there Is Little Lawleseness Along the Trail, and the Gold Seekers Are Sympathetic and Helpful One to Another. Some Amusing Incidents.

[From Our Special Correspondent.]

SHEEP CAMP, March 21. Let me give you some impressions concerning the personality of the gold seekers who are now pushing their way -but, oh, so slowly-into the interior. I have talked with hundreds, learned their history, listened to their hopes and fears and in some cases have been the mend it, but its beauty in waving plumrecipient of confidences that it would age of ravishing hues, and therefore will not be right to reveal.

The genuine argonaut of 1898 is as a rule houest, frank, simple, generous, the attention of our sporting men for temperate and obliging. In at least two many years in consequence of its successcases out of three he hails from west of ful introduction on the Pacific slope, and the Mississippi and has had more or less | now many eastern states are introducing experience in mining life. What strikes | the Mongolian bird into their domains. me most impressively is the tender, al- In Ohio alone over 200 birds were liberated most childish heart that beats in his last year. rugged breast.

"I have left my wife an little girl to go away many times before," said a sturdy six footer to me yesterday, "an I always held up until this time, but I of. his strong frame shook as he turned away to hide his honest face. "But I want to get some money to take my wife back to Scotland to see her old a pause, "an, by thunder, I'll do it or I'll never go back alive!"

One of the passengers who came up on the steamer from Seattle in the steerage told me he could hear the men sob in their bunks near him at night. The Other Side.

instance of a Buston man who is out here to study life and character as he finds it. He is one of the kind that has and toes grayish black. The female has a penchant for "slumming" and is really a fine fellow. Before he left the States on the steamer he told me with modest pride and mild enthusiasm that he had engaged to go in the steerage, but from

"I want to imbibe the atmosphere of the hoi polloi," said he in choice Bostonese, "and I think it will more than balance the discomforts and bardships of the trip." We had not been out two days before

as hard as flint. I am waiting for some of our goods which got sadly mixed up in transit to Dyea, but I expect my next letter will to dated from the other side of the pass. A. A. HILL.

MONGOLIAN PHEASANTS. They May Succeed the Quall as a Game

Many sportsmen think-that the pheasant of the Mongolian kind will in a few years succeed the quall as the popular American game bird. The pheasant has not only its toothsome qualities to recomprove a prize that every sportsman will en-deavor to secure when the season is once

Mongolian pheasants are well worth all the expense and care that may be expended upon them. They evidently rank next to the birds of paradise in beauty, and, in fact, are too handsome to be made targets

pable of being erected at pleasure and very conspicuous in the pairing season; upper orange, showing in some positions beautiful reflections of light purple; each feather bordered and terminated with pansy purple; center of the belly and thighs blacksh brown; center of the back and scapular feathers black or brownish black, surrounded by a yellowish white band and bordered with deep reddish orange; lower pathos in this experience. I recall an green, intermingled with brownish orange lot until 1"__ and purplish red; tail feathers brown, with reddish brown; bill pale yellow; legs | made such a failure." feathers, and the whole of the plumage is yellowish brown, mingled with different shades of gray, brown and black.

The Mongolian pheasant was first intro-

duced into this country by Judge O. N. Denny, who was our consul general at Shanghai. He while there became deeply interested in the large variety of exquisitely plumaged birds of that section of the globe, and determined to introduce the prolific bird into the United States. His Arst experiment in 1881 was a failure, but in 1882 he selected from nine varieties the "How's this?" I asked. "Have you Chinese ring necked pheasant, the Mongolian, which is now called in Oregon, in

Couldn't Understand It. "I think," said the arctic explorer, "that I shall make another start within the next six months." "You'd better go before then," replied bis manager. "You see, it's well to strike while the iron's hot. You don't want to

take too many chances on a loss of interest, you know."
"I ain not afraid of that. My eathusiasm will never decline. However, if you think it better we will start within three months, two months or one month, which-

ever you prefer." "Good! Now, have you any preference as to where you go?"
"Certainly I have," was the astonished rejoinder. "I want to go to the north

The manager shoved his chair back and

gazed at the explorer in silent wonder. Then he slowly repeated, "To the north "Certainly to the north pole." "But, my dear man, what on earth do you wish to go to the north polo for?

There aren't any people there who would buy tickets to a lecture."—Washington Breathing Exercise.

It may not be generally known to our renders that when exposed to severe cold a feeling of warmth is readily created by repeatedly filling the lungs to their utmost extent in the following manner: Throw the shoulders well back and hold the head well up. Inflate the lungs slowly, the air entering entirely through the nose. When the lungs are completely filled, hold the breath for ten seconds or longer, and then expire it quickly through the mouth. After repeating this exercise while one is chilly a feeling of warmth will be felt over the entire body and even in the feet and hands. It is important to practice this exercise many times each day, and especibroke down an cried like a child when I the male bird has the cheeks maked and ally when in the open air. If the habit little girl saw it, she jest yelled, but I with black. The crown of the head is ever becomes universal, then consumption had to break away an leave her." And bronze green. On each side of the occiput and many other diseases will rarely, if his strong frame shook as he turned is a tuft of dark golden green feathers called the bronze green. Not only while practically and many other diseases will rarely, if ing the breathing exercise must the clothing be loose over the chest, but beginners part of the neck dark green, glossed with purple and violet blue; lower part of the clothing fitted, to allow for the permanent father an mother," he continued, after neck, breast and flanks deep reddish expansion of one inch, two inches or even three inches, which will eventually follow.—New York Ledger.

Sticide Without Pain. "Yes." admitted the man who had his feet on the table, "it is true that I did once attempt to commit suicide. "I was disconsolate, out of work, out of But there is amusement as well as part of the back and upper tail covert health, and I brooded over my unhappy "Never mind what drove you to attempt

bands of black and fringed | the deed. All that interests us is how you "I can hardly account for it myself even cheeks covered with small, closely set | now. I fired a pistol straight at my heart."

> "Toy pistol?"
> "Had chain armor on?" "Bullet hit a rib and glanced off?"
> "No," said the man, looking scornfully at the scoffers about him. "The bullet hit the looking glass in front of which I was standing and broke it into a thousand pieces."-Strand Magazine.

> Convincing. He-Women are seldom capable of reasoning. She-Don't you believe it.

He-Why not? She-Well-because.-Chicago Nows.

[Photograph by E. A. Hegg. Copyright, 1898.]

"Oh, yes," said he. "It was simply awful being down there among the dogs, the mules and the horses. The atmosphere was a little more than I could stand. I'll go first class the rest of the

Here at the camp discouraged men are selling their outfits at half price every day and going back to their

Just a word in passing concerning the reports about stealing and outlawry on the trail. I have thus far seen absolutely nothing of the kind, and there is very little drinking of intoxicants. The camp is literally strewn with goods at every hand: There are no locks or keys or any one to watch them. They are apparently as secure as if they were in the vaults of a safe deposit company. True, the punishment would be summary and severe if one were caught pilfering, but whether the absence of thieving is due to this more than the inherent honesty the argonauts I know not. I merely state the fact. A little later in the season and farther in on the trail, when a lack of forethought or some other misfortune breeds want or perhaps despera-

tion, the simetion may change. In one instance only has thieving been reported. In this case the two thieves were apprehended before they had made way with their booty, and a half dozen men started after them. One fired back twice at his pursuers, and finding escape impossible turned his pistol at his own head and killed himself instautly. The other was caught, and it was decided to give him 100 lashes. After receiving 17 blows on his back with a knotted hemp rope some one interceded in his behalf. He was then placarded with the word "thief"

compliment to the introducer, the Denny pheasant.

THE LAST HILL BEFORE REACHING THE SUMMIT OF CHILKOOT PASS

There were but 28 of these, and they all arrived safely at Portland, Or. They were mmediately liberated among the grainfields and semibrush covered and wooded prairle at Judge Denny's brother's ranch n Linn county, there to adapt themselves or go out of existence. Nothing was seen of the new birds for a

year or two, and then here and there in different portions of the county shy little coveys made their appearance, and before live years had elapsed the cucketing of the brilliant plumaged male birds was far nore commonly heard than that of their own native grouse. It should be said that through Judge Denny's instrumentality the legislature passed a law protecting the new pheasant for a period of five years, and at the expiration of this time, again at his suggestion, the time was extended for another interval of equal length. At the end of ten years Oregon was literally alive with the Mongolian pheasant, which delights the heart of every sportsman with its swift and rapid flights and tempts the most epicurean palate by its delicate white

ilesh.—Newark Call. "Baug Up." "Now, some celery," said the housewife to the marketman.

"Here's some that's bang up. Isn't is white? "Yes, it's unnaturally white." "It's the kind that sells." "I don't like it. The other there looks better to me.' The marketman laughed

A Sure Cure. "Yes, Stubbs was goin into a decline, an the doctor said the best thing for him was to get an easy government job and lie ".nidton nich bnuora "A sinceure, chi"

Spanish Conditions.

The temper of the Spanish people is marvelous indeed. A firm governmentfirm with the just intention of doing right—they are slow to recognize and tolerate, but tyranny they readily swallow, making a wry face perhaps, but no resistance. The more merciless the force opposed to them the more they find in it to admire and make obeisance to. This idiosyncrasy of the Spanish character Canovas del Castillo was swift to appreci ate and take advantage of. A writer who complacently sets him down as a great statesman and patriot in the general-the European-sense of the word, is no master of the facts. Canovas was the strong man of Spain. He was not the educator of the people or the worker of the popular inclination. His vigorous understanding was

their muscular master.

The police were on his side; a useful portion of the press, hired judiciously for the purpose; the army, and brains to set them all in motion; and so equipped Antonio Canovas del Castillo confronted the Spanish people and said, "Come on!" It kept the crowd triumphantly at bay for 80 years. But of late a change had taken place. A good deal of the old fire had burned out. Fifteen years of colonial revolt, again, impress even the thickest headed Spanish peasant into conceiving that the trouble has no business to last so long, and that his rulers, if hard and exigent toward himself, are weak, extravagant and undexterous elsewhore. And this suspicion ripens into certainty when he sees his sons torn from his side and packed over the sea, and when his taxes swell and swell and the price of bread goes up and up and still no alteration for the better.—Fortnightly Roview.

On the Sneak, An old lady who once visited Oneida was asked on her return if the canal passed through the village. She paused awhile and answered: "I guess not. I didn't see "I don't pretend to know what kind o' it, and if it did it must have gone through our you call it, but anyway he's cured." In the night, when I was asleep. "-- Exthango.
