LET THERE BE NO LET UP. Although it is but two weeks to the election...

While, as we have said, the ticket is no issue, the issues which were brought to the front and earnestly discussed during the several presidential campaigns...

Republican criticism of Postmaster-General Bissell because he recently said that one-cent letter postage was out of the question for several years is very unjust...

Carl Schurz and Wayne MacVeagh having failed to get offices have begun to blackguard the President. President Cleveland evidently thinks, like most honorable men...

The best is none too good for Uncle Sam. The gold leaf that is being used to gild the dome of the new National Library building...

"Delirium of enthusiasm" is a newspaper head-line over a description of the meeting of French and Russians at Toulon. Wonder if that isn't a relative of Delirium Tremens?

The Republican candidate for Governor of Massachusetts isn't the first politician to discover the dangers of letter-writing, although few politicians have written a more ridiculous letter than his.

The silver question involves individual opinion only and is in no sense a political party question. Some people seem to overlook this in discussing it.

The Russians should remember that the adage, "who dares must pay the fiddler," applies to nations as well as individuals.

The Republicans are putting up a pretty stiff bluff in New York, but the Democrats hold the winning cards and they know it.

When it comes to sailing yachts, Britannia is only a waiting-maid to the "Queen of the Ocean"—Miss Columbia.

JUDGE COOLEY'S PLAIN WORDS.

In reply to an inquiry as to what course he thinks the majority of the Senate ought to pursue in order to secure a vote on the repeal bill, ex-Judge T. M. Cooley has written the following: "The Senate is one house of a legislature created by the Constitution to make laws for the country. Its authority to act is by majority; this is clearly implied, and as much a part of the constitutional grant of power as if expressly declared."

The Republican Senators must want the earth. Their complaints because they were not allowed to say what they should be done in the Senate are simply ridiculous. How many times did they ever consult the Democrats when a majority of the Senate were Republicans?

That era of peace, prosperity and progress which the late Mr. Blaine was continually prophesying for the South and Central American countries seems to be a long time coming, and not a few students of the history of those turbulent countries are of the opinion that it can never come until there is a radical change in the character of the people who inhabit them.

The Court of Appeals on Wednesday in the case of William J. Worman and others vs. John C. Hagan and others, board of supervisors of election for Frederick county, decided that the county commissioners amendment of the constitution was validly adopted and that the act extending the terms of office of the commissioners is constitutional.

To read some newspapers it might be supposed that the man who was sufficiently interested in the success of his party to contribute his money or his time to elect its nominees ought to be barred from holding office after his party wins. The party that attempts to carry out that white robed idea will die young—very young.

A notable event this week in Baltimore was the celebration of the twenty-fifth anniversary of the Rev. James Gibbons, then a priest, now a cardinal—to the rank of bishop. A large number of dignitaries were present and the ceremonies impressive.

The Democratic Congress fully realizes, unless all our information is wrong, that one of the issues—the principal one in fact—upon which it was elected was tariff reform. Therefore it is but a waste of time to say "let tariff alone."

Republican criticism of Postmaster-General Bissell because he recently said that one-cent letter postage was out of the question for several years is very unjust, in view of the fact that it was Republican extravagance in public expenditures that put it out of the question.

Carl Schurz and Wayne MacVeagh having failed to get offices have begun to blackguard the President. President Cleveland evidently thinks, like most honorable men, that the good will which has to be purchased is not worth having.

The best is none too good for Uncle Sam. The gold leaf that is being used to gild the dome of the new National Library building, at Washington, is twenty-three carats fine.

Hood's Sarsaparilla Cures When Others Fail. "Three years ago my wife suffered with inflammation and soreness of the bowels, caused by a tumor. The tumor became larger, and finally she could only lie on one side at night. In February she had an attack of the grip and in two weeks was reduced to a mere skeleton. She decided to try Hood's Sarsaparilla. Its good effect was quickly noticeable. She was now taking the fifth bottle and all traces of the tumor had disappeared. She is now as well as ever."

Free From Pains. "and there is no soreness or swelling. She is now able to attend to her household duties, something she could not do for three years past. She takes Hood's Sarsaparilla three times a day, and we shall always keep it." Timothy Powell, Burke, Franklin Co., N. Y.

Hood's Pills are the best after-dinner pills, assist digestion, cure headache. Try a box.

WILCOX COMPOUND TANSY PILLS. "These pills are so effective in curing all kinds of ailments, such as headache, neuralgia, rheumatism, etc., that they are known as the 'Witch's Balm' of the pill world."

"This parrot I can recommend. He has only one fault; he makes a terrible row if he does not get his dinner promptly. I would not, if I shall take him. He will remind me of my husband."

CURED MY LITTLE BOY OF HEREDITARY SCROFULA. Mrs. E. J. Rowell, Medford, Mass., says her mother has been cured of hereditary scrofula after having had much other treatment, and being reduced to quite a low condition of health, as it was thought she could not live.
