Having suffered from the blighting and disastrous effects of a drought now six weeks' duration, with scorching sunshine and drying winds, the farms of Howard county and the localities adjoining are now in a sorry plight. Not only are all crops cut short and some perhaps lost altogether, but the important work of fallow plowing has been delayed. This work cannot be completed now, even should the earth be oftened with soaking rains, in time for fall seeding. As it is, the fallow fields are as hard and compact as an old-fashoned treading-yard.
