THE LAST CARD PLAYED. Diplomatically Mr. McKinley has been treating Spain as a civilized nation. But while this was going on it has been found necessary to delay the action of Congress so that our citizens at Havana may have meantime all Spaniards in this country This is the nation which is "jealous of her | 19 knots. honor." The die now seems cast. Un-Tuesday at the latest, our fleet will make a demonstration toward Havans, and Cuba will be a free and independent republic. Spain will not only lose her West India possessions but the Phillipine Islands as well, as a revolution is again raging there and our Eastern fleet will be on hand to assist it. The country is determined that the Maine horror shall be avenged. Ironclads to settle a difficulty are a grim arbitrament but bloody, brutal Spain under the circumstances cannot longer be tolerated on this side of the Atlantic. We distrust her pretensions, are assonished at her deceit

and disgusted with her cruelty.

THE SENATE ON FIRE. There was some vigorous English in the U. S. Senate Tuesday last when it became known that the President's message would be delayed until Monday. This delay was caused by a dispatch from Gen. Lee saying that a declaration of war would imperil the lives of Amerishould be granted. Naturally those in favor of the immediate evacuation of Cuba by the Spanish became restive. Mesars, Cockerell, of Missouri; Turner, of Washington; Harris, of Kansas Kenny, of Delaware, and Chandler, of New Hampshire, spoke in the most unmistakable terms.

Senator Chandler sald: The United States ought immediately maintain that war until the people of for whatever benefits she has derived at for then the Democrats held the key by pendent republic.

The reasons for declaring war are apparent to the world. Spain has justly forfeited all title to any possession in the Western Hemisphere by her prolonged misgovernment thereof. Unjust taxation caused the French revolution, the American revolution and the Cuban revolution, and as France helped the Americans so the United States should

help the Cubans." Spain has lost all right to suppress the Cuban rebellion by resorting to inhuman methods of warfare, continuous military murders of persons suspected of disloyalty and by the deliberate and disregarded all friendly remonstrances by practising deceit through false promises of local government for Cuba; by insulting the President of the United States and by destroying through the explosion of a mine the battle ship Maine and the lives of 266 American sailors, while the ship was under the protection of Spain

the Cuban republic." HANNA, THE FELON.

After a thorough investigation by committee of the very Legislature that elected him, Mark Hanna has been found guilty of bribery. It is now a matter of official record that the President's confidential guide, the man who dictates the policy of the Administration and is allowed to drag the honor of the United States over the grimy floors of the bucket shops of New York and Washington, is a felon-one of the class for whom his State has built prisons and enacted penal

OUR PLYING SQUADRON. What is known as the flying squadron Correspondich has been rendezyousing in Hampon roads, is one of the most formidable fleets that can be gathered together by any nation. In average rate of speed, in armored protection, in calibre and num-ber of guns, and in fighting quality and discipline of men it can be proven that the composition of this flying squadron is superior, point of numbers being equal,

formed by a foreign power.
In the make-up of the squadron speed and fighting qualities have been considered. A summary of the points in comparison with those of the best boats that Spain can offer in making up a similar squadron, follows:

The four best armored cruisers that Spain bas, compared with this fleet of flyers, would be as follows:

Spanish fleet has to content itself with

The Brooklyn and New York are two of the finest types of fighting machines less Spain changes front by Monday, or in the world, having their main batteries supplied with rapid-fire guns with which very few war ships are equipped, except in a secondary battery.

The great point of vantage of this fleet is in thickness of armor, calibre of guns and the fighting qualities of the men. There are five 13-inch guns on the American flying squadron, while the whole Spanish navy has not one and only two 12 inch guns. Of 12 inch guns our squadron has four, and of eight-inch guns, 14. Spain's four selected vessels have five 11-inch guns and the rest are mainly five-inch.

When we hear of what some people pay for goods we can understand why we have such a big run of trade. We never intend to stop selling goods at low prices as long as we remain in business, and I will next say that, as long as you pay big profits you will never be able to save money, or be comfortably fixed financially. So take advice and buy for each at these prices. Lion Coffee, .09
