MYSTERIOUS DISAPPEARANCES.

A recent article by Dr. Osborne in the

only to the student, but even to the

proverbial "man in the street." "The

first case mentioned is that of a man,

thrifty and industrious, prosperous in

discovered when his affairs came to be

man who had been known as an indus-

ed his former life. Another and even

more striking case is related—that of a

over his whereabouts. He was known

to be abstemious in his habits and happy

in his home, and a searching examina-tion of his business affairs failed to re

veal the slightest irregularity in them. Several months passed, when at length word came through government channels

that the missing man was in Australia

and was applying for means of establish-

ing his identity and procuring his trans-

portation home. He was successful in

It is an interesting question, How are

such cases to be accounted for? The

absence of motive and the atter inability

account of their experiences during the

time which clapses between their dis-

appearance and their coming to them-

these disappearances partake of the char-

or severity, to somnambulism, while the

relation which this bears to epilepsy, if not very definite, is certainly close. Yet

whatever theory is put forward to ex-

plain such phenomena as those just re-

terred to, they remain striking and mys-

which he came to himself and had asked for and obtained work, which he had performed diligentry and efficiently. He was restored to his family, and at the time the article was written had recurs was restored to his family, and at the time the article was written had resum-Dr. Fenner's Remedy NeverFails results are most satisfactory. The polled Angus stock, when crossmore striking case is related—that of a lawyer, a well-known public man and politician, of more than usual ability and in a prominent social and professional position. One day, while in the midst of some intricate and important legal work, he stepped outside for a few minutes. He also disappeared. The most vigorous and thorough search failed to discover him, dead or alive. Streams and reservoirs were dragged, woods were searched and every means at the disposal of wealth and influence were used to discover his whereabouts. He was known ed with the buffalo, produces a mag nificent animal. The fur is finer and closer than that of the buffalo and the meat is sweet and wholesome. We are procuring as many of these animals as possible, but will not put any on the market for several years yet. We are not selling any buffaloes either, for the reason that we need them all at present. We receive letters every day from museums, parks, and shows, wanting them in all quantities, and though we might dispose of one or two singly, we

have no pairs to sell. "A good buffalo hide is worth \$100 now in the market, and heads bring from \$200 to \$500 when mounted, and the value of these is steadily increasing, so that buffalo breeding is as good an investment as real estate. Our herd is the only one I know about of any size. There small one in the Texas Panhandle, and these, with the few that roam in the National Park, are the sole remnants of the thousands which roamed the prairies but a few years ago."-Anaconda, Mon.,

An Electric Cane.

A Vienna electric supply house has just introduced a cane containing an electric incandescent lamp. It is made

suddenness of the disappearance, the The upper half can be taken off, and contains in the head of cut glass the lamp, connected by wires with three small platina sink elements. The strength lves, all give a certain weird character of current is four amperes, tension six to these aberrations. Are they of the nature of post-epileptic phenomena? Are

To fill the battery the lower part is they lapses into an alter ego, and if anfilled with a fluid patented by the inventother such lapse occurred would the patient take up the thread of this second or, and the two parts are then firmly commodations for When the head of the cane is lowered PERMANENT & TRANSIENT GUESTS identity? These are interesting quesor inclined the lamp emits a brilliant white light, which may be kept up for Unfortunately, they are unan-

swerable. All that we can say is that about two hours. While the cane is carried upright no acter of post-epileptic phenomena, and material is wasted. The fluid can easily be replaced, and anybody can fill the that in some patients who have suffered from lapses similar to, if not so severe as, reservoir. The weight of the cane is a those just described a more or less detrifle more than a pound .- Philadelphia finite history of true fits of epilepsy has been obtainable. And another thing is
