HOW TO MAKE A GOOD SALE. An exchange truly says on the subject of public sales: "Past experience has shown that the man with the best mater-

ial does not always get the best prices, simply because he neglects the best way to get the most bidders. The sale with plenty of bidders is always the best. "The farmer asks, how can we get bidders? The answer is easy. Tell the people about your sale, its date and all

you will offer. Let everybody in the county know of it. Let them hear about it once a week for one, two or three weeks. And how can he do this? "If he wants a crowd of good bidders at his sale let him put his invitation in the paper of largest circulation. Of

course the paper will charge something for its work. An advertisement of a sale in its columns will reach ten times as many people as read a hand bill, though the latter are valuable." The paper in this part of Maryland

enjoying the largest circulation is THE TIMES. Its circulation is in Howard, Baltimore, Carroll, Frederick, Montgomory, Prince George's, and Anne Arundel counties and Baltimore City. It has readers in every county in the State of Maryland, in nearly every State of the Union. Its circulation is greater than for children; especially in cases of croup the combined circulation of all other papers published in Howard county.

Its charges are the lowest in the State if circulation is considered. It reaches the most substantial people, those of all parties and all beliefs. While it is "First in the Field. Democratic in politics, yet intelligent Republicans watch it even closer than Democrats, because they know that it is the only journalistic power that Republican principles have to fear in this section. More than that, its character as a newspaper makes it a welcome visitor everywhere, and the Republicans who fear The Times' telling blows at their principles, yet know that to ward persons it is prompted by nothing but the best motives and kindest feel-Its darts are penetrating, but never poisoned. All sects, too, are treated alike, and the friends of THE Times are Catholic and Protestant, Jew

and Gentile. THE TIMES cannot guarantee a good sale to any one. All it can do is inform everybody of the sale. The seller must do the rest. If his goods are not of such a character as to attract buyers, that is no fault of THE TIMES. The crier with his bell can inform the whole town of an auction but he can not make the whole town buy. The wares must do that. Sales advertised in THE TIMES this season have, however, been wonderfully successful.

Hand bilis are very useful to supplement an advertisement in THE TIMES, and bills are printed neater and cheaper at the Timas office than anywhere else.

As THE TIMES goes to press the indications are that the assessment bill as agreed upon by the conference com ittee will pass both houses of the legislafor and the penal features for evasion of the law are removed.

John L. Sullivan refused to sign the articles of agreement sent him by the Olympic Club of New Orleans to fight James J. Deafness Can't be Cured by local applications, as they cannot reach the diseased portion of the ear There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets in flamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed for-
