WARFIELD FOR GOVERNOR.

Saturday Review: The announcement that Mr. Edwin Warfield, president of the Fidelity and Deposit Company of Maryland, is a candidate for the gubernatorial Democratic nomination cannot be otherwise than gratifying to a large portion of the community, and particularly to those who are disposed to consider the qualifications of the man above the principles or promises of the party he represents. Mr. Warfield is a Democrat in more than a political sense. He is a man of the people. What he is, he has made himself. Backed by brains he has devoted an indefatigable energy to shape for himself a success in life which he has achieved in the institution he conceived, founded and built up to its present importance. Of late years he has taken little if any active part in politics, but has always been a consistent Democrat without being any man's man or party's tool. Should he receive the nomination he will, if elected-and that will drew from them? follow as a sequence of his choice-make as good a Governor as the State of Maryland ever had, bringing to the office that wide business experience and executive establishing one of the greatest institutions of ite kind in the country.
