5.20 a year; or, including the Sunday paper, an eight page shiet of lifty six columns, the price is 65 cents a month, or 67 50 a year, postage paid. The Sunday edition of THE SUN is also furnished seperate at 81,20 a year, postage paid.
The price of the Webker Sun, eight pages, fifty-six columns, is \$1 a year, pectage paid. For clubs of ten sending \$10 we will rend an extra copy free.

I. W. ENGLAND. Publisher of Tan Sus, New York City.

Various Causes.

Advancing years, care, sickness, disappoint ment, and hereditary predisposition-all operate to turn the hair gray, and either of them inclines it to shed prematurely. AYER'S HAIR VIGOR will restore faded or gray, light and red bair to a rich brown or deep black, as may be desired. It softens and cleanses the scalp, giving it a healthy action, and removes and cures danoruff and humors. By its use falling hair is checked, and a new growth will be produced in all cases where the follieles are not destroyed or glands decayed. Its effects are beautifully shown on brashy, weak, or sickly hur, to which a few applications will produce the gless and freshness of youth. Harmless and sare in its operation, it is incomparable as a dressing, and is especially valued for the soft lustre and richness of tone it imparts. It contains neither oil nor dye, and will not soil or color white cambrie; yet it lasts long on the hair, and keeps it fresh and vigorous

No. 1 PERUVIAN GUANO.

Warranted genuine, and direct importation into the United States by Mr. J. J. Barril. We respectfully call the attention of Dealers and Farmers to our stock of Peruvian Guano, of which we have purchased a large quantity from Mr. Barril. This Guano has been pur-chased from the Peruvian Government, in Peru, loaded there from their deposits, and brought directly into the United States, as the Records of the Custom House will show. In virtue of an existing law and agreement between the Peruvian Government and the Company that has contracted for the consignment of Guano in the United States, Guano can be purchased there for the United States

by paying the price established.
The Guano we offer for sale was purchased n accordance with established rates, and was shipped by the Company who send all Peruvian Guano to the United States, they transerring the Bills of Lading to the purchaser, hence we guarantee the genuineness and puri-ty of the Guano we offer for sale to be equal in all respects to that offered by any house in the United States, the Agents not excepted.

Chronic Aliments.

The proper treatment of chronic cases of disease requires a thorough knowledge of physiology and pathology. Such knowledge is not attained by study alone but by years of experience. We have in this city a physician who has, during the last four or five years made many remarkable cures, and those treated say that for all forms of chronic disease no doctor in Baltimore is more competent and uniformly successful than Dr. UNDERWOOD, of No. 166 West Fayette street. He cures can-cers without the use of the knife, and re-moves tumors by electriclysis. His electricol instruments are of the latest improvement, in fact one he has had manufactured with some improvements according to his own device. The doctor is a physician and a gentle-man, and any one calling on him can depend on his judgment and skill,—From Saturday Jan. 25, '79-1y.
