The Passing of Italics.

is declining measurably in the favor of

printers, particularly on newspaper

in important editorials. This lack of fa-

vor has, it would seem, become more

The increased output from the ma-

chines has a strong tendency to do away

with the use of italic, every effort being

directed to the simplification of their

product. Thus it has been considered

good enough to put the names of news-

papers and other titles in roman on

newspapers, the composition for which

plaint has been uttered, and if there has

been any comment it has been too weak

to make itself heard. The public does

not care anything about the matter. All

that is wanted is a readable paper. When

machines are turning out thousands of

ems per hour in the usual rush to get a

paper to press, there is no time to be

frittered away in going to an italic case

situated perhaps at the other end of the

composing room. The face stands as

much chance of being used as there is

of reverting to the custom of correcting

A CUSTOM THAT WILL ENDURE AS

LONG AS THE NAVY ENDURES.

Orinking the Toast to "Sweethearts and Wives" Every Saturday Night-It Makes the Men In the Navy Better, Truer, No-

The people of this country are very fond of their naval officers, so far as they know them. It would be a good deal better for the country if they were better known, for among them are to be found as large a percentage of fine, brainy, lovable and well bred men as in any of the familiar professions.

There is not much sentimentality in the navy, but there is a deal of sentiment, which is a vastly different thing. Certain cynical young women who have met officers and who have noticed how attentive they are sometimes think that this is merely a "dainty, sham devotion," bestowed upon young women whom they meet at every port they touch. But this is not true. There is more genuine chivalry among the officers of the United States navy than is to be found among any class of men on shore.

It is one of the conventions of the navy to place women upon a pedestal, and there is no finer convention in the world. It may be because that for so much of their time they are denied the delight of seeing women. But they never forget them.

Every Saturday night in every United States warship afloat there takes place a ceremony so beautiful, so exquisite, that it seems to have escaped from the land of chivalry and wandered into American life. There, flattered and amazed at its welcome, it has remained ever since and made the men in the navy better, truer, nobler and braver, for it must be confessed that the officers are, first of all, splendidly American.

When a ship is under way, there is no woman aboard her. She has no place there. Maybe each man carries an image of one in his thoughts during his watches on deck. Of these things he does not speak. But once each week he comes forth boldly with his fellows and reverently sends greeting from across the seas to her. From the China sea, from stormy Cape Horn, from the peaceful Mediterranean comes the message.

"Sweethearts and wives!" That was ever and always will be the sailor's toast. And when it is given aboard UncleSam's ships it is a tribute to the sweetness, the purity, the beauty of American womanhood. There are men who have drunk that toast every Saturday night for more than 40 years. It is never old to them. The officers would as soon think of passing unnoticed an important disciplinary regulation as passing Saturday night without this ceremony. It does not matter whether the ship is on the high seas, or anchored in a foreign port, or lying at the dock in the Brooklyn navy yard, so the toast. It is a custom as old as the Our facilities for mixing wheat are navy. It will endure as long as the navy

all times to keep our different brands of short during a long cruise, the officers deny themselves during the week that Hominy, White and Yellow they may have it for this toast on Saturday nights.

The servants are well trained. They have the champagne nicely chilled and open it almost without orders. After the dinner is finished the executive officer arises. Very likely there is gray in his hair. His face is reddened by weather and seamed by years, for men who reach position cannot be young. But his heart is still young. They have dined well, and the content of well filled stomachs shines on their faces. But when the lieutenant commander rises they are still. He stands straight with his hand upraised, the champagne bubbling deli-

"Gentlemen, are your glasses charged?" There is not one which is empty. The officers rise and bow their heads in an-"I give you" (the lieutenant command-

er speaks earnestly, and there is a soft glimmer in his eyes)—"I give you sweethearts and wives. God bless them!" "Sweethearts and wives-God bless them!" comes in chorus from the officers. Then they drink, and if there runs down their spinal cords a little thrill, and if their eyes grow moist and their hands shake a bit it is a tribute to themselves and to American womanhood to whom this toast is drunk. With something in their breasts throbbing like the great engines, and the swish and gurgle of the waters dulling their ears, there is conjured before them, like the azure nimbus of a dream, a home with a soft voiced woman and the prattle of a child, or a slender, girlish figure bending her head to hide the love light in her eyes. On Saturday night the officer at sea feels that he is very near home.

Every one knows that naval officers are famous for the attractions which they have for the fair. This may show that it isn't the uniform alone which is the magnet.-New York World.

The Forger. Sir John Evans says, in Longman's Magazine, "that not even the trained antiquary is proof against the forger and confesses that not only has he himself purchased forgeries, but has published accounts of them as if they had been genuine-accounts which any amount of subsequent withdrawals fails to annihilate. Counterfeits and forgeries abound in every department of archieology. Spurious manuscripts, inscriptions, gems, pottery, glass, enamels, iveries, coins, weapons, implements and armaments have each and all been foisted on collectors at different times and in various

Mme. M-, a very talented pianiste, when sitting next to Colonel Ramollot at he dinner table, asked him in a winning

PATAPSCO FLOUR. ROLOSON BROS. THE "ROCK ISLAND" COMBIN DHAY RAKE & LOADER

Why are there twice as many Rock Island Hay Rakes and loaders in the hands of the best farmers as of all others added together?

Because, they do the best work,

The most of it, And draw the lightest,

They leave the ground the cleanest, Injure the hay the least, and Put it on the wagon in the best shape,

They work everywhere, Under any condition,

And very seldom bréak down. They will out wear any two

One, but by thousands.

Other machines on the market. We can prove what we say, not by

I wish to state that I used a Rock Island Hay loader last harvest and can say to my brother farmers with a good conscience that it will do all it is represented to do by the circulars of the company. Two of us put about 100 tons of hay without a break or having to stop five minutes on account of loader.

WILLIAM LEASE. WILLIAM LEASE.

The Rock Island Hay Londer proved to be a very happy as well as profitable investment forme, as I never before made hay with as little expense or labor. I would not think of doing without one. I loaded twelve large loads of hay in four hours, and could have loaded more if I could have unloaded it faster at the barns.

D. A. BRICKER. ALBERTON, MD., Oct. 21, 1893.

In reply to your inquiry as to how I am pleased with the "Rock Island" Hay Loader I bought of you? It is perfectly satisfactory in every respect and does all you claimed for it; in fact I am so well pleased with it that \$290 dollars would not buy it if I could not get another.

AUGUST D. STIRN. BALTIMORE, MD., Oct. 21, 1893. The Rock Island Hay Loader purchased of you this year has given entire satisfaction; and I heartily indorse it as the Hay Loader.

E. A. BLACKSHERE.

The Rock Island Hay Loader makes 1,709 Strokes per mile, other loaders make 4,500, and the wear to the machine and damage to the hay is just in proportion, as compared with the relative speed.

ROLOSON BROS
