and read The Sun; and they all derive satisfaction of some sort from its columns, for they keep on buying and reading it.

In its comments on men and affairs, The Sun believes that the only guide of policy

Chronic Allments.

The proper treatment of chronic cases of disease requires a thorough knowledge of physiology and pathology. Such knowledge is not attained by study alone but by years of experience. We have in this city a physician who has, during the last four or live years made many remarkable cures, and those treated say that for all forms of chronic disease no doctor in Baltimore is more competent and uniformly successful than Dr. UNDERWOOD, of No. 166 West Fayette street. He cures cancers without the use of the knife, and removes tumors by electriclysis. His electricol instruments are of the latest improvement, in fact one he has had manufactured with some improvements according to his own device. The doctor is a physician and a gentleman, and any one calling on him can depend on his judgment and skill.—From Saturday Jan. 25, '79-1y.

do not appear on the surface; it has no opinions to sell, save those which may be had by any purchaser with two cents. It haves injustice and rascality even more than it hates unnecessary words. It abhors frauds, pittes fools, and deplores nincompoops of every species. It will continue throughout the year 1850 to chastise the first class, instruct the second, and discountenance, the third. All second, and discountenance the third. All honest men, with honest convictions, whether sound or mistaken, are its friends. And The SUN makes no bones of telling the truth to its iends and about its friends whenever occasion arises from plain speaking. These are the principles upon which THB SUN will be conducted during the year to come. The year 1880 will be one in which no patriotie American can afford to close his eyes to public affairs. It is impossible to exaggerate the importance of the political events which it has in store, or the necessity of resolute vigitance on the part of every citizen who desires to preserve the Government that the founders gave us. The debates and acts of Congress, the utterances of the press, the ex-citing comests of the kepublican and Demo-cratic parties, now nearly equal in strength throughout the country, the varying drift of public sentiment, will all bear directly and effectively upon the twenty-fourth Presidential election, to be held in November. Four years ago next November the will of the nation, as expressed at the polls, was thwarted by an abominable conspiracy, the promoters and beneficiaries of which still hold the offices they stole. Will the crime of 1876 be repeated in 1880! The past decade of years opened with a corrupt, extravegant, and inso-lent Administration intrenched at Washington. The Sun did something toward dislodg-

ton. The Sun did something toward dislodging the gang ann breaking its power The same men are now intriguing to restore their leader and themselves to places from which they were driven by the indignation of the people. Will they succeed? The coming year will bring the answers to these momentous questions. The Sun will be on hand to chronicle the facts as they are developed, and to exhibit them clearly and fearlessly in their relations to expediency and right.

Thus, with a habit of philosophical good Thus, with a habit of philosophical good humor in looking at the minor affairs of life, and in great things a steadfast purpose to maintain the rights of the people and the prin-ciples of the Constitution against all aggress-ors, The Sun is prepared to write a truthful, instructive, and at same time entertaining history of ISSO.
