WHAT REPUBLICAN ASCENDENCY

WOULD DO. The political situation throughout the State and especially in Howard county, is as it has been in times gone by. Wo have the same old ebullition of feeling among those who find things are not going just as they would like them to go-We have men, Democrats, who have high ideals as to party aims but with poor ideas as to party management. In bursts of righteous indignation they say so-andso should not lead in party management. They rave at the injustice done this or that man, hang around the edge of camp and in the heat of battle, instead of forging to the front, utter nothing but words of discouragement to those who by hard work and devotion to party achieve success. This is the way they would save Maryland from Republicanism. The real Democrat acts differently. In the first place he is supposed to be actuated by principle, has a far-seeing conception of the aims and spirit of his party and en\_ ters a campaign with the full determination to fight for certain tenets of political faith which are as deeply rooted in him as his religious faith. Under no circumstances will he be found recreant to duty. . This is the spirit which is moving the true Democracy of Maryland at this time.

On the tariff question he may not have got what he had cherished as true and correct. But he is reasonable. He sees that the country is showing signs of returning prosperity and is content to say. "Well, I am willing to let well enough alone. I believe in freer trade, but if the present tariff is really a tariff for revenue and the expenses of the government are paid without the income tax or any other direct tax, I am willing to let Mr. Gorman or any other man alone and wait for the new scenes which must inevitably come in these days of rapid changes and new phases."

If there was any hope that the Republican party would inaugurate improvement in our affairs, municipal, State or national, then there would be some excuse for this bewailing the sad condition of the Democratic party in Mary land. Any man of clear ideas knows that the Republican party in this State is crouching preparatory to the final spring for the possession of the State. And in that event what a fall it would be my countrymen! Already our Republican friends in the hope of spoils are dividing up into fierce factions, and unseemly wrangles are the order of the day. All this presages bad for Maryland in the event of Republican ascendency. Recklessness and rapacity have blackened the wake of Republican so-called progress, not only in State and municipal

the great interests of the people at large. Republican success in Maryland would introduce an element not in sympathy with the traditions of the State. The same rapacity which has characterized Republican domination in Philadelphia would soon manifest itself here. The same old policy of wealth subsidizing the worst elements of society would be as formance. worst elements of society would be as Matinee Saturday. Admission 25 cts. rife here as elsewhere. The negro would Reserved places 50 and 75 cents acbe thrust to the front in a manner never | cording to location. before experienced in the State. Our financial affairs which have been uniformly sound and conservative from time immemorial under Democratic rule, would soon be stranded upon the shores of Republican profligacy.

There is not an intelligent Democrat in Maryland but what is profoundly convinced of this, yet the action of some of these very men is grist to the Republican mill and the Republicans are gloating over the prospect of Democratic divis-

The effect of the Baltimore Sun's hy drophobic pursuit of Mr. Gorman is waning and the people from day to day are less inclined to treat Mr. Gorman as an issue. In fact the signs of returning prosperity according to the logical sequence of the Sun's argument, must and a policy that gave no promise to wise

of the Democratic party. Ardent as we may be in favor of free trade principles we are compelled to acknowledge that the time had not yet come for a full application of those principles; that exigencies existed which required a conservative policy. This is dawning not only upon the minds of Democrats but the people at large as shown in a number of recent elections. As a general thing working men are not governed by any other argument than that of their daily necessities and when these are supplied they are apt to applaud the administration which brings

them comfort and encouragement. The days of disappointment are over. The business of the country is assuming definite and satisfactory shape. We believe the silver and other disturbing questions will gradually sink out of remit as promptly as possible.

sight and the party which shaped the affairs of this country for sixty consecutive years previous to the war still lives to drag the people from the slough of uncertainty and despair, brought on by Republican rule, to a condition of confidence and general prosperity. The Republican party is eager to begin anew the old regime and let Democrats beware Let the Democratic party of Howard county heed these signs and put good nen to the front and all will be well.

THE REPUBLICAN SITUATION. The Republicans of Howard county are in a peck of trouble. A state of things has sprung upon them something of the nature of a clap of thunder in a clear sky. As is well-known they have been sounding about for a Republican or some other kind of a lawyer who will accept the nomination for State's Attorney at their hands. The candidacy of Mr. Joseph D. McGuire as an independent scemed all right in the eyes of a good many Republicans, but since Mr. Charles K. Dorsey has become a Republican, in the eyes of a good many this is one better. It appears there has been an "understanding" between Mr. McGuire and some of the Republican chiefs of the county, and now it turns out the same understanding has existed between Mr. Dorsey and other Republican chiefs. One faction is swearing by Dorsey and another faction by McGuire yet another who will swear by neither. The situation is grave and greatly complicated and the swell of an anticipated earthquake has already been felt. Just what will be done in their primaries which meet today remains to be seen, but it is thought the climax will not be reached until the county conyention meets-Monday next-when it is predicted, there will be a sweet-byeand-bye among old friends.

It was thought by many that Col George W. King would make an available candidate. The Colonel, while he in a manner left the Republican party, never fully endorsed the Democratic party, and had become a sort of go-as-you-please mugwump, a very good kind of a man King thinks when the spirit of reform is abroad. It may be that King will turn up as a dark horse as he has still many friends in the Republican party. A few years ago under a Republican nomination he led the ticket.

Murray as temporary counsel to the commissioners, inadvertently left lying on the desk in the commissioners' office Mr. Johnson's letter was written with the best intentions and in the interest of-all parties concerned, but not for the

This delightful comedy, from the pen of the successful playwright William Gillette, will be given at Ford's during the week of June 17th with all the advantages of an admirable cast by Manager Ford's comedy company.

It is a veritable succession of laughs from beginning to end. A jealous husband takes his family off on a tour leaving his nephew in charge of a large and luxuriant house. This fellow turns his temporary possessions into account by renting out the rooms. Of course the tenants are an odd assortment of human affairs of the country but in dealing with beings to all of whom the fraudulent landlord promises "All the comforts of home." On the other hand they produce all the discomforts of bedlam, fall in love and into the most amusing hates and become involved in a complexity of troubles. The fun begins at the very begining and continuing in a crescende well punctured with roars, ends in something like a tornado of merriment. The entire strength of the comedy company will be utilized in this per-
