THE CZAR AS A HUMANITARIAN. The Czar of all the Russias has come to the front with a peace proposal in the shape of a note to the powers, pleading that they join him in a general disarmament. The Czargives several potent reasons why the nations of Europe should disarm and all humanitarians will say amen to the move, but long-headed diplomats are already shaking their heads in doubt. Russia is a great and powerful nation but she has probably taken off a larger bite than she can chew. She has on hand several huge national schemes which requiremoney and time for development. At present strained relations exist between Russia and England. The latter at any time may make a demand which will mean war or Russia's acceptance. Russia is well aware that England is prepared to blow her out of the water. And beside can any one believe that the Czar

is sincere on thumanitarian grounds?

When he concludes to grant his people a

constitutional form of government there

will be some semblance of sincerity in

his avowed interest in the general good.

Good works should begin at home.

A movement has been started in New York to secure an educator of experience to go to Cuba and undertake there the organization of a common school system This is a move in the right direction Free schools and a free press will be the bulwark of Cuban peace and prosperity. Politically and socially her people are at sea and will remain so until they are able to comprehend intelligently a government of the people and by the people as wrought out and sustained by the people of the United States. And this proceed the proceeding of the united States are the people of the united States. And this proceeding the people of the united States are the proceeding to the proceeding th will not be reached by the people of Cuba until every man can read. Heretofore they have been systematically deceived. Now they will have opportunity to know the truth.

The annexation sentiment seems to be growing apace in the United States. In foreign countries, however, with the exception of Great Britain, the idea of American control of the Phillipines seems to be repugnant for many reasons. chiefly because it means the possible entry into foreign diplomacy of vigorous American methods. While this would perhaps accomplish much good for America, the older nations fear it. What Mr. McKinley will do no one ards who ran away." knows at present but himself.

The country is full of trouble over the nickness in the army camps. Everybody has a suggestion to make as to how it could have been avoided, but few get to he real source of trouble—the spoils system. So long as men are appointed to positions solely through political influences-so long as appointments are not a question of ability or capability, but depend on political influence, on financial standing, relationships, and even a money consideration-so long will these evils continue.—Carlisle (Pa.) Sentinel.

Graceful recognition has been made by President McKinley of Maj. Gen. Fitz Hugh Lee's eminent and varied services, by the unsolicited appointment of his son, a second lieutenant in the regular army. Young Lee, with others, will soon take the examination in New York, and a commission will follow.

This promises to be the quietest cam paign ever known in Texas. The Democratic nominees are sure of election all

over the State.

Pensions for a Million, In the brief abstract of the forthcoming annual report of Commissioner Evans, of the Pension Bureau, which has been given to the public, the total number of pensioners on the roll on June 30 last is stated at 1.051,355. This is not a constant figure, for names are continually being dropped and added; and the general public will take curious note of it only because during the last fiscal year, for the first time in the history of pension legislation and administration, the number of beneficiaries of this sort of Government bounty passed beyond the million mark, in the neighborhood of which it had been hovering for two or three years. With the Dependent Pension act still a law, and with the new and material accessions from the recently organized army and marine force engaged in the war with Spain, the way to the million and a quar-

ter mark should now be comparatively The enormous annual pension bill of nearly \$150,000,000, so unique and unexampled in the history of wars and war legislation in civilized nations, has become an accepted fact in our system of polity; and none now living may reasonably hope to see it materially reduced or modified. It is an enormous financial burden, unbearable except by a nation of

assuming to be agents.

NEGLECTED SOLDIERS.

erious Charges by an Army Surgeon Who Was on the Olivette. Charges of mismanagement in the medical department of the army were published in Chambersburg, Pa., over the signature of Dr. James S. Kennedy, First Assistant Surgeon of the Second Division hospital, Fifth Army Corps, written near Santiago on Aug 12. Dr. Kennedy was appointed Surgeon last month and went to Santiago on the Olivette. He was with in an attempt to properly schedule Assistant Surgeon in the regular army seventeen years ago. The Second Divis ion hospital had thirty-two large hospital tents, all crowded so that there was little room between the cots. Dr. Kennedy

"There is an utter lack of suitable medcines to combat disease. There has been so much diarrhora and dysentery and fever, and no medicine at all to counterect them, that men have actually died for want of it. Four days after my reporting iere there was not a single medicine in he entire hospital for the first two diseases and nothing but quintne for the ever. The same lack of medicine existed it the time of writing the letter." As to the Olivette Dr. Kennedy makes

his charge: "I came down on the Olivette myself and saw stacks of medicines and supplies, such as the sick and wounded crave, and l also saw a favored few break open boxes of champagne and liquors and eat ice cream packed in the cold storage department by the Red Cross people, having the Red Cross on each package. Not one particle of that lot ever reached a hospi-

Surgeon Kennedy also says regarding the Olivette : "Yesterday, Aug. 11, a certain regiment left its encampment to go on board ship to go North, and ten hours afterward a private who had been left behind started back to his former encampment to sleep (no private soldiers being allowed in Sandago after dark), and on reaching his camp found ten men abandoned. No medicine, no food, no nurses or physicians—simply abandoned to starvation or suicide. As to the frequent suicides which occur the reports go all right when the facts are not known."

Surgeon Kennedy is now at Montauk

Trying Experience of W. B. Collier of the U. S. Cavalry. The Chicago News of the 30th ult. publishes the following interesting letter from W. B. Collier, of the Second U. S. Cavalry. The writer, as is known to some extent here, is a brother of Mr. John M. Collier, of this place. The letler is dated August 3, and describes his part in the fight on San Juan hill and the scene when the American flag was flung to the breeze in captured Santiago.

"We have our 2 o'clock rains each day and then the sun comes out and just burns. This is a good climate for snakes, lizards, etc. Many of the boys have died, but, thank God, I am still in the land of the living. Words are inadequate to express the feeling of pain and sickness when one has the fever. For about a week every bone in my body ached and I did not cate much whether I lived or not. The doctor shoved quinine into me by the spoonful until my head felt as if all the bells in Chicago were ringing in it. I could hear them, even when delirious. The news that we are to go back to the United States in a few weeks has saved many a boy's life.

FEAR YELLOW FEVER.

FEAR YELLOW FEVER. bans worth one of the lives of those brave boys we have buried here. "As to the fight, our four troops of the 2d United States cavalry were the only mounted ops in Cuba. We were the staff escort. troops in Cuba. We were the staff escort. It tell you it is worth all the trials and hardships and sickness which I underwent, when I contemplated the scene of the surrender of Santiago. When old glory went up I cried and felt ashamed and looked around to see if any of my comrades had noticed me. I found they were all crying. Then we began to laugh and yell again so we would not be babies. I teh you it was the proudest moment of my life.

P.CKS OFF SPANIARDS.

"I was in the San Juan hill fight. We were used mostly as scouts. I know there are two or three poor Spaniards killed or in hospitals. I took it coolly and just shot at every Spaniard I could see, far or near. I am sure I dropped three. It is quite ticklish at first to be under fire, but the novelty soon wears off. We really had to fight the Tist New York to drive them back to the lines when they stampeded. Some of the companies fought like demons and they will not notice the cow-P.CKS OFF SPANIARDS.

CATONSVILLE,

Late Thursday night of last week Mr. Frederick Maisel, Sr., died at his home, ing; 3.30, preaching at Oakland Mills; 7.45 517 Ingleside avenue, Catonsville, of a complication of maladies, brought on by old age and general debility. He was one of the oldest residents of Catonsville, being seventy-five years of age. He was born in 1823, in Bremen, Germany, and came to this country when about thirteen years old. He then completed his apprenticeship as a carpenter, bought a lot of woodland from Peter Hawse. cleared it up unaided, built his present home upon it, and then married Miss Elizabeth Ruff. He leaves seven children. His first wife having died he married a second one five years ago, by

whom he has one child. William S. Bacon, colored, was arres ted Monday night at Catonsville by Police Officer Bewley, on charge of disturbing divine worship at Adams Grove campmeeting. Bacon, who was in a fighting humor, invited Rev. J. F. Wagoner, the officiating minister, to engage in a ugilistic contest.

Marguerite Whitney, the young daugh ter of John Z. Whitney, of Catonsville, is dangerously ill with scarlet fever. Three children of George W. Kimmelshue are ill with typhoid fever. Edward Maisell and a railway switch; W. Painter, Baltiand Albert Lynch are suffering with the same disease.

A CASE OF GROSS IGNORANCE DEVEL-OPED IN AN ASSESSOR'S OFFICE.

For THE TIMES. An assessor, in the Western section of Baltimore City, while prosecuting his duties in the assessment of personal property under the new assessment law, ed with the end of the war with Spain met with an amusing case of supreme | are fully discussed by the editor, while ignorance, and gives it to the public as a parallel to the many ludicrous happenings daily encountered in the daily routine of the trials and tribulations met

the personal effects of the citizens. A lady, having been called on by the official, was requested to make a return on the blank left with her for that pur ose, and, subsequently, handed in the following list:

"I Bad rom Sute wanot 3 peses an 1 1 Rafregrater 1 Tabil 7 Oko chars 1 Oald Rittin Dest Childruns Dest Bade clothi Picters and Fraims

To the question on the schedule, "Wha amount of Insurance did you carry on the above for 1897?" A week later she again called on the official. She was now clad in deep mourning, and, amid a flood of tears, besought the polite and sympathizing gentleman to intercede for her in securing a check for the amount she had "put in the paper" for her son. When questioned as to what occasioned her emotional trouble, and what she meant by asking for a check, she replied, "He's dead and buried in Louden Park, and the money'll do me a leap o' good ef you'll git it for me!" It soon developed that she imagined she had insured her son's life in place of scheduling her "propperti" for the next tax

levy.
When such ignorance is met within an enlightened section of the city, what can be expected from the plebeian class who are called upon to make similar returns to the Appeal Tax Court?

The Fifth to be Furloughed. Those having the matter in charge have been a good deal concerned as to the best camping ground for the Fifth Maryland Regiment when it comes home. According to Brigadier-General Lawrason Riggs the regiment will not go into camp at all. A despatch to the Baltimore American, from Huntsville, Tuesday, stated that the Fifth would be sent home at once and furloughed for thirty days. This is according to the order relating to the mustering out of the volunteers and the granting of furloughs promulgated by Adjutant General Corbin.

The Packers at the Battle of Santiago de Cuba were all Heroes.—Their Heroic Efforts in Getting Ammunition and Ra tions to the Front Saved the Day.

P. E. E. Butler, of pack-train No. 3 writammunition and rations, but thanks to Chamberlain's Colic, Cholera and Diarrhoea Remedy, we were able to keep at work and keep our health; in fact, I sincerely believe that at one critical time this medicine was the indirect saviour of our army, for if the packers had been unable to work there would have been no way of getting supplies to the front.
