BALTIMORE, MARYLAND.

The Supreme Court of the United States has just rendered a decision which will have a far reaching effect. By the laws of Maryland and of many other states in all criminal trials juries are mina Feldmeyer during a quarrel. Demade judges of the law as well as of facts, and no judge could instruct juries as to the law applicable to any particular case. Lawyers could argue points of law, cite decisions and precedents, &c., but juries were at liberty to take their own legal view of the case they were considering. The decision of the Supreme Court alluded to decrees this to be all wrong, and decides for the first time, clearly and distinctly, that the jury is not the judge of the law in criminal case, but must take the law from the bench. Discussing this decision, the New York Herald says: 'No legal question has been discussed for a longer time than this, and none has caused a more marked conflict of opinion. The importance of the protion, may be inferred from the fact that three opinions were prepared by mem bers of the Supreme Court and that they will fill a hundred and fifty pages, or about a third of a volume of the court reports." Justices Gray and Shiras lissented from the opinion of the majority of the Court.

pigeon, who writes in one of the local papers as "Junius" was so severely lampooned by "Regular" that he lost his temper and completely gave his friends away in his late effusion. He mentions quite a number of gentlemen who in his judgment would be proper representatives for the Demacratic party, acceptable to him and his clique. The impression left on the mind of the reader after reading his article is, that these men have City, Md., will receive prompt attenall been interviewed and if elected will tion. will see to it, that Senators Gibson and Gorman will be turned down. This 'galled jade," wincing under the lash of 'Regular," cries out "I will not support any man who would vote for Gibson or Gorman." This coming from a political hybrid or an ordinary country pedazogue would amount to nothing; but the jade" is said to be the half owner of this organ and blatant mouth-piece of the simon pure, latter day saints and political reformers of Howard county. He would not dare utter nor would this paper publish his utterances unless they felt strong enough to make the fight. It is well known that "Junius" and his family voted the Republican ticket last fall. His paper if not in full sympathy with the Republicans, never uttered one word in defence of the Democratic nominee last fall. Hence we may take "Junius'," utterances as a notice, to wit: unless you let us name the ticket we will vote Republican. Without losing my temper I will say better to meet defeat, than win victory on these people's terms. Every honest Democrat will abide by the decision of the primary elections Settle your differences there, gentlemen. If beaten stand up like men. We are tired of being lectured by men who vote the Republican ticket one fall and the next would come over and demand the right

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or mperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars or any case of Deafness (caused by catarrh) that we cannot cure by taking Hall's Catarrh Cure. Send for circulars,
