FINANCIAL EMBARASSMENTS. In considering any plan for the reliet of the treasury it must be borne in mind that the present administration has been in office nearly three years; and that during that period the Cleveland idea and the Cleveland spirit have prevailed in the administration of the treasury. It should be further remembered that the financial embarassments of the treasury began as soon as Mr. Cleve-land was inaugurated, and have continued without intermission since then. —Baltimore American.

It should also be remembered that the "financial embarrassments" are a legacy pure and simple left by the Republican party after thirty years rule. Our monetary system instead of being one of strength and durability has shown itself to be one of weakness and palpable inefficiency in reaching the end desired. The Republican party seems to have but one end in view and that is to tax the country with high tariffs. The party would go to war or avail itself of any opportunity to vote away a billion or more of money that it might have an excuse to clap on an excessive tariff under the plea of raising revenue. This is the present programme as indicated by what is known of the bill being prepared by the committee of ways and means of the House. This bill, it is means of the House. This bill, it is by saying that if Christendom wants to lieved her immediately. Whatever the failings of Mr. Cleve land have been he has labored assiduous ly to complete a system by which the treasury could respond to every legitiimate want, but with the aggrandizing tendency of Republicanism on the one side and the wild and impracticable theories of Populism on the other, he has had a hard time of it and unless the country will listen to the counsels of cooler heads and assert itself in a more emphatic way, the regime of the past will be but repeated in the future.

THE ELECTION IN CARROLL.
