A large number of guests were present who greatly enjoyed the exercises of the evening. The efficiency of the school is unquestioned as the principals, who besides being experienced educators, are making it their life work to attain the best possible results for those entrusted to their charge.

## A PERILOUS RUNOFF.

A Two Horse Team Dashes Down Mais Street and Alights in a Mill Race.

Our town was startled about eleven o'clock Thursday night by a runaway accident, in which Miss Alice Hunt, daughter of Col. Thomas H. Hunt, and the Misses Rebecca and Lizzie Owings. daughters of Clerk of the Court John II. Owings; Mayor M. G. Sykes and Mrs. Sykes narrowly escaped terrible deaths. There were two teams, one containing the Misses Hunt and Owings and a color ed driver, and the other the Mayor and Mrs. Sykes. They were returning from the commencement exercises at Dundee School, and just after starting for home the horse driven by Mayor Sykes became frightened and ran against the dayton occupied by the young ladies. This trightened their horses and the two animals dashed off at break-neck speed down Main street and across the Patapsco bridge. The affrighted beasts plunged head-long over the stone wall, dragging the vehicle and their occupants down into the Patapsco mill-race-a distance of about fifteen feet. The team turned completely over alighting in the water

The water was about five feet deep, and the ladies were caught under the wagon. Fortunately a number of gentlemen who had witnessed the runaway, followed, and were soon on the scene. The lives of the ladies were saved by the prompt action of their rescuers, among whom were Messrs. Thomas Cavey, H. D. Dunkel, D. R. McCauley and H. Wiles. The young ladies were taken home by friends, and medical aid summoned. Miss Hunt sustained the most severe injury, which was a gash on the face. No bones were The colored driver was badly injured. The two horses were not rescued from the race until after twelve o'clock. Mayor Sykes was thrown from his carriage on Main street, and sustained severe cuts and Mrs. Sykes, although not seriously hurt, was greatly prostrated by the shock. The escape of the occupants of the

Owings' team is regarded as remarkable.

School Teachers in Session. The Howard County School Teachers' Association was held in the courthouse here Friday of last week. Most of the teachers where in attendance, and an interesting program, which embraced addresses, readings and essays, was rendered. The association was also addressed by President H. O. Devries, and Rev. Henry Branch, of the school board. Under the existing law, the district his estate shall be divided among Mrs. school trustees are required, after receiving their appointments from the school board, to qualify before the county clerk. It seems that in Howard county many of those appointed for the present year have failed to comply with this provision of the law, and, consequently, a unique souvenir, which was presented to number of the county schools are with him by Mr. John C. The school board, he said, should be apprised at once when failures on the part of trustees to qualify occurred, so the vacancies could be filled, and thus could be obviated any hindrance to the efficient working of the schools. The schools throughout the county closed same day for the year.

## Will it Cross the Patapsco.

Surveyors on the Edmondson Avenue. Catonsville and Ellicott City Electric Railway were at work here last week prospecting as to the most available crossing over the Patapsco into Howard county. It was at first thought to bridge the river near the Frederick pike crossing, and enter Ellicott City under the Baltimore and Ohio Railroad bridge, but it was stated by an engineer that a later idea was to cross the river at a Company. ## MR. WOLFE RESIGNS.

Succeeded at the Sub-Treasury by William T. Owings.

Mr. Humphrey D. Wolfe has resigned as assistant teller of the Baltimore Subtreasury, and will be succeeded by Mr. Wm. T. Owings, of Lisbon, Howard county Mr. Wolfe is from the same neighborhood of Howard county, and was a member of the last House of Delegates. His resignation arises partly from he recent death of his father, Dr. J. H. R. Wolfe, this occurrence rendering necessary for a time Mr. Wolfe's attention to the settlement of his father's estate. The resignation is also understood to nean that Mr. Wolfe will again be a leg-Islative candidate. Mr. Owings, his successor, is about forty years of age, and has been engaged in commercial pursuits in Howard county and Baltimore. He is a son of the late Justice Edwin U. Owings, of Lisbon.

The Orphans' Court. There was a full bench in the Orphans Court Tuesday, Judge John H. Herbert, who was appointed to fill the vacancy caused by the death of Judge John Mc-Shane, occupying his seat for the first time. The caveat to the will of the late Gen. Chas. P. Montague was formally withdrawn. Letters will now be grantde to Mrs. Lelia W. Montague, who was named as executrix in the will, which was admitted to probate. The will of Wm. McKendree Peddicord was filed for probate. The testator appoints John Q. Selby, executor, bequeaths \$1,500 in cash to his daughter, Mrs. Edward K. Coomes, and directs that the balance of Coomes and his two sons, Leonidas and

The snake was captured after it had bitten and killed a broncho belonging to Mr. Jacobs.

A New Bell Wanted. The fire company is renewing its ef forts for a new fire bell to take the place of the present one which is quite inadequate for the service intended. They propose to get one with a tone different from any of the bells here and something that can be heard in all parts of the town. The company recognizes the fact that there may be emergencies which will require a prompt response to an alarm. The present bell is of little or no good in this respect. By all means let there be a good bell if it should require an approp riation from the city council.

I have called your attention to this matter so that public guest of his parents, of this place, Sunattention may be called to it before the day. meeting of the next legislature. I am aware that it is a matter for Congress to act upon, unless grain gambling could, as now practiced on 'change and in country, be regulated by statutory law. Last fall these gamblers run grain down to fifty cents. We were told it was over production, the introduction of improved abor-saving machinery in India, Russia and the Argentine Republic, and by the advocates of free silver because of the emonetization of the white metal, out we know that none of these theories were correct; wheat has advanced with silver at a stand still and the wheat product of the year will over-top the last two years by several hundred millions bushels. Grain and cotton, principally grain, are the only product sold without any regard to actual possession of the goods sold. Active politics in this district, is con-

Elkridge Iron.

Mr. James Bates has at his iron found. ry, at the southwest corner of Pratt and President streets, Baltimore, three pieces of pig iron which are among the first produced in the state of Maryland. They average in weight about 100 pounds each, being but parts of a pig. One is stamped "Elkridge, 1755"; another strut about with a sanctimonious air, "Elkridge, 1769," and the third "Principio," the date being obliterated. Mr. poor mortals. The plain, silent people | Bates bought these pigs about two years ago as old iron, and he knows nothing until the regular Democratic bugle about their history, with the exception sound, and unless all signs fail they will that of the furnances at which they were come to Ellicott's to do the acting, and east. He supposes that, since the date of their easing to the time he bought them, they have been used as front or back logs in fire places around various parts of the country. The history of the Elkridge furnace, as far as is known, is brief, and consists of the fact that the furnace was on the Patapsco near Elkridge Landing, and that it was owned by one Edward Dorsey.

A Championship Contested.

The claim made by the Maryland Agricultural College for the championship is open to dispute. In fact the Rock Hill College club claims that the Agricultural College has no right to the championship since they have cancelled the second game with Rock Hill which was to be played this month. Rock Hill s anxious for the game, and rightfully contests the right of the Agricultural College to the championship. The reasons given by the Agricultural

College for cancelling the game is final examinations approaching. This they should have foreseen and not made it an excusé to keep from the game.

'A School Trouble,

The school board held a special session Thursday, at which the local trustees for the public schools in the Second and Fifth election districts were appointed, those for the other districts having been selected at a former meeting of the board. A committee, consisting of Messrs. A. H. Brown, Jacob Souder and Lemuel A. Welsh, patrons of school No. 5. Sixth district, appeared before the board to enter a protest against the continuance as trustees to that shool of the gentlemen who were appointed some

time ago.

Electric Line Prospects. The prospect of speedily connecting Ellicott City with the State Metropolis and Ellicott City Electric Railway has already had the effect of encouraging business enterprise here, and the citizens generally are looking forward eagerly to the completion of the road to this point. Not only, it is claimed, will the new road afford advantages in the way of cheaper transportation, but it will also increase materially the volume of business done here, and give an impetus to real estate values, which have been stagnated. In the vicinity of Ellicott City, both in Baltimore and Howard counties, there are adjacent to the line of the new road many building sites, which for pictures-

queness and healthfulness can scarcely e surpassed.
