three hours." No, Not One. There is not a human being physically perfeet. Much of this imperfection comes from peritage, much more from accident, neglect or ignorance. All of this mass of mortal suffering is manifest in aches and pains of more or less intensity, or in some kind of annatural distress. Hence all strive for relief. The simplest and surest is of course the best, and true economy demands to have it always at hand. When we know that an ordinary sprain may make a cripple for life, we should seek the best remedy at once, and at once we know that it is found in a bottle of St. Jacobs Oil. Those who in any way doubt this can experiment and be sure of cure. Thousands have done so.

Horace Manville, who was 100 years old on March 19, last, died in Woodbury, Conn.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local cometics, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F.J. Chency & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials, free. Address

AUSTRALIA CONVICT SHIP.

All is grist that comes to the mill of the showman, and even a convict ship manity. Built in 1790 in British India, for him to do, he proposed to retire, of solid teak, the Success was first an and handed in his resignation, to take ! East India trader and then an emigrant ship. It was in the year 1852, knives and revolvers.

a convict hulk, and moored at Williams town, Victoria. The new gold fields at tracted many bad characters from all parts, even convicts breaking loose from the penal establishments, and in "Well, at any rate let us run till the order to afford safe quarters for the worst of the evil-doers five ships were turned into hulks. The Success form-"No, I won't take what I don't earn. ed one of the group, and was known as I'm going to quit Saturday. I've been the "dark cell drill" ship, being fitted up with solitary cells that admit no light. One can well understand the horrors of the rigorous system of prison treatment practiced on board these bulks by an inspection of this ship. Lying in the East India dock, she is a weather-beaten old wooden vessel,

dingy and free from any suspicion of

new paint. The first wonder, indeed, sermon he thought it best to pick up a is that she ever accomplished the voyage from Australia to London, which | coolness, and love of adventure. Both took no less than five months and a | of the duellists were cool, skilful and ligious man?" he said to the surviving half, but her stout timbers of teak of brother. "You bet he was," was the great thickness make her almost imearnest answer. "Why, brother, he pregnable as a fortress. The quarters from loss of blood and was thought to never tuk out his gun to lay fer one of once occupied by the warders are be dying. shown on the quarter deck, where there the Simmonses without first praying leave," signed by the governor of the Carrington were crossing the street appetites than anything else. The murder was committed among themdispute.

The barbarity of the bulk system is further illustrated by iron necklets by which unfortunate malefactors were fastened by a line as if by halters, and in some torture chambers prisoners were so chained that they could neither lie, sit or kneel. Hardened ruffians though the convicts were, yet such treatment could only have the most fiendish results, and the prisoners on establishment, Inspector General Price The public sentiment revolted against the hulk system, which was superseded in 1859. The old hulks were broken up, with the exception of the Success, which after being maliciously scuttled in Sydney harbor, was raised and exhibited as a show vessel at various ports in Australia. This old hulk, reeking with the memories of many cruelties committed in the name of the law, is not allowed to tell her own tale, but somewhat questionably it is sought to heighten the effect by the aid of was figures in cells, and tableaux of scenes with notorious bushrangers, all of which appeal rather to morbid tastes.-London Chronicle.

Edison Found the Break. Dr. Norvin Green, the long-time presdent of the Western Union Telegraph Company, claimed that he gave Edison the employment which was the beginning of his successful career, to which, as is well known, the Western Union corporation has largely contributed. Edison had been bothering the officers of the company with telegraphic devices they had no need of. He came into the office one day when it was impossible to obtain communication between New York and Albany, and the seat of the difficulty could not be located. He was banteringly invited to remedy the trouble. He said he could do so in two hours. He was laughed at and given two days for the task. His process was very simple. He telegraphed to the best operator in Pittsburg, and instructed him to telegraph to the best operator in Albany. The latter telegraphed his New York line down as this weapon Flournoy advanced again far as he could, feeling his way from point to point, and sending the results to the Pittsburg man, who forwarded them to Edison. In less than one hour Edison said to the anxious officials: "The break is two miles from Poughkeepsie." That simple method insured his status with the Western Union peo-

his schemes.—Philadelphia Times. Idve and Learn. The Washington Star has heard of young lady who went into the country

ple and won for him a hearing in all

full of a disposition to be interested in ural sights and sounds. On the second day she saw a farmer walking slowly between the rows of his garden and picking something into tin dish. She went near, but could

not solve the mystery. "Excuse my ignorance," she said, politely, "but I can't see any fruit on hese vines."

"No?" answered the farmer. "No, I don't see anything but leaves and flowers. What are you picking?" "'Tater bugs," said the farmer.

Dried sunflower blossoms are eaten by the poorer natives in Bombay and Bengal twice a day.

Drs. Maybe and Mustbe.

You choose the old doctor before the young one. Why? Because you don't want to entrust your life in inexperienced hands. True, the young doctor may be experienced. But the old doctor must be. You take no chances with Dr. Maybe, when Dr. Mustbe is in reach. Same with medicines as with medicine makers, - the long-tried remedy has your confidence. You prefer experience to experiment - when you are concerned. The new remedy may be good-but let somebody else prove it. The old remedy must be good-judged on its record of cures. Just one more reason for choosing Ayer's Sarsaparilla in preference to any other. It has been the standard household sarsaparilla for half a century. Its record inspires confidence-50 years of cures. If others may be good, Ayer's Sarsaparilla must be. You take no chances when you take Ayer's Sarsaparilla.

THE FAMOUS FIGHT BETWEEN

FLOURNOY AND GARTH. With Bowle Knives and Revolvers THE death of Dr. David Flour-

noy at the Virginia Home for Incurables in Richmond recently recalls one of the most remarkable street duck in the history of Virginia. The participants belonged to old and well-known Virginia families, and they fought with bowie Dr. Flournoy was born in Charlotte

County, Virginia, and was reared under the strict influence and discipline of the Presbyterian Church. He came of a proud family of Virginians who scrupulously preserved their self-respect at all times, and were guided by he laws of honor as they were taught in Virginia under what is now known as the old regime. At the time of the duel Dr. Flour-

noy was a medical student at the University of Virginia. At the same institution was his friend and kinsman, Thomas Carrington, of Arkansas. The latter's father was a member of the well-known Virginia family of that name. Flournoy and Edgar Garth were the principals. Garth belonged to the daring family of that name who have been known in Albemarle, Va., for years through their fearlessness, determined, and the fight ended only atter Garth had fallen to the ground

A few months before Dr. Flournoy's are exhibited various rusty muskets, death he told the story of the duel to pistols, leg irons and manacles, as well an intimate friend. One morning as an original copy of a "ticket of early in April, 1854, Flournoy and colony. The 'tween deck is fitted with from the "old book store" to the unicells on each side, every cell having versity grounds, just as Edgar Garth, been for the accommodation of three with a friend named Frye, were drivmen, and on the lower deck, where no | ing a herd of cattle over the walk. light and but little air could penetrate, | Carrington kicked one of the cows are the dark, solitary cells, which must from his path, whereupon Garth swore almost have been living tombs to the at the young student. He dismounted occupants. At the end of each cell is a and dared the two students to leave space shut off by iron rails called the the campus. Without much further "tigers' den," which was used for thoso ado the fight began with an attack upregarded as irreclaimable. Here the on Carrington by Garth, while Frye most outrageous offenders were herded faced Flournoy. The latter soon together in semi-darkness, and often broke Frye's nose with a brick, and then turned his attention to Garth, selves as the result of an old grudge or who had downed Currington and was beat a retreat. Garth left, vowing vengeance upon Flournoy for inter-

Those who knew Garth's reputation as a fighter felt certain of more trouble, so that when, three weeks later, he sent the two students word to meet him and his friend on Sunday morning to fight it out, they were not the Success in 1857 found an opportulat all surprised. Flournoy and Carrington armed themselves went to the on the shoulder, said: "You have got to take a cursing or

The reply of the wiry little Virginian was:

"I believe I'll fight." Both drew their long, sharp knives, and the fight was under way. At almoment later he made a desperate whole. It should be done on a sunny lunge at Garth, and drove his knife day, unless you have heat in the through the man's right lung, the room. point coming out under the shoulder. coming to his assistance. Dr. Flour-

ly opened fire upon Garth, and put a bullet in his breast. After emptying lanta Constitution. to close quarter. Garth's revolver was empty, and his opponent unhurt. With the blood streaming from his breast and side, and with Carrington standing by with drawn revolver to little; serve mixed with raisins. prevent Garth's frien is and brothers from interfering, the two combatants resumed the fight with their knives. Garth was wounded in three places. The blood began to gush from his mouth. With intense hatred he began slashing desperately at his opponent, who, with coolness and remarkable skill, defended himself from

emboweled his adversary. At that moment a policeman rushed

will kill you.' "Waving his weapon over his head, over. young Flournoy replied: "I will kill you, too, if you come

nearer.

Then it was that Woods Garth, the other brother of the wounded man, snapped his revolver at Flournoy, but the weapon failed to fire. Flournoy was put in jail, and was bleeding profusely from slight wounds from Garth's knife. The news of the fight spread like wildfire, and soon hundreds of students surrounded the jail. Many were admitted to see Flournoy. Fourteen of his wounds were in his left, or guard, arm, and one in his back. His wounds were not very serious. In two days he was released, as it was proved that he was not the aggressor. He recovered from his wounds in a

Garth, meantime, was lying at the that Flournoy be not prosecuted, as ing tablespoons of farina, first moistthe fight was a fair one, and he was ened with a little of the juice. Boil the aggressor. ing sent to prison. Within two days after the difficulty occurred Dr. Flour- and serve.

DUEL MADE THEM FRIENDS noy was sent for by the wounded man's father, and was introduced to young Garth's mother and other members of her family, and a bond of friendship was established between the two antagonists with the family of It Arose Over Kicking a Cow Near the one assembled around what was University of Virginia - Fought thought to be his deathbed. Garth recovered, but has been dead for some

> More than twenty years ago the disease from which Dr. Flournoy died developed as a result of the wounds which he received in the bloody duel. For years he was an invalid, and appeared much older than he was. It was with some difficulty that herelated the facts in this duel. He came of a family who were strangers to fear. During the first years of the late war he was a dashing Captain of the Charlotte Cavalry, and in the latter part of the war was field surgeon in the Army of Northern Virginia. His life and character were adorned by the virtues that belonged to the men who gave Virginia a distinct individuality among the States of the Union. His sufferings were borne for twenty years without complaint .-- New York Sun.

HOUSEHOLD AFFAIRS.

TO CLEAN KID GLOVES.

Clean your kid gloves with naphtha, remembering that it is very explosive if exposed to fire or lamp light. Put one glove on, dip a piece of clean white flannel in the naphtha and rub over the glove, rubbing the spots very hard. Then rub dry with a second piece of flannel and hang in the air until the odor has evaporated. --- Ladics' Home Journal.

A DINNER APPETIZER. The dinner appetizer par excellence, is made of anchovies. This obtains more favor as a quickener of lagging boneless anchovies are preferably used for this purpose. They come in small | er been presented for payment. The cans, are denuded of head, tail and bones, and are covered with an oil like sardines. Squares of bread without crust should be toasted to a nice even brown. Two anchovies are then placed thereon, in opposite directions, n order to produce an equality of arrangement. Over the whole are then sprinkled the yolks of hard boiled eggs, crumbled up fine, the whites being chopped into cubes and disposed over the top. A dusting of white pepper and a very little salt beating him fiercely. With his last completes this remarkably delicious brick Flournoy struck Garth, who appetizer. They are frequently more follow so speedily in their wake. For supper and teas broiled sardines on toust are frequently served and are a most appetizing preliminary. -St. Louis Star-Sayings.

CLEANING CARPETS. A clean barrel which will hold twelve gallous is required. Put into the barrel three gallons of luke warm sinating the official head of the convict place appointed for the combat and water (soft water is best) then add half waited several hours, but to no pur- a pint of ammonia. Take an iron ketpose. Early on Monday morning tle, and put in three pints of water Garth sent word that if Flournoy came and six ounces of soap bark, which to town that day he intended whip- you will find at a druggists's; boil ping him. Borrowing a bowie knife twenty minutes; then strain into the from a fellow student, Flournoy, ac- barrel. Shave very thin five bars of companied by Carrington, who was good soap, and put in a boiler with armed with a revolver, went to the one gallon of water, and boil until old Monticello House, opposite the soap is all dissolved, then add one Court House. While standing at the pound of pulverized borax and boil desk, with his back to the door, Garth | ten minutes, stirring all the time, then with two of his brothers and two other pour it into the boiler, and add eight friends walke lup, and, touching him gallons of soft water, stir well and let stand until cool, and it is then ready for use. Brussels carpets can be cleaned nice'y with this soap, also ingrain carpets which are soiled, if they have no dust under them. Take two pails of water; with a brush put on a little of this soap, and scrub with warm water, one breadth, not over one yard most the first lunge Flournoy's knife in length at one time, then, with anfound its way to his opponent's collar other brush and the clean water, scrub bone and glanced. Gradually he it over to rinse it, then proceed with forced Garth out into the street. A the rest until you have cleansed the

A reporter called, on Wednesday

evening, May 8, 1895, at the residence of Mr. William McMahon, No. 1683 Pearl street, Brooklyn village (Cleveland), O., to learn, if possible, the cause of the noticeable improvement in his physical condition over that of a year ago, when he was a sufferer from indigestion and various organic disorders. "You see," bogan Mr. McMahon, "to start with, my work-that of setting type at the case--allows me little chanco for bodily exercise, and is altogether too confining for anybody who is in the least subject to indigestion or dyspepsia. Perhaps not mor sothan many another mechanic or artisan who is constantly indoors and under severe mental strain, while the physical development is sadly in need of something to keep it in trim. Well, that has been my complaint for years, and some months ago I became very bilious, and constipation made lite miserable for me at times. Then it took a seat in my LIVER, which became noticeably inactive, and I became alarmed about it. The first thing I turned my attention to was to secure a 'liver regulator,' which, however, failed to regulate; next I sought relief in 'liver pills,' which so pained and griped me that the cure was, I thought, worse than the disease. The next thing I did was to throw away the whole 'shooting match,' and resolve to take no more proprictory medicines. However, on hearing my tale of wee, one day, at the office, a fellow-workman offered me a small Tabule-Ripans he called it-which, he said, he would guarantee to act on the liver. I took it under protest, expecting to be doubled up in about fifteen minutes with the 'gripes.' But I was agreeably surprised in its action. It was very gentle, and I resolved to try a box. Since then I have gradually noted an entire change in the working of my system, and think that Ripans Tabules are the best remedy for liver and stomach troubles this side of anywhere. They are really a substitute for physical exercise. Have one before you go?' And Mr. McMahon produced his box of "stand-bys" from his inside pocket as the reporter took his leave.

Ripaus Tabules are sold by druggists, or by mail if the price (50 cents a box) is sent to Tae Ripans Chemical Company, No. 10 Sprace st., New York, Sample vi. I, 10 cents.

No, of course not. You never want any thing poor in the food line. Be careful when buying your buckwheat.

BUCKWHEAT Is by far the best and most wholesome.

COMPOUND

economy.

There's room for a little more of it. Too many women are wasting time and strength over a wash-board; rubbing their clothes to pieces; wasting their money. You'd be astonished if you could figure up the actual money saving in a year by the use of Pearline. Millions of women are using it now, but just suppose that all women were equally careful and thrifty, and that every one used Pearline! It's too much to hope for—but the whole country

would be the richer for it. Send Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as it Back Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, be honest—small THE GREAT INVENTION FOR SAVING TOLL EXPENSE WITHOUT PAULAY TO THE TEXTURE COLOR ON HAMPS.
