DR. TALMAGE'S SERMON.

THE EMINENT DIVINE'S SUNDAY DISCOURSE.

Subject: "Sprinkled and Cleaused," in Which the Story of the Shedding o Blood For the Removing of Sin ! Dwelt Upon-Christ and the Soul. Text: "And the priest shall command

that one of the birds be killed in an earther vessel, over running water. As for the liv-ing bird, he shall take it, and the cedarwood, and the scarlet, and the hyssop, and shall dip them and the living bird in the blood of the bird that was killed over the running water; and he shall sprinkle upon him that is to be cleansed from the leprosy seven times, and shall pronounce him clea and shall let the living bird loose into the open field."-Leviticus xiv., 5-7. The Old Testament, to very many people

is a great slaughter-house strewn with blood, and bones, and horns, and hoofs of butchered animals. It offends their sight: it disgusts their taste; it actually nauseates the stomach. But to the intelligent Christian the Old Testament is a magnificent corridor through which Jesus advances As He appears at the other end of the cor ridor we can only see the outlines of His character: coming nearer, we can descry the features. But when, at last He step upon the platform of the New Testament id the torches of evangelists and apolles, the orchestras of heaven announce Him with a blast of minstresly that wakes up Bethlehem at midnight. There were a great many cages of birds

brought down to Jerusalem for sacrifics— sparrows, and pigeons, and turtle-doves. I can hear them now, whistling, caroling and singing all around about the Temple. When a leper was to be cured of his rosy, in order to his cleansing two of these birds were taken; one of them was slain over an earthen vessel of running waterthat is clear, fresh water, and then th taken, tied to a hyssop-branch, and plunged by the priest into the blood of the first bird and then, with this hyssop-branch, bird-dipped, the priest would sprinkle the leper hyssop-branch, and it would go soaring Now open your eyes wide, my dear brethren and sisters, and see that that first

it the iron, and in a moment the boat bird meant Jesus, and that the second bird I notice also in my text that the bird that express train. Several attempts were | was slain was a clean bird. The text denever sacrificed, nor the cormorant, nor the vulture. It must be a clean bird says the text; and it suggests the pure Jesus—the holy Jesus. Although He spent His boyhood in the worst village on earth although biasphemics were poured into His ear enough to have poisoned any one

else, He stands before the world a perfect I remark, also, in regard to this first bird mentioned in the text that it was a saulted, with its iron beak it strikes like a the shark made dove or a sparrow, we do not know just tore a big hole which. Take the dove or pigeon in your lled the yacht | hand, and the pecking of its beak on your hand makes you laugh at the feebleness o its assault.

None to help! The murderers have it all their own way. Where was the soldier the Roman regiment who swung his sword in the defense of the Divine Martyr? Did they put one drop of oil on His gashed feet? Was there one in all that crowd manly and generous enough to stand out cross any more interfered with in their work of spiking Him fast than the carpenter in his shop driving a nail through a pine nkard of beer has, we board? The women cried, but there was hear, proved unsuccessful. no balm in their tears. None to help!

Prebendary Denison started, None to help! O my Lord Jesus, none to

help!
Oh, this dove of the text, in its last mob, where the reverend gen- ment, clutched not with angry talons. It his curate went, after dis-plunged not a savage beak. It was a dove —helpless, defenseless. None to helpl

As, after a severe storm in the morning. ground, so this dead bird of the text makes me think of that awful storm that swept buses and to afford them hon the earth on Crucifixion day, when the tion with a reasonable amount wrath of God and the malice of man and the fury of devils wrestled beneath the

three crosses.

But I come now to speak to this second the course of a night. But the bird of the text. We must not let that fly in was unaware of the degree away until we have examined it. The priest original sin at least of bibulous y among the rougher classes of Hill. They evaded the rule ing together their twopences is not enough water in the Atlantic and ng each other, so that in the Pacific Oceans to wash away our smallest ing each other, so that in the sin. Sin is such an outrege of God's uni-se of the evening a member was verse that acthing but blood can atone for able to obtain half a dozen, or even it. You know the life is in the blood, and

could buy it back but blood.

As this second bird of the text was must be washed in the blood of Christ or go polluted forever. I notice now that as soon as this second bird was dipped in the blood of the first bird, the priest unloosened it and it was free-free of wing and free of foot. It could

whet its beak on any tree branch it chose. It could peck the grapes of any vineyard it chose. It was free; a type of our souls after we have washed in the blood of the Lamb. We can go where we will. We can do what we will.

If a man has become a Christian, he is no more afraid of Sinai. The thunders of Sinai do not frighten him. You have, on some August day, seen two thunder-showers meet. One cloud from this mountain, and another cloud from that mountain, coming nearer and nearer together, and responding to each other, crash to crash, thunder to thunder, boom! boom! And then the clouds break and the torrents pour, and they are that comes down so red at your feet, that it seems as if all the carnage of the storm battle has been emptied into it. So in this Bible I see two storms gather, one above Sinai, the other above Calvary, and they respond one to the other-flash to flash, thunder to thunder, boom! boom! Sinai thunders, "The soul that sinneth, it shall die;" Calvary responds: "Save them from ransom." Sinai says: "Woe! woe!" Calvary answers: "Mercy! mercy!" and then the clouds burst, and empty their treasures into one torrent, and it comes flowing to our feet, red with the carnage of our Lord —in which, if thy soul be plunged. like the bird in the text, it shall go forth free—

Why, is not a man free when he gets rid of his sins? The sins of the tongue gone; the sins of action gone; the sins of the mind forty, fifty, seventy years gone—no more in the soul than the malaria that floated in the atmosphere a thousand years ago; for when my Lord Jesus pardons a man He pardons him, and there is no halfway work Here I see a beggar going along the

turnpike road. He is worn out with disease. He is stiff in the joints. He is ulered all over. He has rheum in his eyes. He is sick and wasted. He is in rags. Every time he puts down his swollen feet, he cries, "Oh! the pain!". He sees a foun-tain by the roadside under a tree, and he crawls up to that fountain and says: "! must wash. Here I may cool my ulcers. Here I may get rested." He stoops down and scoops up in the palms of his hands enough water to slack his thirst; and that is all gone. Then he stoops down and begins to wash his eyes; and the rheum is all gone. Then he puts in his swollen feet, and the swelling is gone. Then, willing no longer to be only half cured, he plunges in, and his whole body is laved in the stream, and he gets upon the bank well. Mean-time the owner of the mansion up yonder comes down, walking through the ravine with His only Son, and He sees the bundle of rags, and asks: "Whose rags are these?" A voice from the fountain says: "Those are my rags." Then says the Master to His Son: "Go up to the house and get the best new suit you can find and bring it down." And He brings down thee lothes, and the beggar is clothed in them, and he looks around and says: "I

was filthy, but now I am clean. I PEEF—Best Beeves....\$
was ragged, but now I am robed. I was blind, but now I see. Glory be to the owner of that mansion; and glory be to of clothes; and glory be to this fountain where I have washed, and where all who will may wash and be clean!" Where sin abounded, grace doth much more abound. The next thing I notice about this bird,

when it was loosened (and this is the main idea), is, that it flew away. Which way did it go? When you let a bird loose from your grasp, which way does it fly? Up. What are wings for? To fly with. Is there anything in the suggestion of the direction of the direction of the direction of the direction of the direction. tion taken by that bird to indicate which

Rise from transitory things To heaven, thy native place." We should be going heavenward. That is the suggestion. But I know that we have a great many drawbacks. You had them this morning, perhaps. You had them yesterday, or the day before, and although you want to be going heaven-ward, you are constantly discouraged. But

times stooping. A bird does not shoot di-rectly up, but this is the motion of a bird. So the soul soars toward God, rising up in love, and sometimes depressed by trial. It does not always go in the direction it would like to go. But the main course is right. There is one passage in the Bible which I quote oftener to myself than any other: "He knoweth our frame, and He remembereth that we are dust."

There is a legend in Iceland which says that when Jesus was a boy, playing with His comrades one Sabbath day, He made birds of clay; and as these birds of clay

were standing upon the ground, an old Sadducee came along, and he was disgusted at the sport and dashed the birds to pieces, but the legend says that Jesus waved His hand above the broken birds, and they took wings and went singing heavenward. Of course, that is a fable among the Icelanders; but it is not a fable that we are dust, and that, the hand of divine grace waved over us once, we go singing toward the skies.

I wish, my friends, that we could live in a higher atmosphere. If a man's whole life object is to make dollars, he will be running against those who are making dollars. It his whole object is to get applause, he will run against those who are seeking applause. But if he rises higher than that, he will not be interrupted in his flight heavenward. Why does that flock of birds, floating up against the blue sky so high that you can hardly see them, not change its course for spire or tower? They are above all obstruction. So we would not have so often to change our Christian course if we lived in a higher atmosphere. nearer Christ, nearer the throne of God. Oh ye who have been washed in thelblood of Christ—ye who have been loosed from the hyssop-branch—start heavenward. It may be to some of you a long flight. Temptations may dispute your way; storms of bereavement and trouble may strike your soul; but God will see you through. Build not on the earth. Set your affections on things in heaven, not on things on earth. This is a perishing world. Its flowers fade. Its fountains dry up. Its promises cheat. Set your affections upon Christ and heaven. I rejoice, my dear brethren and sisters in Christ, that the flight will, after a while, be ended. Not always beaten of the storm. Not always going on weary wings. There is a warm dovecot of eternal dust where we shall find a place of comfort, to the everlasting joy of our souls. Oh, they are going up all the time—going up from this church—going up from all the families and from all the churches of the land-the weary doves

Oh, that in that good land we may all meet when our trials are over! We can not get into the glorious presence of our departed ones unless we have been cleansed in the same blood that washed their sins away. I know this is true of all who have gone in, that they were plunged in the blood, that they were unloosed from the Then they went singing hyssop-branch. into glory. See that ye refuse not Him that speaketh, for if they escaped not who refused Him that spake on earth, how much more shall not we escape if we turn away from Him that speaketh from heaven?

A good deal has been said about the rainy season in Cuba, which extends from June to September, but it is little understood except by those who have spent some time on the island. The rainfall each day is almost torrential and the mud is so deep that it is nearly impossible to get about. The winter mud on prairie roads is nothing compared with it. Once off of paved streets, if a man is on horseback, the horse sinks to his belly in the soft mud, from which it is almost impossible to extricate him. When the sun shines, between the showers, the thermometer marks 110 degrees, and as the atmosphere is humid the mugginess is some thing indescribable. The use of waterproof garments is practically out of the question, because of the high temperature, but if a person who is not acclimated is wet to the skin fevers are alwould go to almost certain death in Cuba, as the Spanish have done. Although Spain has lost more than 100,-000 troops in Cuba very few of them have fallen in battle, the larger number having died from yellow fever, which is horribly fatal under the care that can be given the sick in the field. While the mud is not so bad in the towns as in the country the filth which decays under the severe, warm rains and the hot sun breeds disease that neither American nor Spanish soldiers can withstand. The soldiers are better off in the country than in the towns and villages. But from September to June the climate is ideal and residence in Cuba in those months is a constant de-

A bedstead seasons even the early potatoes require of shaded red.—Harper's Bazar.

Bornz as a Preservative. "Borax and blessed," says a recent writer on household economics, "are almost synonymous. The uses of borax are many and great. It is, in small proportions, an excellent preservative of milk, meat, butter and all animal foods liable to decay. It softens and purifies water for all household purposes; it more than takes the and purifies sponges, removes unpleasant odors in kitchens and sinks, mparts a brilliant lustre to all glass host of other services."

To Avoid Lumpy Drawn Butter. Lumpy drawn butter for fish sauce is an impossibility if the simplest care is given to its preparation. An ounce of butter should be melted in a clean saucepan and into it sprinkled from ar ounce to an ounce and a half of fine sifted flour. This is stirred to form a thick, smooth paste that will leave the sides of the pan clean. Add to it, when this condition has been reached, half a pint of boiling water, and let it boil over the fire for ten minutes, stirring it all the time to prevent lumps. If, despite all care, some lumps have formed, it can be poured though a sieve on its way to the hot sauce dish. Despite the ease with which this unappetizing condition of the sauce is obviated, many housekeepers seem to accept the lumpy sauce as trying but inevitable.

Delicious Combination. Rhubarb canned with equal quanti ties of pineapples and cranberries is ecommended as a delicious combination. Pale green and pink effects for the popular "color teas" may be obtained by cauning pineapple when young and tender with the skin on. A good jelly not familiarly known can be made of pieplant. Wash the stalks thoroughly—but do not peel—and cut into inch pieces. Author of "Resignation" Dead. In a quiet little Kentish village, at Betteshanger Rectory, there has just passed away the wife of Canon Worthington Bliss, formerly Miss Maria Lindsay. She, in her maiden days, was the composer of that singularly touching little sacred song called "Resignation." She wrote "Far Away," "Entreat Me Not to Leave Thee" and many other hymns and ballads. After her marriage, Mrs. Bliss devoted herself to parish work, becoming much endeared to every one in her neighborhood.

A Popular Postmistress. There is a young woman postmistress in Brooklyn who has a great many postage stamp friends, and thereby last, but not least, suitable varieties. largely increased revenue. The amount I know of many persons who go to the of her salary is averaged by the sales woods to get light soil from old tree she makes. Hence, she being a busistumps, which they use for preparing nesslike young woman, whenever she a bed for roses, and, after planting meets anyone who uses stamps by the quantity she offers her wares and also offers to send them by messenger if the might-be purchaser is not within easy distance for calling. One New the first important thing is a good York business man, who buys \$150 worth of stamps a month and who lives away from large trees so much the in Brooklyn, buys always of the Brook lyn girl, and increases her salary \$3 a week without any effort on his part. The Old-Time Crosses Fashlonable.

The old-time crosses the woman has

not already taken from her packedone foot or a trifle over. A bed pre- away jewelry case can be brought out pared in this manner should grow now. That is, unless she sold them first-class roses; if your soil is a hard, long ago to the man who buys old sticky clay it should be removed to gold and sells pretty antique buckles, the depth of fifteen inches and re- rings, etc., from foreign countries. The woman has a hankering after these pretty things, and she often these pretty things, and sho often cus diseases permanently cured by the use of trades her solid jewelry, paying a Dr. Kline's Great Nerve Restorer. Send for good bonus and getting about half R. H. Kline, Ltd., 331 Arch Street, Phila., Pa. the value in return. It is not the poor woman who sells her old jewelry nowadays. The rich woman tires of her possessions and is much given to trading not only jewels, but even table silver. If she wants to trade back at any time the shopkeeper is always willing to accommodate her. He gets a bonus whichever way things go, and he earns it. He has to keep a large stock on hand to please his fastidious customers, and it must be an everchanging stock, for she soon learns everything that he has on hand and her palate must be tickled with novelties. People who do not patronize them have no idea how many of the shops doing a business in secondhand goods are in existence and have a flourishing and fashionable trade. But they do not call themselves second-hand dealers. Not at all, they are dealers in antiques, and if Mrs. Black's silver should some time get to Mrs. White's table, it is ten chances to one that Mrs. Black and Mrs. White are not acquainted, or if Mrs. Black sees one of her possessions on Mrs. White's table she thinks it is merely

> a coincidence. Etiquette of Weddings.

The fashionable wedding invitation is a voluminous affair. First, there is the invitation to the ceremony, enonce, and with this are inclosed the card for the reception, the card for admission to the church and the at home card of the young people, if the time and place of their at nomes are decided on, the exception being that they are not. If the wedding be out of town it is the correct thing to inclose also a memorandum of the trains to take, and if a special car is provided for guests, a card of admission to such car is inclosed.

Of course, one can and does economize by engraving the time and place of the reception upon the invitation sheet, but this is not considered good taste, the correct thing being to have a separate card for each separate

If the marriage is private announcements should be sent to every one who would otherwise have been invited. If these are sent out by the parents of the bride it should be done immediately after the marriage, as she is no longer one of their household most convenient shelter, such as a after she leaves it with her husband. piece of board, log, etc., and there If the announcement is later, it should transforms into the fly or adult stage. be sent in the name of the couple. There is a difference of opinion as to If the newly married pair have decided how the grub gets under the skin. on a day or days at home, a card for those days is inclosed with the aunouncement.

The bride acknowledges her presents as soon as possible, using paper with provided beforehand by the bridegroom. A letter of thanks is not necessary, but the note must contain n few well-chosen words in the bride's own handwriting. Cards with a sentence of thanks are not considered "good form."

Utilizing His Poem. A man with long hair and a shiny coat laboriously climbed the stairs to "I have here," he remarked, "a

valuable paper." The managing editor took the manuscript, and, after gazing few moments, remarked: "We cannot use these lines as

poetry, but if you will leave them we

will try to dispose of them. I believe they can be used for golf hose." "Pray tell me," said the astonished poet, "why you deem my lines available for use as golf hose?" "They have no feet."

sensation. until at last the blood began to course freely and vigorously through his body. Soon he was restored to his old time health A reporter for The Monitor recently called on Mr. Petch again and was told: "You may say there is no doubt as to my cure being permanent. I am in better Dr. Williams' Pink Pills for Pale People. "To these pills I own my release from the living death, and I shall always bless the day I was induced to take them." Such is the history of one of the most re-markable eases in modern times. In the face of such testimony, can anyone say that Dr. Williams' Pink Pills are not entitled to the careful consideration of every

sufferer-man, woman or child? Is not the case, in truth, a miracle of modern medi-These pills are sold by all druggists and are considered by them to be one of the most valuable remedial agents known to

Spread of the English Language. Mr. Gladstone lately expressed himself as believing that English is to be the language of the future. Mr. Gladstone's reasons are based on what has happened within his own lifetime. When Mr. Gladstone was born English was spoken by 30,000,000 of people. It is now spoken by 120,000,000. The number of people in the earth who speak English is doubled every forty years This forms the basis of a very simple calculation as to when the entire population of the earth shall speak English. The two great English-speaking countries are Great Britain and the United States. Wherever Great Britain goes she carries the English language, and whoever comes to the United States learns It. -

Platonic love is a sort of prologue to he real thing.
