THE NEWS OF THE WEEK

ELECTION DAY. There was scarcely a ripple of excitement in Ellicott City on election day. All day long citizens repaired to the election room, generally alone, and quietly deposited their bailots as a matter of duty, apparently, as scarcely enough of interest was taken in the election to cause a discussion. A great many Democrats voted because they believed in the principles of the party and believed that the party ought to be sustained. The Republicans on the other hand Miss Florrie Lee Riggs, daughter of Mr. counting on defection in the Democratic and Mrs. J. W. Riggs, to Mr. Charles A. ranks entertained the dim hope that by a Wednesday November 15th at half past still hunt they might come out with a few ahead. But Howard county remained true to her record and may be counted on as in line at all times and under all

circumstances. There had been good deal of talk to the effect that several candidates on the Howard county and attributes his sick-Democratic ticket would be cut and possibly defeated, but the returns show that no unusual cutting was done.

A good deal of ignorance was shown as to the correct way of voting as quite a number of ballots were cast without a mark of any kind. Fully fifteen persons at this precinct disregarded the simple direction that a "cross-mark at the right of the party emblem is a vote for all the candidates in that column unless names in another column are marked."

Although the second district polled her usual Democratic majority, in the counting out at one time the Republican vote ran neck-and-neck with the Demo-

Ellicott City Democratic Meeting. The Democratic Mass Meeting held in the New Assembly Room here on Monday

a typical Democratic gathering, there being lots of good speaking, plenty of good humor and abundance of enthusiasm. The meeting was called to order by State's Attorney J. D. McGuire. Mr. Samuel J. Radcliffe was called to

the chair and Mr. II. C. Griffith chosen secretary. The vice-presidents were Messrs. Edward Malone, Randolph Grove, L. Iglehart, James Heavy, James D. Cooke, Thomas Hennessy and J. B. Morrow. The orators of the evening were Messrs. Humphrey D. Wolfe, Wm. D. L. Borum, of Baltimore; ex Senator W. B. Peter, Mr. Martin F. Burke, Hon. John G. Rogers, Mr. J. E. Hill and State's Attorney J. D. The Legislature is latter's laboratory, which laboratory was overwhelmingly Republican, and stands once used by Sir Humphry Davy and as follows: Senate—Republicans, 24: Michael Faraday. Democrats, 7. House-Republicans, 82; Democrats, 25.

Massachusetts.-With one town halge, rep., 103,442; J. E. Russell, dem., 156,199; Greenhalge's plurality, 35,643. The plurality of W. E. Russell, dem., last Iowa.-The returns Wednesday show

that Frank D. Jackson, republican, for Governor, will have a plurality of 35,000 over Horace Boies, democrat. The republican State ticket is elected by pluralities ranging from 40,000 to 44,000. The democratic managers ascribe the party defeat to the hard times and the strong pro-silver element in the party. which is not quite satisfied with the attitude of the national administration. NEW YORK.—The returns show Republican victory of 34,680 for John goods in her line. The freshest and best Palmer for secretary of state, and Bartlett has defeated Maynard by the overwhelming plurality of 89 669. The Republicans elect their entire state ticket by good majorities. Corrected returns indicate that the Republicans will have good working majorities in both houses. PENNSYLVANIA.-Pennsylvania Tuesday gave a majority which, when the official count is completed, it is believed

will exceed 120,000, surpassing all previous records in the history of the party in this State with one exception. This exception was the majority of 137.718 given Grant for President over Greeley in 1872. Philadelphia county alone gives Jackson (Rep.) for State Treasurer a majority of 52.152, and Allegheny county adds 200,00 more. Philadelphia in 1891 gave a Republican majority for State tion. Pressurer of 28,569. The increase in the Republican majority in this city this year seems to rest entirely upon the fact that many Democrats failed to go to the polls, as will be seen by comparison with the vote in 1891. In the latter year the vote here for State Treasurer was: Morrison (Rep.) 101,985: Tilden (Dem.) 73,416. Tuesday the poll was: Jackson

(Rep.) 103,738: Osburn (Dem.), 51.586.

The Democratic State ticket, headed by Smith for comptroller, was elected by from 10,000 to 12,000 majority. Indifference prevailed throughout the State, and the vote was light.

The returns, Wednesday, point to Republican gains for the legislature, an increase of two senators and 18 assemblymen, which will give them six senators and 25 assemblymen in the next legislature, and which will stand: Senate. Democrats 29, Republicans 6, house Democrats 66, Republicans 25. The senators elected are James Sloan, Republican, W. Cabell Bruce, Democrat, Thos. A. Smith, Democrat, Chas. C. Crothers Democrat, Sydney E. Mudd, Republican, Joseph H. Johnson, Democrat, Robert A. Ravenscroft, Republican, Hattersly W. Talbott, Democrat, William II. Bowie, Democrat, Woodland P. Finley, Democrat, Oswald Tilghman, Democrat, John Wester Smith, Democrat, William II. Baker, Republican.

The Republicans carried Harford county, a Democratic stronghold, on account of party dissension, electing were full of life, in the enjoyment of Baker, senator, while a fusion ticket was successful for the board of county com-Captain Bennett there, a naval veteran missioners. Comedy Drams, "Aristocracy." The production of a new play in the city from the pen of the foremost of American dramatists, Mr. Bronson Howard, is an event in which the best element of patrons of the theatre always look forward to with unusual interest. It is now nearly twenty years since this great Cramatist first wielded his prolific pen in the interest of the American stage. Mr. Bronson Howard in his lifework of writing for the stage of this cluding some of Highland's choicest country has done more toward individufowls with appetizing salads, &c., in fact alizing and making a distinct American drama than any man that ever lived. THE FAIR'S WHITE ELEPHANT.

What Is to Be Done With the Beautiful Buildings When the Show Is Over? In lump figures \$19,000,000 went into the construction of the World's fair buildings and the preparation of the grounds for the exposition. The point that now interests the stockholders, and incidentally the whole city and country, is how much can be realized from that \$19,000,000 worth of

time and material. It is safe to assume that the time is dead waste. It is safe to say also that a largea frightfully large-proportion of the material will have to go by the board. In the rosy days of promotion it was figured that \$3,000,600 could be realized from the sale of the buildings and the materials Since then there has been a slump in the expectations, and today it is a tossup whether there will be enough salvage to pay for the tearing down of the buildings, the removal of the materials and the restoration of the park to the condition in which it was before it was turned over to the Exposition company.

The South park commissioners fear that the fair corporation will forfeit its \$100,001 bond and abandon the buildings rather than attempt to tear them down and restors the grounds to their original condition. John C. Flemming, Chicago representative of the Carnegie companies, which furnished about two-thirds of the iron entering into the buildings, says that "a very large part of the iron at Jackson park will

have to go into the scrap pile." That means that it will have to be sold for old iron and at a price which may not nay half or a quarter of the price making it available even for that disposition. There are 7,000 tons of iron in the Manufactures building, costing about \$70 a ton to put in place, or nearly \$500,000 in all. There are nearly 30,000 tons in the several buildings, representing a cost of over \$1,-

500,000. Illustrative of the cost of taking down iron work, it may be stated that the archi-tect of Steele Mackaye's skeleton Spectatorium estimates that it will cost \$43,000 and every dollar that can be realized from the sale of material to pull down and remove that unsightly monument of yet other blissful promotion moments.

The owners of the Ferris wheel expect to pay \$83,000 to responsible contractors to take down, transport and set up that wonderful piece of work on another site. Emil Phillipson says it will cost \$100,000 over and above the salvage to tear down and remove the Manufactuers building

disposing of the waste and rubbish. Where to put it will be a tough problem to solve. It cannot be dumped haphazard into the lake, as much of it would be washed back upon the shore by the action of the water. The authorities would not allow that disposition to be made of it. There will be between 10,000 and 12,000 carloads of waste material to be hauled away from Jackson park, according to the calculation of a prominent contractor—that is to say, be tween 1,500,000 and 2,000,000 cubic yards of rubbish. There will be some thousands of carloads of staff alone to be carted away.

There is no hole or swamp to fill up with in transportable distance of Jackson park. A suggestion has been offered that the waste material be used for the creation of

Two Obstinate Women. When a woman wants a thing, she wants

it with all her heart. On Tuesday last one of the city's largest business houses advertised that a certain number of women's suits were to be disposed of at bargain prices. At 9 o'clock two women appeared almost simultaneously at the counter where these suits were displayed, both bent upon the same errand. Unfortunately there was but one suit of their size, and both insisted on having that suit.

One secured the jacket and the other the skirt. Neither would surrender to the other, though the saleswoman tried her best to interest them in something else. They kept up their struggle in a good natured way until nearly 6 o'clock in the evening, when the floorwalker brought about a tem- strangled him. The meeting between the robber chief Dragics and the young king of Servia was a far more romantic affair than as originally reported. The king, attended by a strong escort, went for a drive on Saturday over the well wooded mountains to Usicze, when suddenly a man armed to the teeth darted out of the dense forest, and holding out a pistol stopped the horses of the king's carriage. This was all done so quickly that there was no time for any one to be able to prevent the man shooting at the king had he really meant mischief. Before the escort and suit, however, had sufficiently collected themselves to seize the man he threw away his weapon, and sinking on his knee exclaimed: "My lord and king, I am the robber chief Dragics, upon whose head thy government has set a price of 3,000 francs. Up to the present they

have not been able to catch me. Now voluntarily lay my life in thy hands." The king was much startled and gave orders that the man, who in the meantime had been seized by the royal escort, should be liberated, but told him to go and give himself up at the next gendarmerie, adding that he might count upon the royal clemency.—London Standard.

Mongolian Ingenuity. Great care is taken by the customs officials to prevent any communication between the Chinese on the steamers from China and their friends on shore. This is done to prevent coolies getting information that will assist in proving them to be merchants. In spite of the precautions of the officers forbidden letters are often smug-

gled upon the steamers. Though the Chinese are not allowed to talk with their friends, they are allowed to send them fruits, cakes and other simple articles. Papers have often been found inside leaves of bread, in oranges, pears, apoles and other fruits. This fact has made the inspectors very wary. Yet it was only by the merest chance they intercepted a letter Saturday to a Chinese desirous of landing.

The steamer China brought a large number of Chinese over. One of them, Chang Pang, declared himself to be a merchant. As a merchant he would have to give an exact list of all his partners, together with the amount invested by each. Fearing he might not be able to answer these questions a list was prepared for him. Then the Celestials planned carefully to get it to him. Saturday afternoon a man gave Inspector Campbell three cigars. He asked that they be given to Chang Pang. The cigars seemed all right, and the inspector was about to take them on board when he noticed that one was a little soft. Tearing it open, he found carefully curled up inside a

letter on the flimsiest of paper. Freely translated its contents were: "When you land, you must say you belong to the firm of Quong Get Chong & Co., 619 Jackson street. A New York Incident. A short stout man, with bread shoulders and deep chest, stood at Thirty-third street at 2 o'clock Monday morning gazing ab-

He lenned against the iron fence inclosing the patch of grass known to beknighted Tenderloiners as a park. A stocky figure in Bowery clothes slunk up to him from behind and began:

"Pooty city; ch, boss?" "Ugh!" grunted the short man without so much as moving his big shoulders. "Fine graft if yer knows where ter pipe it," continued the speaker. "Huh!" granted the other, and the

Zola Justified. When M. Zola wrote his repulsive story of French peasant life, it was said that such things as he described could not be. But a case which has just been tried at the assizes in the department of the Tarn shows that in "La Terre" we have unfortunately only too true a picture. An old man named Veyrios had ceded his farm to his son, stipulating that he should have food and lodging. He was immediately placed in the worst room of the house and starved by his brutal son. One day the younger Veyrios asked his father to come to the stable and help him to move a large empty tub. As the old man steeped down, his son pushed him into the tub and turged it over. Then he put heavy stones on it and locked the stable door. After three days he again went to look, and finding his unhappy father still alive he
